Sir,

In reply to L.O. dated,

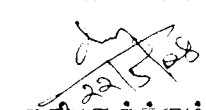

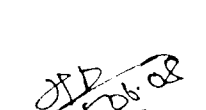

8th August 1888, No 865 M. No: —

Local and Municipal, I have the
honor to state that, in March 1888,
the work of registering births and
deaths, was done by the village
Munsiff of Tanjambadi, as
Sanctioned

Sanctioned in G.O. dated 31st October 1887, No 1121 In. Dis. The village Munsiff having been found to neglect the work, it has been taken away from him and entrusted to a separate man from 1st April 1888. The registration has since greatly improved, as may be seen from the following statement.

No of births and deaths registered during the period the registration work was done by the village Munsiff of Tanjavaludi - No of births and deaths registered during the period the registration work was entrusted to a separate man.

Cholera was prevalent at Tanjavaludi from November 1887 to January.

2. The registration of ^{of} vital statistics and the progress of vaccination in Tanjavaludi, are to a great extent retarded by the inhabitants of Tanjavaludi Town. A great portion of the male population, principally consisting of huggys, is taken away from the town in commercial pursuits, although Tanjavaludi is their permanent domicile. The principal male members of the house are absent from their houses, where are present only secluded females whose social customs and religious habits prevent them from going outside the precincts of their residences. Registration of births and vaccination labour under these disadvantages.

Arrangements will be made to

to appoint a vaccinatrix next
year to visit Geneva houses and
to register births. The Municipality
is, as Government is aware, poor,
and in the current year it has
been found very difficult to make
both ends meet in consequence of
the great falling off in the
amounts realized by sale of
the Contract for tolls. Numerous
efforts will be made next year
to provide funds for the appoint-
ment of a vaccinatrix who
will be directed also to under-
take the registration of vital
statistics in houses which are
~~now~~ practically closed to the male
Municipal Subordinates.

3. I beg Government respectfully
to

to recognize the difficulties of
the situation in a town where
every new departure is viewed
with suspicion and where the
resident population is neither
influential nor sufficiently
advanced to sympathize or
cooperate with efforts made
for the improvement of
sanitation or for the introduction
of healthier habits of life.

I have the honor to be,
Sir,

Yours most obed^t servant

J. Varadaraja
