CHIEF SECRETARY
27 OCT 1888
GOVERNMENT OF MADRAS

Monegar Choultry
26th October 1888

From
The Directors of the Monegar Choultry
2/44 Madras.

To
His Excellency The Right Honorable
The Governor in Council
Fort Saint George

Your Lordship,

We have the honor to submit
to Government the Annual Report and
Accounts connected with the Monegar
Choultry, the Native Infirmary, Asylum for
Foundling and Stray Children, Rajah of
Venkatagherri's Choultry, and Sri Saradai
Ramasami Mudaliars lying in Hospital
for the year 1887.

2. The receipts of the year under
report amount to Rs. 21057.7.2 being
Rupees 2100.15.6 more than in 1886
and the expenditure to Rs. 16488.6.4
as shown below.

Receipts for the year ending 31 Dec/87

4. The Subscriptions and Donations rose from Rs. 1583.11.9 in 1886 to Rs. 3921.2.3 in 1887. This increase is almost entirely due to the donation of Rupees 2000 from Mrs. Mary Etherajooloo, a native Christian of Madras.

Reporting to what extent

the funds for the year
- cost of the cases in the
during 1887/88 were paid

C. J. 512
R. P. 5

Statement was by against 74 in 1886, and of Patients in the Native Infirmary 104 against 124 in 1886. In the Foundling Asylum, the number of Children was 2 against 5 in 1886. The expense incurred on account of dieting paupers was Rs. 1925. 7. 10, or, on an average, 1 Anna $3\frac{1}{4}$ pies per head per day. The cost of maintenance of the patients in the Native Infirmary during the year under report has been Rs. 6406. 7. 2. or almost the same as in 1886, although in that year 6966 more patients were admitted. The comparative Extra cost is due to a larger allowance of nutritious and expensive food and so called "Extras" having been prescribed by the Surgeon in charge.

The charge on account of Children in the Foundling Asylum was Rs. 44. 1. 8 or on an average, 10 pies per head per day 6.

The total number of patients admitted into Sir Savalai Ramasami Mudaliar Lying in Hospital was 510 against 433 in 1886. The cost of dieting was Rs. 900. 3. 3 against Rs. 552. 5. 11. The extra expenditure under this head is chiefly due to the so called "Batta System" having been more largely adopted. Women who come to the Hospital within 10 days before of their

their confinement are kept under supervision and receive 2 annas batha a day which enables them to await their trial without going back to manual work and thus avoid the risk of miscarriage.

7. The daily average number of pauper inmates in the Rajah of Venkatagharris' Choultry was 52 besides 108 Out-Door paupers supplied with rice doles of two ollocks a day, while in the year 1886 the number of pauper inmates was 57 and of Out-Door recipients 108, and the cost of dieting was Rupees 3340. 14. 2 against Rupees 3837. 11. in 1886.

8. In G.O. No. 106, Public Department dated 26th January 1888 reviewing the Report and Accounts of the Monegar Choultry for 1886 it is noted that though the number of Out-Door paupers dieted in the Rajah of Venkatagharris' Choultry was less than in 1885 the dieting charges on their account were higher. We have to state that the increase in the expenditure is owing to the higher rate of rice ruling in 1886 which was 13½ Annas per Marcal against 12 annas in 1885. This extra cost neutralized the saving effected by the distribution of rice

rice to a smaller number of paupers.

9. The total receipts from interest during the year, as per Treasurer's Cash Abstract, were Rupees 4240. . . and the expenditure for the same period amounted to Rupees 3340. 14. 2.

10. Such of the paupers as are physically fit continue to do some light work in connection with the Garden, Kitchen and the Wards.

11. The Tamil School attached to the Monegar Choultry and founded by Lord Napier and Ettrick and the Honble. R. S. Ellis, is attended daily by 12 children. With the view to encouraging the attendance of the outside poor children, it is hoped when funds are available, to resuscitate the practice of supplying each child with one substantial meal a day.

12. We take this opportunity of thanking Government for sanctioning an additional annual grant to meet the Municipal Assessment on the Monegar Choultry buildings.

