South Indian Railway,

AGENT'S OFFICE,

TRICHINOPOLY, 1st February 1889

From

The AGENT,

SOUTH INDIAN RAILWAY,

To

The CONSULTING ENGINEER FOR RAILWAYS,

MADRAS.

Sir,

The District Surgeon of South Arcot has sent to me a copy of the Proceedings of Government dated 23rd October 1885 No 1011 R. Public Works, and with reference thereto asks me to define his "relations to the various officials, super ordinates, and subordinates connected with the line" as well as with the medical subordinates employed in connection with them.

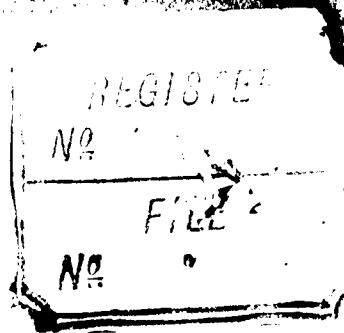

We have appointed an Apothecary to the medical charge of the several districts along the Villupuram - Dharmavaram Railway, and these Apothecaries are under the general control of this Company's Superintending Physician.

Will you please inform me if it be the wish of Government that District Surgeons along the route of the Villupuram - Dharmavaram Railway should in future attend upon railway officials and servants and have the supervision of the Apothecaries

you ask to be informed if it
be the wish of Govt. that
District Surgeons along the
route of the ^{Shatmavaram} Vellupuram
Railway should attend upon

professional supervision and
inspection of the medical
affairs of the District. This
arrangement as stated by the
Surgeon General will not
interfere with the control
of the officers of the Railway.

The sense of para 3 of the
Surgeon General's letter is
clearly that the services of the
District Surgeon and of all
medical men who receive
salary from Govt. are availa-
ble for Govt. servants without
any question of fee, and that
persons employed on State
Railways come under the
definition of Govt. servants.

The District Surgeons are
entitled to an allowance of
Rs. 50 per mensem subject
to the limitation contained
in G. O. No. 1011 R of 23.

Sir,

Your letter No. 153 of the 15th February 89.
The letter from the Government of India published
in the Proceedings of Government 20th February 1888 No.
191 R, Public Works, sanctions a payment to District
Surgeons of Rs. 50 per mensem for taking medical
charge of the railway servants employed upon a sta-
tion under construction, "such additional allowan-
ce to cease on the date that the line, or section of the
line, as the case may be, is opened to public traffic."

It would be a convenience to this Company
if the District Surgeon of Kallakurichi would continue
to have medical charge of the staff employed
upon the Kallakurichi branch of the Villupuram
Dharmavaram Railway, until that Railway
is joined up with the South Indian Railway
system. Will you please obtain the sanction
of Government to a disbursement of Rs. 50
per mensem on this account.

A Hospital Assistant has been em-
ployed on this branch, and I propose to
continue to keep him on the staff under

FOR ORDERS.

Secy. to Govt. P.W.D. Ry. Branch

I am not clear whether a financial
or an administrative sanction is
asked for or whether the former is
required.

The charge comes under working expenses
of the Ry. & the payment made to P. R.
on this account is otherwise fixed; so
Govt. appears to have no financial in-
terest in the matter.

I think an administrative sanction
is certainly required, because the
order of the Govt. of India refers only to
lines under construction. The sanction
of that Govt. will have to be obtained,
if I recollect right, to the acceptance
of the payment by the Govt. Engineer.
The paper has better be forwarded
to the Public Dept. for perusal.

In reply to reference No. 1293 of 8th May 1889
I have the honor to state that under the marginally
noted orders of Government, District medical officers
may be required to exercise professional control over
the medical subordinates of state railways under
construction in their districts, and are also liable to
be called on to afford medical aid to persons —
connected with such railways they being in the
position of Government servants while so employed.
For these duties the District surgeon is to receive an
allowance of 50 Rupees until the line is formally
opened, provided the employees on the works aggregate
not less than 300.

2. As regards the relations between the District
medical officer and medical subordinates on
the line, Government order No. Public Works Depart^t
No. 1030 R of 24th October 1884 ruled, on the suggestion
of the Surgeon General, that they should be under
the professional control and inspection of the District
Surgeon.

Surgeon just as subordinates of the Police, survey department &c. This arrangement will afford the necessary supervision.

3. It appears to me therefore that the District Surgeon of North Arcot may be called on to exercise medical control with respect to any State line that may be under construction within the bounds of his district.

4. In the case of Kellore, the District medical officer there too may be required to give his services in connection with any unfinished line in his district. In both instances the grant of the allowance of 50 Rupees will depend on the number of employees.
