Submit certi-
ficate of Medical Board
without which leave
cannot be granted.

This is to certify that W. St. Willock Esquire, Madras Civil Service, was severely bitten by a Chetah last year on the left upper arm, and left ankle joint. The wounds on the arm healed without much trouble, but the wound across, and in front of the left ankle joint took a long time to heal, erysipelas supervened and abscesses formed leaving considerable stiffness of the joint, and was unable to walk for a long time. The mobility of the joint has improved, but to obtain the full use of it, I think it advisable for him to proceed to England to obtain further advice and Surgical assistance from an Orthopedic Surgeon.
