Chairman, C. M. C.

EXTRACT.

PARA 3 READ

Minutes from the Surgeon General dated 22nd January 1889, regarding the disposal of the present stock of patent Medicines in the Hospital and read again G. O. 13th December 88 No 1424 L & Dr. on the same subject.

The Council note that the Medical Officer, considers that the effect of this order of Government will be a loss of about 200th a month to the hospital funds and requests to be informed how this amount is to be replaced. The Council considers that the Coonoor hospital is similar to St. Bartholomew's hospital at Octacumund being supported partly by Government, partly by the Municipality and partly by voluntary contributions. The

SURGEON GENERAL WITH THE
GOVERNMENT OF MADRAS,
Fort St. George,

To
The Chief Secretary to Government
Local and Municipal Departments

Sir,
I have the honor to submit for the
consideration of the Governor in Council
certain correspondence which has been received
from the Government of Madras of 13th December 1888 forbidding the
sale of drugs in the civil hospital at Coonoor and
elsewhere.

2. From this it would appear that a considerable
sum was derived from the drug sales at Coonoor
and the Medical Officer fears that the stoppage of
the sales will lead to a considerable reduction
of income.

3. A list of the medicines remaining in stock
is enclosed and it is recommended that it will be
that the stock is not restricted to special or rare
medicines such as might not always be procurable
from the local druggist, but embraces such articles
as Locke's pills and Mellin's food for children, and
various applications such as breast pumps.

a. fixed grant equal to
the average payments ^{from funds} in past years and there will be
nothing to prevent the
Municipal Council from
forming a hospital sub-
committee and continuing
to realise voluntary subscriptions
from visitors and residents
of the better classes.

SUBJECT.

Recommending that the offer
of the druggist at Coonoor to
buy the whole of the medicines
there be accepted.

3RD JUNE 1889, No. 479, PUBLIC.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following papers:—

From G. BIDIE, Esq., M.B., C.I.E., Surgeon-General with the Government of
Madras, to the Chief Secretary to Government, dated Ootacamund, 10th
April 1889, No. O-39.

I have the honor to submit for the consideration of His Excellency the Governor
in Council certain correspondence which has ensued from G.O., No. 1424 M., of the
13th December 1888, forbidding the sale of drugs in the civil hospital at Coonoor and
elsewhere.

2. From this it would appear that a considerable profit was derived from the
drug sales at Coonoor, and the medical officer fears that the stoppage of the sales will
lead to a considerable reduction of income.

3. A list of the medicines remaining unsold is enclosed, and on reference to this
it will be seen that the stock is not restricted to special or rare medicines such as
Cockle's Pills and Melin's Food for Children, and various appliances such as breast
pumps. Apart altogether from the consideration that such sales are competing with
private enterprise and therefore wrong, I am of opinion that being concerned in such
traffic is derogatory to the medical officer. I have therefore to suggest that an offer
of the whole remaining stock at cost price be made to the local druggist. If he does
not accept this, the articles might be handed over, as a special case, to the hospital
assistant for sale at cost price, as it is probable that most of them would be disposed
of in this way during the ensuing season. As the value of stock is said to amount to
Rs. 266, it would be a serious loss to the hospital if the articles were to remain
unsold.

4. The medical officer thinks that the sale of medicines has been the means of
encouraging subscriptions and donations on behalf of the hospital, and probably he is
right; but still I do not think that this need deter us from doing away with what is
wrong in principle. It is of great importance that the sale of European drugs should be
encouraged all over the country, and shops are starting up in many of the larger
towns, but we cannot expect that this kind of enterprise will flourish if local and
municipal dispensaries are allowed to set up in opposition with the view of adding to
their income.

5. From a minute of the Municipal Council of Coonoor, copy enclosed, it will be
seen that they repudiate all financial responsibility for the hospital and decline to
interfere with the sale of medicines. The hospital at Coonoor is on very much the
same footing as the institution at Ootacamund, and it seems desirable that the local
authorities at Coonoor should make inquiries as to the means by which funds are
provided for the maintenance of the Ootacamund hospital, and institute some similar
organisation.

6. The Coonoor hospital, like others of the same kind, is of great service to the sick poor of the town and district, and I cannot believe that the fountain of charitable contributions for its support will entirely cease because the hospital is not allowed to compete with local trade. Its real value will not in any way be curtailed by the abolition of an obvious abuse and if this change be accepted in a proper spirit, it ought to lead to the device of new means to make good any curtailment of income.

7. I have therefore to suggest that the matter be referred back to the Coonoor Municipality, and that they be asked to consider the whole matter in a more practical and considerate spirit than that evinced in their minute of the 6th February 1889.

ENCLOSURE.

EXTRACT from the Minutes of Proceedings of the Meeting of the Municipal Council, Coonoor, held on the 6th February 1889.

Para. 3. Read memorandum from the Surgeon-General, dated 22nd January 1889, regarding the disposal of the present stock of patent medicines in the hospital, and read again G.O., dated 13th December 1888, No. 1424, Local and Municipal, on the same subject.

The Council note that the medical officer considers that the effect of this order of Government will be a loss of about Rs. 200 a month to the hospital funds, and requests to be informed how this amount is to be replaced. The Council consider that the Coonoor hospital is similar to St. Bartholomew's hospital at Ootacamund, being supported partly by Government, partly by the Municipality, and partly by voluntary contributions. The medical officer exercises complete control both over the working of the hospital and also over the establishment, the function of the Municipality being confined to the payment of such contributions as had been agreed upon from time to time. Under these circumstances, the Council consider that they are not financially responsible for the hospital, and decline to interfere with the sale of patent medicines in store as suggested by the Surgeon-General.

(Signed) J. A. MAJORIBANKS,
Chairman, Municipal Council.

From G. BIDIE, Esq., M.B., C.I.E., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Ootacamund, 4th May 1889, No. O-121.

In continuation of my letter, No. O-39, of 10th April 1889, I have the honor to submit a letter from the medical officer, Coonoor, stating that the local druggist is prepared to take over the whole of the patent medicines, &c., now in the dispensary. I have to recommend that this offer be accepted.

ENCLOSURE.

From Mr. J. BOESINGER, to the Medical Officer, Coonoor, dated Myrtle Cottage, 23rd April 1889.

With reference to your memorandum, No. 70, of the 3rd instant, enclosing list of medicines for sale at the hospital, I have the honor to inform you that I will take the lot and pay for the same by cheque on the Ooty Bank. The list contains by oversight or error 2 glass syringes, 1 oz. each, at Annas 6-9, which is inserted as Rs. 13-0-6, instead of Annas 13-6, which reduces the total from Rs. 249-8-9 to Rs. 237-5-9. I will take them over any time convenient to you.

ORDER—dated 3rd June 1889, No. 479, Public.

The Government concurs in the opinions expressed by the Surgeon-General in regard to the sale of medicines at public hospitals and dispensaries, and approves of the instructions issued by him for stopping such sale at the Coonoor hospital. Such of the medicines as are not required for hospital use may with advantage be sold to the local druggist as proposed.

2. As regards the financial prospects and future organisation of the hospital discussed in paras. 5 and 6 of the Surgeon-General's first letter, the Government considers that the best course would be for the Municipal Council to take over the entire management of the institution and its funds; in which case the Government will be prepared to make a fixed grant equal to the average payments from Provincial funds in past years. There will be nothing to prevent the Municipal Council from forming a hospital sub-committee and continuing to realise voluntary subscriptions from visitors and residents of the better classes.

3. The Chairman will lay these suggestions before the Municipal Council, and submit a report to Government at an early date.