13. The thanks of the Directors are due to Sir Saralai Ramasami Mudaliar Knight, C.I.E., for his munificent endowment of Rs. 16000 in Municipal Debentures of 6% ~~lump~~ on the completion of a Surgery and a new ward called the "Victoria

Victoria Ward" in addition to his Lyng-an Hospital in commemoration of the Jubilee of the Empress of India as well as for a treat given to the paupers and patients of the Monegar Choultry on the occasion of his son's Schooling Ceremony.

14. The Directors tender their thanks to the same gentleman for his careful audit of the monthly and Annual Accounts of the Institution.

15. Thanks are also due to Rajah G. K. Gajapathi Rao for his liberal donation of Rupees 10000 devoted with the Monegar Choultry funds as the Endowment of a "Vizagapatam Sree Godavari", also to the Maharajah of Travancore for his treat to the paupers of the Monegar Choultry and patients of the Native Infirmary, Mr. P. V. Mannickam Mudaliar for his gift of cloths to the inmates of the Native Infirmary, to Mr. Gopathi Mahathara Chettiar for his donation of a 100 quilts and to Mr. C. Getherajisloo Aidi for his treat to the paupers and inmates of the institution and for the gift of cloths in honor of his niece's marriage.

16. Before concluding our Report we wish to place on record our high appreciation.

appreciation of the services rendered to the Monegar Choultry and its affiliated Institutions by Surgeon Major D. R. Thompson M.D. C.S. late Surgeon of the 1st District (now retired) in medical charge since the year 1875, who, through his indefatigable energy and self denying labours, contributed largely towards making the Monegar Choultry one of the most useful and charitable Institutions of the town.

17. In conclusion we regret to record the death of two Directors viz: Captain J. H. Taylor and Mr. C. Singaravalar Mudaliar. Both these gentlemen always evinced great interest in the welfare of the Monegar Choultry.

READ—the following paper :—

From the Directors of the Monegar Choultry, Madras, to His Excellency the Right Honorable the Governor in Council, dated Monegar Choultry, 25th October 1888, No. 3709.

We have the honor to submit to Government the annual report and accounts connected with the Monegar Choultry, the Native Infirmary, Asylum for Foundling and Stray Children, Rajah of Venkatagherri's Choultry and Sir Savalai Ramasami Mudaliar's Lying-in Hospital for the year 1887.

2. The receipts of the year under report, amount to Rs. 21,557-7-2, being Rs. 5,220-15-6 more than in 1886 and the expenditure to Rs. 16,488-6-4 as shown below :—

3. Under the heading of Interest on Government Securities, the receipts in the year 1887 exceeded those of 1886 by Rs. 2,605-7-8, which excess is due to a sum of Rs. 1,302-11-10 belonging to the revenues of 1886 having been drawn and credited in 1887 accounts—vide paragraph 2 of report for 1886.

4. The subscriptions and donations rose from Rs. 1,583-0-9 in 1886 to Rs. 3,921-2-3 in 1887. This increase is almost entirely due to the donation of Rs. 2,000 from Mrs. Mary Etherajooloo, a Native Christian of Madras.

5. The average daily number of paupers maintained during the year in the depot choultry according to the comparative statement was 67, against 74 in 1886, and of patients in the Native Infirmary 104, against 124 in 1886. In the Foundling Asylum, the number of children was 2, against 5, in 1886. The expense incurred on account of dieting paupers was Rs. 1,925-7-10, or on an average As. 1-3½ per head per day. The cost of maintenance of the patients in the Native Infirmary during the year

under report has been Rs. 6,406-7-2, or almost the same as in 1886, although in that year 6,966 more patients were admitted. The comparative extra cost is due to a larger allowance of nutritious and expensive food and so-called "extras" having been prescribed by the Surgeon in charge.

The charge on account of children in the Foundling Asylum was Rs. 44-1-8, or on an average 10 pias per head per day.

