8TH JULY 1889, No. 591, PUBLIC.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper :—

Proceedings of the Government of India, Revenue and Agricultural Department (Emigration), dated Simla, 20th June 1889, No. 100-2-18—E.

Copy of the following forwarded to the Government of Madras for information.

(By order.)

(Signed) J. MUIR MACKENZIE,
Under Secy. to the Govt. of India.

ENCLOSURES.

Despatch from the Right Honorable Lord CROSS, Her Majesty's Secretary of State for India, to His Excellency the Most Honorable the Governor-General of India in Council, dated India Office, London, 16th May 1889, No. 42 (Public—Emigration).

I transmit, for the information of your Excellency in Council, copy of a letter from the Colonial Office respecting the satisfactory working of "Thiers' ventilator" on board emigrant vessels.

Dated 17th April 1889, and enclosure.

From E. WINGFIELD, Esq., to the Under Secretary of State, India Office, dated Downing Street, 17th April 1889, No. J.-P.-672—1889.

I am directed by Lord Knutsford to transmit to you the accompanying extract from the report of the Acting Immigration Agent-General in British Guiana on the arrival of the coolie emigrant ship *Foyle*, in which attention is called to the satisfactory working of "Thiers' ventilator" by having the pipes filled up with water, and I am to suggest that Dr. Hughes' remarks should be forwarded to the Government of India for their information.

Extract from a Report from the Acting Immigration Agent-General of British Guiana, dated Georgetown, 7th March 1889.

"9. In view of the frequent complaints that have been made in regard to the comparative inutility of Thiers' automatic ventilator, I would draw special attention to the fact that by using a greater quantity of water than is prescribed in the regulations for working these ventilators (viz., 1 foot instead of 1 inch), Dr. Hughes found that very satisfactory results were produced. Under date 17th December, the Surgeon Superintendent made the following entry in his journal :—"Thiers' ventilator working well since the pipes were filled up with water."

ORDER—dated 8th July 1889, No. 591, Public.

Recorded.

(True Extract.)

Chief Secretary.

To

The Under Secretary of State,
India Office.

Sir,

I am directed by Lord Knutsford to transmit to you the accompanying extract from the Report of the Acting Immigration Agent General in British Guiana, on the arrival of the coolie emigrant ship "Boyle" in which attention is called to the satisfactory working of "Thiers Ventilator" by having the pipes filled up with water and I am to suggest that Dr. Hughes' remarks should be forwarded to the Government of India for their information.

I am &c.

(sd) Edward Wingfield.

Extract

Extract from a Report from the
Acting Immigration General of British
Guiana, dated Georgetown 7th March 1889.

"9 In view of the frequent complaints
that have been made in regard to the
comparative inutility of Thiers' Automa-
-tic Ventilator, I would draw special
attention to the fact that by using a
greater quantity of water than is prescribed
in the Regulations for working these
Ventilators (viz: 1 foot instead of 1 inch)
Dr. Hughes found that very satisfactory
results were produced. Under date 14th
December, the Surgeon Superintendent
made the following entry in his journal
"Thiers' Ventilator working well
since the pipes were filled up with water."
