the well and good in the days in which
there had been no other medical officer
than those of the Company at the several
stations - Supposing a man is attacked
with cholera in the train, while at
Kamassamudram, according to the
existing rules, he must be taken to
Bangalore, which is in the least
three hours' Railway journey from
the station, proper medical aid being
prohibited during the interval.

4. This rule is certainly absurd;
and the framers, I am sure, never
meant that it should not be broken,
if proper medical help could be
procured at a nearer station from
a

persons from the trains at such places,
along the line as arrangements are made
for their detention and treatment without
the possibility of being hindered by the
Railway authorities, otherwise the free
importation of diseases such as Cholera
and Small pox into Bangalore, and
other places westwards of Kanasimukha
and Bowringpet will be comparatively
unrestricted.

Mysore Government.

Enclosure
No. 57.

From

Kolar
27th January 1889.

The Assistant Surgeon, Kolar District.

To

To

The Senior Surgeon and S.C., Bangalore.

Sir,

I have the honor to inform you that in accordance with the Proceedings of the Dewan of Mysore Camp No. 1357/60 dated 29-9-88 the Hospital Assistant of Bowringpatt had been till recently attending the Railway station for stopping the passengers from Turpatt, and other places affected with the epidemic of Cholera. For the last three months and a half there had been no objection from the Railway authorities, and I was led to the impression that the Resident might have made arrangements

arrangements agreeable to para 3 of the Proceedings referred to.

2. But the Hospital Assistant informs me personally that the Railway authorities at the place, object to his going and examining Carriages for infectious patients with a view to secure their removal to quarantine Camp.

3. I am further informed that the objections raised by the Railway Company's Servants are based on rules issued for their guidance which require all such patients being taken to the nearest station where a medical officer of the Company may be located. This rule may be

tie well and good in the days in which there had been no other medical officer than those of the Company at the several stations. - Supposing a man is attacked with cholera in the train, while at Kamasamudram, according to the existing rules, he must be taken to Bangalore, which is in the least three hours' Railway journey from the station, proper medical aid being prohibited during the interval.

4. This rule is certainly absurd; and the framers, I am sure, never meant that it should not be broken, if proper medical help could be procured at a nearer station from a

will be unimpeded. Para 3 of the Director's 'order' above referred to states that the Resident has been requested to direct the Railway Police to give the necessary assistance in stopping pilgrims coming from Tirupatty and other affected places and sending them to the quarantine camp, and this they did until the Railway authorities stepped in and interfered.

It would be very desirable that some definite arrangements should be come to whereby the Railway Police would be empowered to assist the Civil and Medical authorities in removing infected persons

Camp No 2193 Office of the Dewan of Mysore

Camp Mysore $\frac{23^{rd}}{29}$ March 1889.

To

The Assistant to the Resident in Mysore

Sir,

I am directed to forward ~~copy~~
and enclosure of Senior Surgeon's No 112 dated 30th
January, 1889. The immediate necessity
for this reference has past. The inconvenience
complained of may, however, occur again,
and I am therefore directed to submit
the point for the decision of the Resident.

I have &c

(Sg) R Vijayendra Rao
Chief Secretary.

Office of the Senior Surgeon and
Sanitary Commr with the Govt of Mysore

No 112.

Dated Bangalore 30th January 1889.

To

The Chief Secretary to the Dewan of Mysore
Sir

Sir,

With reference to this office No 1288 dated 25th September 1888 recommending the establishment of a quarantine camp at Bowringpet, and Dewan's order thereon, Camp No 1359-60 of the 29th idem, I have the honor to forward for the information of the Dewan Copy of letter No 57 of the 27th instant from the Assistant Surgeon, Kolar District, complaining that the Madras Railway authorities object to any interference on the part of the Hospital Assistant of the Mysore Government stationed at Bowringpet (Kolar Road Station) with passengers whether coming from Cholera stricken Territory or

or elsewhere.

The quarantine camp and hospital have been of use at Bowringpet and cholera stricken persons, residents of the civil and military station travelling thither, have been removed from the train and treated in the hospital.

If this action of the Railway authorities be permitted to continue quarantine camps and hospitals at Bowringpet and Krishnarajapuram will be useless, and the introduction of cholera or other infectious disease into the civil and military station, city, or Province generally through the medium of infected persons arriving by rail will

their present bye-law on the subject would
be desirable not only on humane but
on Sanitary grounds. As stated by the
Durbar, there is no immediate necessity
for this reference, but as the difficulty
may again arise at any moment, I
venture to submit the question at once
for such action as the Madras Govern-
ment may wish to take in the matter.

I have the honor to be,

Sir,

Your most obedient Servant

J. H. J. J. J.
Resident.

C. No. 1196.

FROM

THE RESIDENT IN MYSORE.

TO

The Chief Secretary to the
Government of Madras

Dated, Bangalore, 15th April 1889.