6. The total number of patients admitted into Sir Savalai Ramasami Mudaliar's Lying-in Hospital was 510, against 433 in 1886. The cost of dieting was Rs. 900-3-3 against Rs. 552-5-11. The extra expenditure under this head is chiefly due to the so-called "batta system" having been more largely adopted. 8. In G.O., No. 106, Public Department, dated 26th January 1888, reviewing the report and accounts of the Monegar Choultry for 1886; it is noted that though the number of out-door paupers dieted in the Rajah of Venkatagherri's Choultry was less than in 1885, the dieting charges on their account were higher. 3. Including opening bank balances, the total receipts of the 1887 exceeded those of 1886 by Rs 5093-14-1. This increase is mainly due (a) to the fact that three half-years' interest on the capital in the hands of the Comptroller General was received during the year under review & only one half year's interest in 1886, (b) to the receipt during 1887 of a ^{special} ~~sum~~ donation of Rs 2000 from the late Christian lady, Mrs Mary Stenographer

The large decrease under heads (A) & (C) has been explained. It is also shown that the decrease in the number of persons treated in the hospital, which has commented on in reviewing the report for 1886 has continued during the year has under review, though not to so large an extent. In spite of the large decrease in the number of persons returned in the various other hospitals, the diet charges of infirmaries, which would be much the same, have been almost equal to the previous year, owing to the higher prices prevalent during the year under review, etc.

The figures given below appear to be correct. [There are 100,000] of the daily minimum. In future report the total number of persons during the year admitted should also be given. No less

more liberal allowance of food extras for the infirm patients. The average cost of dieting each person in the hospital was $\text{Rs } 1-5\frac{1}{4}$ against as $1-2\frac{1}{2}$ in 1886. The increased assistance afforded by Sir Rameswamy Sundarling in hospital is not without satisfaction, as also the fresh instance of the generous public spirit of the founder, viz. to increase 13% the grant, the liberal management of the Raja of Venkateswara in para 15.

GOVERNMENT OF MADRAS.
PUBLIC DEPARTMENT.

READ—the following paper :—

From the Directors of the Monegar Choultry, Madras, to His Excellency the Right Honorable the Governor in Council, dated Monegar Choultry, 25th October 1888.

We have the honor to submit to Government the annual report and accounts connected with the Monegar Choultry, the Native Infirmary, Asylum for Foundling and Stray Children, Rajah of Venkatagherri's Choultry and Sir Savalai Ramasami Mudaliar's Lying-in Hospital for the year 1887.

2. The receipts of the year under report, amount to Rs. 21,557-7-2, being Rs. 5,220-15-6 more than in 1886 and the expenditure to Rs. 16,488-6-4 as shown below :—

Receipts for the year ending 31st December 1887.

Total	4,368 5 6	2,839 12 11	9,276 3 11	16,488 6 4

3. Under the heading of Interest on Government Securities, the receipts in the year 1887 exceeded those of 1886 by Rs. 2,605-7-8, which excess is due to a sum of Rs. 1,302-11-10 belonging to the revenues of 1886 having been drawn and credited in 1887 accounts—vide paragraph 2 of report for 1886.

4. The subscriptions and donations rose from Rs. 1,583-0-9 in 1886 to Rs. 3,921-2-3 in 1887. This increase is almost entirely due to the donation of Rs. 2,000 from Mrs. Mary Etherajooloo, a Native Christian of Madras.

5. The average daily number of paupers maintained during the year in the depôt choultry according to the comparative statement was 67, against 74 in 1886, and

of patients in the Native Infirmary 104, against 124 in 1886. In the Foundling Asylum, the number of children was 2, against 5 in 1886. The expense incurred on account of dieting paupers was Rs. 1,925-7-10, or on an average As. 1-3½ per head per day. The cost of maintenance of the patients in the Native Infirmary during the year under report has been Rs. 6,406-7-2, or almost the same as in 1886, although in that year 6,966 more patients were admitted. The comparative extra cost is due to a larger allowance of nutritious and expensive food and so-called "extras" having been prescribed by the Surgeon in charge.

The charge on account of children in the Foundling Asylum was Rs. 44-1-8, or on an average 10 pies per head per day.

6. The total number of patients admitted into Sir Savalai Ramasami Mudaliar's Lying-in Hospital was 510, against 433 in 1886. The cost of dieting was Rs. 900-3-3 against Rs. 552-5-11. The extra expenditure under this head is chiefly due to the so-called "batta system" having been more largely adopted. Women who come to the hospital within 10 days of their confinement are kept under supervision

Comparative Statement of cost of		Diet.			Batta.		
		RS.	A.	P.	RS.	A.	P.
In 1886	..	438	7	11	113	14	0
In 1887	..	503	5	3	396	14	0

and receive 2 annas batta a day which enables them to await their time without going back to manual work and thus avoid the risk of miscarriage.

