The case of 1872 was sent special in view to a reorganization of his work. I don't see what advantage is looked for from an inspection of the N. B. Press or where particular necessity there is for it. Mr. K. has been pleased to do it cannot conveniently be found. I am writing the suggestion. When a D. Sup. comes over I have learned something of the work of printing in this country it might be useful to mention an inspection duty but at present I think the suggestion should be negative.

SUBJECT.

I an inspection by a competent officer cannot fail to lead to improved working and the detection and rectification of shortcomings.

Resolution

The Collector's letter will be submitted to Government. If Mr. Hill can conveniently inspect the Press in North Arcot in July, probably it would be beneficial that he should do so. There appears however to be nothing there specially calling for attention & the matter is left with the Government for orders.

1. Again Board's proceedings dated 6th December 1888, No. 7201

2. The following letter from the Collector of North Arcot, dated 6th March 1889, Ref. No. 1033:

With reference to Board's proceedings No. 7201, dated 6th December last, I have the honor to inform you that I would be content if Mr. Hill could inspect the District Press in July next as proposed by him.

2. I was under the impression that there was an order that the Superintendent of the Government Press should inspect all district presses at intervals. This district press has not been so inspected for 15 years. Press work is in ruins

In reply to Board's (Land
Revenue) General Register no: 3623,
dated 17th instant, I should like
to know the difficulties the collector
experiences to need an inspection
of the Press. Under present condi-
