17TH APRIL 1889, No. 346, PUBLIC.

GOVERNMENT OF MADRAS.
PUBLIC DEPARTMENT.

READ—the following paper:—

From G. BIDIE, Esq., M.B., C.I.E., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Fort St. George, 20th March 1889, No. 154.

I have the honor to forward, for the favorable consideration of Government, the accompanying plans and estimates, amounting to Rs. 65,450, for additions to the Lying-in Hospital, Madras.

2. I beg to observe, for the information of Government, that for clinical teaching it is most desirable to have some additional wards, such as those now proposed, for the reception and treatment of cases of female ailments requiring special treatment and operations. At present, the Superintendent, Lying-in Hospital, has a few wards in the Hospital for Women and Children for receiving such cases, but this arrangement has various disadvantages as regards students and otherwise. I therefore recommend that these wards be sanctioned in addition to those in the Hospital for Women and Children.

3. The proposed accommodation for male and female students on day and night duty at the hospital is also absolutely necessary.

4. As regards the block of building for matron's and nurses' quarters, I am of opinion that an entirely new building is not required, and that the existing buildings might be repaired and again made habitable at a moderate cost. At present the matron and nurses are accommodated in a wing of the hospital—an arrangement which is most inconvenient.

ORDER—dated 17th April 1889, No. 346, Public.

The Surgeon-General submits with the above letter an estimate, prepared by the Consulting Architect to Government, for additions to the Lying-in Hospital, Madras.

The estimate, which amounts in the aggregate to Rs. 65,450, consists of the following items:—

	RS.
1. Matron's, Assistant Matron's and Nurses' quarters	20,227
2. Assistant Apothecary's and Students' quarters, covered passage and main staircase	16,159
3. Additional wards	20,972
4. Linen and furniture store	1,790
5. Medicine and lamp room	1,281
6. Covered ways	2,743
7. Kitchen for Assistant Apothecary and Students	1,096
8. Water-supply, drainage and roads	1,182

2. The Government consider that, for the present, it will be sufficient to sanction items (3), (4), (5) and (6), and so much of item (1) as is necessary to put the matron's quarters in good order.

3. The papers will be transferred to the Public Works Department for the necessary action.

new

For order.

The total of the estimates amounts to Rs. 65,450. The Surg. Genl. states that a new building as quarters for the matron & nurses is not required & that the existing buildings may be repaired. In the four architects report it is stated that the existing buildings are very old and in a dangerous condition. The estimate for the new quarters for these persons is Rs. 20,227.

W. J. 4

It seems questionable whether the existing quarters for the matron & nurses is a desirable to build a new roof on the existing building. As per the C. M. brief report, found the existing roof that is in a dangerous condition & requires to be replaced.

I have the honor to be
Sir
Your most obedient servant

Yours M. B., C. S. E.
Surgeon General
with the Govt of Madras

DP

Hospital - I know nothing of his
beyond that my Hon. colleague
once mentioned. to me in conversation
that it is contemplated to turn
the British stores out of the first
hospital & locate the women
& children's hospital in their
place - But there are no papers
putting in the current projects
on the point, & I don't know how
much the change is being
cost for ground, if the English
stores are turned out of the
first hospital some other place
must be provided for them -

I think the plan now submitted
are suitable ^{and in form}
of meeting the ^{requirements} of the
bureau (although I myself
don't see why it is ^{not} better
to keep the stores it is absolutely
necessary to have quarters for
the male & female students
on day & night duty - & because
it appears from Mr. Brassington's
report that the present matron's
quarters with ^{the present} ^{quarters} ^{require} to be pulled
down & rebuilt as it is past
repair. If it is pulled
down then I think it will be
for economy not to build in
the proposed style in the
same style as the existing
Hospital -

9/4/89

St S

Some time ago Mr. Brauford mentioned
to me the necessity for these additional
wards, and I told him that if he came
up with a good case it would be favorably
considered, having regard to the great
usefulness of the hospital under his
charge. The result is that they con-
siderable expenditure probable.

I think that with the prospect before
us of spending a very large sum in pro-
viding for the removal of the women
& children's hospital to the General
Hospital buildings we should be
justified in sanctioning this large
outlay. But if that removal is
carried out the creation of additional
wards in the existing hospital which
is here represented as desirable will
become absolutely indispensable.

I think that we may now ^{afford} ^{sanction}
the additional wards, covered way
& the small buildings for ^{finer}
furniture camp & medicine stores.
But I see no case for the construction
of the two other blocks, of patients
quarters for matrons, nurses, & for the
cases of male & female students.

Also there is no necessity for building
them in the expensive style necessary
to make them harmonious with the
general buildings, as they lie rather
to the rear & will not be seen.

The items which have appeared
are 3, 4, 5 & 6 amounting to Rs 96
The old matron's quarters should be repaired
b. p.

Circ. My Hon. colleague alludes
to the prospect of large expenditure
in providing for the removal of the
women & children's hospital (I
assume in Veper) to the General

GOVERNMENT HOUSE.

I think this question
ought to be treated
along with the other
and larger one
of removing the
women, hospital
to the general
hospital which
must be done.

I have been in
communication with
the last few days
with Sir James Barclay
as to removing
the military hospital
and building another

There is a committee
prevalent to all
reform in Women
hospitals at

Madras -

He is quite satisfied
that any Hospital
College or Dispensary
should write as he
does. as he has
not seen the papers
about removing
the military hospital
nor does he have
told of what has been
done been done

to do on this subject,
moreover he is
common with all
of us, is desirous
of improving the
Branford Hospital
which is doing
most admirable
work: but in
view of effecting
the great purpose

of providing a
GOVERNMENT HOUSE.
Plan for the visiting
and moving
the women to
the general hospital,
let us husband
our resources
as much as possible.
I would therefore

only sanction
the items 3-4
5-6 at present

The Surgeon
found and
for Newport
can come
up again

with the remainder
of the proposals.

If a good woman
hospital were
provided, I see
no reason why
for Newport hospital
is far as Surgey.
cases so, should