7. The daily average number of pauper inmates in the Rajah of Venkatagherri's Choultry was 52, besides 108 out-door paupers supplied with rice doles of two o'clock recipients 108, and the cost of the dieting, &c., was Rs. 3,340-14-2, against Rs. 3,837-11-0 in 1886.

8. In G.O., No. 106, Public Department, dated 26th January 1888, reviewing the report and accounts of the Monegar Choultry for 1886, it is noted that though the less than in 1885, the dieting charges on their account were higher. We have to state that the increase in the expenditure is owing to the higher rate of rice ruling in 1886, which was 13½ annas per malka, against 12 annas in 1885. This extra cost neutralized the saving effected by the distribution of rice to a smaller number of paupers.

9. The total receipts from interest during the year, as per Treasurer's cash abstract, were Rs. 4,240, and the expenditure for the same period amounted to Rs. 3,340-14-2.

10. Such of the paupers as are physically fit continue to do some light work in connection with the garden, kitchen and the wards.

11. The Tamil school attached to the Monegar Choultry and founded by Lord Napier and Ettrick and the Honorable R. S. Ellis is attended daily by 12 children. With the view to encouraging the attendance of the outside poor children, it is hoped when funds are available to resuscitate the practice of supplying each child with one substantial meal a day.

12. We take this opportunity of thanking Government for sanctioning an additional annual grant to meet the Municipal assessment on the Monegar Choultry buildings.

13. The thanks of the Directors are due to Sir Savalai Ramasami Mudaliar, Knight, C.I.E., for his munificent endowment of Rs. 16,000 in Municipal debentures of 6 per cent. on the completion of a Surgery and a new ward called the "Victoria Ward" in addition to his Lying-in Hospital in commemoration of the Jubilee of the Empress of India, as well as for a treat given to the paupers and patients of the Monegar Choultry on the occasion of his son's schooling ceremony.

14. The Directors tender their thanks to the same gentleman for his careful audit of the monthly and annual accounts of the institution.

15. Thanks are also due to Rajah G. N. Gajaputti Rao for his liberal donation of Rs. 10,000 invested with the Monegar Choultry funds as the endowment of "Vizagapatam Sree Godavari," also to the Maharajah of Travancore for his treat to the

paupers of the Monegar Choultry and patients of the Native Infirmary, Mr. P. V. Manickam Mudaliar for his gift of cloths to the inmates of the Native Infirmary, to Mr. Gopathi Mahathava Chettiar for his donation of a hundred quills and to Mr. C. Yetherajooloo Naidu for his treat to the paupers and inmates of the institution and for the gift of cloths in honor of his neices' marriage.

16. Before concluding our report, we wish to place on record our high appreciation of the services rendered to the Monegar Choultry and its affiliated institutions by Surgeon-Major D. R. Thompson, M.D., C.I.E., late Surgeon of the 1st District (now retired) in medical charge since the year 1875, who, through his indefatigable energy and self-denying labors, contributed largely towards making the Monegar Choultry one of the most useful and charitable institutions of the town.

17. In conclusion, we regret to record the death of two Directors, viz., Captain J. H. Taylor and Mr. C. Singaravulu Mudaliar. Both these gentlemen always evinced great interest in the welfare of the Monegar Choultry.

We have, &c.,

(Signed) T. APPASAWMY CHETTY, and others.

ORDER—dated 11th March 1889, No. 244, Public.

The accounts of the Monegar Choultry and connected institutions* for the year 1887, submitted with the above report, open with a bank balance of Rs. 881-0-8. Including this sum, the ordinary receipts of the year are shown as Rs. 22,438-7-10; but there is a further entry of Rs. 1,252-14-5 under "Suspense account towards payment of bills for December 1887," which is added to the receipts, bringing the total up to Rs. 23,691-6-3. The expenditure, including Rs. 1,379-15-10 paid for bills of December 1886, amounted to Rs. 17,868-6-2, leaving a bank balance of Rs. 5,823-0-1 at the close of the year.

