From

The Meteorological Reporter
to the Government of India.

To

The Secretary to the Govt of India,
Revenue and Agricultural Deptt.,
Calcutta

Dated Calcutta, the 15th March 18.

Sir,

I have the honor to acknowledge the work done in the Meteorological office in connection with the reduction of work in the office of three of the Presidencies, viz. Madras, Bombay, and Calcutta, viz. Wellington, viz. no increase of establishments required in the Madras Presidency, viz. additional work.

3. The observers at Bombay and Calcutta have been less than the employment as observers entitled to pensions. In their case from a few years ago have up to 17.

40/- per mensem. The observations
practically the same class observatories
are taken at there where the observers
in the rest of India, mensem. The only
receive only Rs. 15/- per mensem work they
important additional work and tabula
perform is the reduction, but this they
tion of the observation satisfactorily, and
frequently do very unsatisfactorily to have the
it will be much better as at present)
whole (and not a part of the Madras -
if this work done in by a slight -
Meteorological office. Other directions
reduction of work in Government will be
no increase of establishments office for this
required in the Madras
additional work.

3. The observers at ^{Chin & Secunderabad} ~~Chin & Secunderabad~~
have been less than seven years in Govt
employment as observers and are not
entitled to pensions. pensionable -
in their case from a ^{appointment} ~~appointment~~

of Rs. 40/- per mensem.
able appointment of Rs.
a nonpensioner. ^{BU} ~~BU~~
will undoubtedly be a great hardship
I have the honor to ask that you will
move the Madras Government to give
them employment with equivalent
pay in some other Department before
the 1st April 1889 at the latest. It
would be very desirable that the
changes should be completed by the
end of the present year; and it
would hence be a great advantage
if the Madras Govt would provide
for them before 31st December 1888.
4. I have asked the Madras Reporter
to ascertain whether the observer at
Wellington (Sergeant Brownell) who
is a pensioner, Rs. 15/. If not, I hope to be
reduced pay of assistance to make other
arrangements before the end of the year.
The saving by the reduction of the pay

These three observers
Rs 15/- per mensem will be Rs 300/- in
each case or Rs 900/- in all.

If these changes can be effected
almost the last of the abnormal
features of the Madras Meteorological
system will be removed, and the
same arrangements, regulations and
system of pay for the Meteorological
Department will extend over the whole
of India.

I have, &c.
Sd/- John Eliot,
offg. Meteorological Reporter,

The Meteorological Reports. L.
with current notes.

Madras Meteorological Office,
28th August 1888, No. 180.

From

Miss E. Isis Poyson, F. R. Met. Soc.,
Meteorological Reporter, Madras.

To

The Chief Secretary, to Government,
Ootacamund.

Sir,

With reference to the correspondence herewith returned, forwarded to me for remarks under Public Department No. 1291 of 1888, I have the honor to state that I agree with the suggestions made by the Meteorological Reporter to the Government of India, regarding the transfer of the meteorological assistants at present employed at the Cochin, Secunderabad and Wellington observatories to some other Departments on the same rates of pay, and that savings may be effected thereby in the Meteorological Department.

All the meteorological stations of the Madras Presidency are now worked on the system of other second and third class observatories in India. The 10 p.m. records have been discontinued, and with the exception of the three stations above named, all observations are reduced at this office and the work of the observatories is consequently much reduced.

It would be very hard for the three assistants in question, who were engaged on salaries of Rupees 40 per month, on the understanding that the appointments were pensionable, to have their salaries reduced to Rs 15 per month, and more especially as their work in the Department has been most satisfactory throughout.

As the Cochin assistant, Mr. V. Eiffe was formerly employed in the Postal Department, I would recommend that his services may be transferred to that Department. Mr. J. F. Williams' services might also be found useful either in the Postal or Revenue Settlement Departments.

In reply to Para 4 of Mr. Eliot's letter, Sergeant Brownell will be glad to obtain other employment if

possible, but should he not be successful, he begs to be
allowed to continue drawing Rs 40 to the deferred date, viz/
31st December 1888, after which he will continue the duties
of Meteorological Observer at Wellington on the reduced scale.
I would however suggest that Sergeant H. Brownell might
be recommended to the Inspector General of Jails for
employment in his Department.

I have the honor to be

Sir,

Your most obedient servant.

E. Ellis Poplar.

Cochin
 OFFICE OF THE INSPECTOR-GENERAL OF JAILS,
 Dated 20. September 1888.

CURRENT NO.

From
 HENRY R. GRIMES, Esq.,
 INSPECTOR-GENERAL OF JAILS,

To
 THE
 CHIEF SECRETARY TO GOVERNMENT,

Cochin

SIR,

Enclosures.

In reply to your reference on
 C No. 2970, dated 17. September
 1888, I have the honor to state
 that Sergeant Brownell who
 is conducting the duties of
 Meteorological observer at Wellin-
 gton can be employed in this
 Department as a warder at once.

2. I would therefore request
 that he may be directed to come
 and see me at an early date.

If he is an active man and
otherwise physically fit, I can
appoint him as a warden to the
European Prison here, where
there is a vacancy on a salary
of Rs 56 a month with free
quarters, but should he not be
suited to this appointment, he
might be, for that of an European
warden at the Central Jail at
Trichinopoly, on a salary of
Rs 30 a month, in which jail
there are still two vacancies.

I have the honor to be
Sir,
Yours most obedient servant
Henry Sprinckles.
Inspector General of Prisons.
