FORT ST. GEORGE,

To

THE Chief Secretary to Government  
Public Department.

Sir,

In returning the letter from the Government of India referred to me under Public Department Endorsement No. 286 current of the 9<sup>th</sup> instant, I have the honor to report for the information of Government that before a hospital assistant can be allowed to return to the Medical College to undergo a course of study for the grade of assistant Surgeon, he must have served seven years in the grade of hospital assistant and likewise be possessed of a competent practical knowledge of the English language. This opportunity of advancement is only extended to such members of the service as are reported specially deserving by their general conduct and qualifications and who have kept up their professional knowledge by the study of English works on medicine and surgery, and who are

are likely to be able to pass the examination within the prescribed period.

2. The present qualification for the grade of Assistant Surgeon is the L. M. S.

Examination of the Madras or some other University for which 4 years' attendance at the College is necessary.

3. While thus attending the College they are required to do duty at one of the Presidency Hospitals and draw pay of their rank. The time so spent is pensionable and they are entitled to retire after completing the service under the L. M. S. rules, counting their service from the date they originally passed out as hospital assistants.

4. One-third of the number of appointments in the grade of Assistant Surgeon is reserved for subordinates so qualified.