2. The meaning of the "Suspense account" entries, which appear in the accounts both of 1886 and 1887, is not clear; but apparently, as will be seen from the following statement, the sums credited under this head form part of the actual receipts of the year (presumably under "Subscriptions and donations"), and are set aside in order to meet liabilities not defrayed within its close:—

	1885.	1886.	1887.
	RS. A. P.	RS. A. P.	RS. A. P.
Opening balance in bank	1,025 10 0	1,486 2 3	881 0 8

"Suspense account"		1,379 15 10	1,252 14 5
Total Receipts	20,541 2 9	19,202 9 9	23,691 6 3
Expenditure.			
(a) Charges incurred within the year	19,055 0 6	16,931 7 4	16,488 6 4
(b) Charges on account of previous year		1,390 1 9	1,379 15 10
Total	19,055 0 6	18,321 9 1	17,868 6 2
Closing balance in bank	1,486 2 3	881 0 8	5,823 0 1
Total of expenditure and closing balance	20,541 2 9	19,202 9 9	23,691 6 3

This method of book-keeping is confusing and apt to mislead. In future, all sums actually received within the year should be shown on one side of the account as "Receipts," and all payments made within the year (whether for charges incurred in the year itself or previously) on the other side under "Expenditure." Sums kept in hand to meet claims not yet paid should be included in the closing balance, and the amount of such claims may be entered in a note appended to the statement.

3. Excluding opening bank balances, the total receipts of 1887 exceeded those of 1886 by Rs. 5,093-14-1. The increase is mainly due (a) to the fact that three half-years' interest on the capital in the hands of the Comptroller-General was received during the year under review and only one half-year's interest in 1886, (b) to the receipt during 1887 of a special donation of Rs. 2,000 from a Native Christian lady, Mrs. Mary Etherajulu.

4. The following table shows the numbers of (a) paupers dieted in the Choultry, (b) children maintained in the Foundling Hospital, (c) and (d) patients treated in the Native Infirmary and in the Lying-in Hospital, as compared with 1886 :—

	(a) Paupers dieted in the Choultry.*	(b) Children in the Foundling Hospital.*	(c) Persons treated at the Native Infirmary.*	(d) Patients treated at Sir S. Rama- swamy Mada- liyar's Lying- in Hospital.*	Total.
1886	23,489	1,948	44,461	3,006	75,903
1887	24,275	845	37,495	3,487	66,102
Increase ..	..	..	..	482	482
Decrease ..	2,214	1,103	6,966	..	10,283
Net Decrease ..	..	..	..	..	3,801

* Note. The figures given below appear to be the totals of the daily numbers. In future reports, the total number of persons admitted during the year should also be given.

The large decrease under heads (b) and (c) should have been explained. It is also observed that the decrease in the number of paupers dieted in the Choultry, which was commented on in reviewing the report for 1886, has continued during the year now under review, though not to so large an extent.

5. In spite of the large decrease in the number of persons relieved in the Choultry and the Native Infirmary, the diet charges of these institutions have remained much the same,* owing apparently to the higher prices prevalent during the year under review, and to a more liberal allowance of food and "extras" to the Infirmary patients. The average daily cost of

Native Infirmary ..	6,471	6,406

dieting each pauper in the Choultry was As. 1-3½ against As. 1-2½ in 1886.

6. The increased assistance afforded by Sir Ramasawmy Mudaliyar's Lying-in Hospital is noted with satisfaction, as are also the fresh instance of the generosity and public spirit of its founder referred to in paragraph 13 of the report, and the munificent donation of Rajah G. N. Gajapati Rao recorded in paragraph 15.

7. The following statement compares the receipts and charges of the Raja of Venkatagiri's Choultry for 1886 and 1887 :—

1887	2,099 2 6	4,240 0 0	297 4 10	5,155 3 5 (b)	1,481 3 11

(a) Includes Rs. 266-7-0 paid on account of bills for December 1885.

(b) Includes Rs. 352-6-5 paid on account of bills for December 1886, and Rs. 1,771 invested in Government securities.

The remarks made in paragraph 2 above in regard to entries under "Suspense Account" apply to the accounts of this institution also. 18,793 in and 38,927 out door paupers received relief at this Choultry, against 20,226 and 38,992, respectively, in 1886.

8. The Director's remarks in paragraph 16 of the report, in which Government concur, will be communicated to Surgeon-Major D. R. Thompson.