SIR,

With reference to correspondence
ending with the Proceedings of the Madras
Government in the Public Department No.
1141. Public of 4th December 1888, I have
the honor to forward, for the consideration
of His Excellency the Governor in Council,
a copy of letter Camp No. 2493 dated the
23rd March 1889 from the Mysore District,
bringing to notice the objections raised

By

by the Madras Railway Company to the action of the Mysore Medical authorities at the Kolar Road Station, in removing from the train to the quarantine camp at Bowringpet passengers suffering from Cholera.

2. The above camp, I may mention, was established by the Durbar in October 1888 at the recommendation of their professional advisers, and in compliance with the wishes of the Durbar, I directed the Civil and Military Station Police, whose jurisdiction extends over the land traversed by the Madras Railway Line in Mysore, to render all necessary assistance to the medical authorities

authorities at Kolar Road Station in removing cholera stricken patients from the train to the Camp.

3. It appears that the rules issued by the Railway Company clash in this respect with the instructions given by the local Civil authorities, but as the former were probably issued before the Hospital at Kolar was established, and as they now result in making it obligatory for persons suffering from Cholera to be taken on an unnecessarily long railway journey past a hospital specially provided for cholera patients into the thickly populated station of Bangalore, I consider that a revision by the Railway Company of their

Communicating to the Collectors of Salem and North Arcot, letter from the Resident in Mysore, requesting that the Revenue authorities between Kolar and Tirupati may be directed to report to the Mysore Government on cases of — occurring therein during the pilgrimage season at Tirupati.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper :—

From Sir H. N. D. PRENDERGAST, K.C.B., V.C., Officiating Resident in Mysore, to the Chief Secretary to the Government of Madras, dated Bangalore, 19th November 1888, No. 3890—5957.

Adverting to correspondence ending with your letter, Public No. 916, dated 19th September 1888, I have the honor to forward a copy of letter, Camp No. 1617, dated 2nd November 1888, from the Mysore Durbar, and of its enclosures, and to request that, if the Madras Government see no objection, the necessary instructions may be kindly issued to the Revenue officers of the districts of the Madras Presidency between Kolar and Tirupati to communicate to this Residency cases of cholera occurring in those tracts during the pilgrimage season at Tirupati.

ENCLOSURES.

From M.R.Ry. R. VIJAYENDRA ROW, Chief Secretary, Office of the Dewan of Mysore, to the Assistant to the Resident in Mysore, dated Mysore, 2nd November 1888, Camp No. 1617.

I am directed to forward, for submission to the Resident, copy of letter, No. 1431, dated 23rd October 1888, from the Senior Surgeon, in which he suggests that Revenue officers of Her Majesty's districts between Kolar and Tirupati may be instructed to forward, for the information of the Mysore Durbar, early reports of cholera cases of those tracts during the pilgrimage season at Tirupati. This would enable the executive and medical officers of Mysore to adopt early measures for the suppression of the epidemic.

2. I am therefore to solicit the favor of the Resident moving the Madras Government in this matter, should he approve the suggestion of the Senior Surgeon.

From T. J. MCGANN, Esq., Senior Surgeon and Sanitary Commissioner, Mysore Government, to the Chief Secretary to the Dewan of Mysore, dated Bangalore, 23rd October 1888, No. 1431.

With reference to the enclosed letter, No. 252, of the 20th instant, from the Assistant Surgeon, Kolar District, reporting that the Peishkar of the Mysore Government chattram at Tirupati has written to the Bowringpet Amildar, stating that there is no cholera at Tirupati, I have the honor to suggest, in the event of no better person being available, that this official be directed to make early report in future of the occurrence of cholera at Tirupati to the Deputy Commissioners of Kolar and Bangalore districts and to this office, so that we may be better able to make timely arrangements to prevent, as far as possible, its introduction into the province.

2. If arrangements could be made whereby the Collectors or other officials of Her Majesty's territory bordering on the eastern parts of the province would make early report of the occurrence of cholera in those places, it would, of course, be an excellent thing too, as the more complete and timely is our information, the better would we be prepared.

3. I would also recommend the establishment of a quarantine camp, portion of which would be available as an hospital when needed, somewhere in the direction of the railway station at Mysore, so as to afford means for isolating any suspicious cases arriving by train, and preventing their using chattrams or going into the town, as the only means available at present for effecting these purposes are the cholera or infectious wards attached to the General Hospital, and they would not do as a quarantine camp.

From M.R.Ry. V. K. SWAMINATHA IYER, Assistant Surgeon, Kolar, to the Senior Surgeon and Sanitary Commissioner with the Government of Mysore, dated Kolar, 20th October 1888, No. 252.

I have the honor to report that the Peishkar of the Mysore Government chattram at Tirupati has sent a letter to the Amildar of Bowringpet that there is no cholera at Tirupati.

ORDER—dated 4th December 1888, No. 1141, Public.

Communicated to the Collectors of Salem and North Arcot, in view to the necessary action being taken.
