Surgeon-General with the Government of Madras,

To

THE CHIEF SECRETARY TO GOVERNMENT,

Public Department.

SIR,

I HAVE the honor to submit to the Right Honorable the Governor in Council the annual returns of the Civil Hospitals and Dispensaries in this Presidency for the year 1887, with brief notes on their working, as directed in paragraph 10 of G.O., Public Department, No. 1455, of 12th July 1886.

2. NUMBER OF HOSPITALS AND DISPENSARIES.—There were 316 dispensaries in operation throughout the Presidency at the close of 1886. During the year 29 were opened against 10 in 1886 and 1 was closed, leaving 344 at work on the 31st December 1887. The dispensary which was closed was at Cherpalcheri in the Malabar district. Of the 29 new ones, which were added during the year, 7 were in Nellore, 5 in South Canara, 4 in Kurnool, 3 in Malabar, 2 in Trichinopoly and Salem, and 1 in each of the North Arcot, South Arcot, Coimbatore, Cuddapah, Godavari, and Kistna districts. Including dispensaries which have no standing provision for in-patients but still afford in-door relief in emergent cases, there were 167 dispensaries for in-patients.

The total number of beds maintained was 3,381 against 3,320 in 1886, and of these 2,025 were for males and 1,356 for females.

Taken as a whole, the hospital provision throughout the Presidency was in the ratio of 0.01 per 1,000 of population.

3. SICK TREATED.—The total number of sick treated was 2,170,287, being an increase of 153,128, as compared with the numbers for 1886. This increase was made up of 2,546 in-patients and 150,582 out-patients. Of the applicants for in- and out-door relief, 1,084,051 were men, 464,681 women, and 621,555 children. The average daily attendance of sick was 16,476 against 15,237 in 1886. Of in-patients alone the daily average number was 2,109.67, showing an increase as compared with 1886 of 18.82. The ratios per cent. of the different classes daily attending were of men 52.04, women 23.11, and children 24.85.

4. GENERAL RESULTS OF TREATMENT.—Of the in-patients 27,837 were cured, 5,816 relieved, and 2,994 died, giving ratios, respectively, of 66.04, 13.79 and 7.10 per 100 treated against 64.96, 14.09 and 6.90 in 1886. The increase in the death-rate was probably chiefly due to the number of cholera cases treated, viz., 8,118 against 1,505 in the preceding year.

5. DISEASES TREATED.—There was a diminution in the number of cases of paroxysmal fevers (total treated 191,845) and small-pox (total treated 396), while there was a large increase in the number of cases of cholera (total treated 8,118) as contrasted with the results in 1886. The most common diseases in the order of frequency were diseases of digestion (238,737), skin diseases (226,147), diseases of the eye (222,412), ulcers (215,794), malarial fevers (191,845), worms (130,072), ear diseases (107,612), rheumatic affections (103,545), respiratory diseases (77,648), and syphilitic affections (26,950).

6. SURGICAL OPERATIONS.—The number of operations performed during the year was 63,409 against 61,737 in 1886. Of these 5,154 were major and 58,255 minor operations. Of the 5,154 persons, on whom major operations were performed 4,174 were cured, 473 relieved, 195 discharged otherwise, and 212 died.

The fatal cases were, therefore, in the ratios of 4.11 per cent. of operations. Civil Surgeons performed 3,062 major operations with 122 deaths, subordinates 2,092 with 90 deaths, the ratios per cent. of deaths to operations being, respectively, 3.98 and 4.30 against 4.9 and 3.2 for 1886.

FINANCE.

8. **EXPENDITURE.**—The total expenditure during the year amounted to Rupees 8,89,210-13-2 against Rs. 8,45,956-0-2 in 1886. The several items of expenditure in 1887 are shown in the following table contrasted with the corresponding figures for the preceding year :—

Details of expenditure.		1886.		1887.	
		RS.	A. P.	RS.	A. P.
Establishment ...	...	4,40,848	7 5	4,65,649	2 10
Bazaar medicines ...	...	27,113	9 3	19,175	7 9
European medicines ...	...	1,01,297	1 3	1,19,500	7 1

Invested during the year ...	...	3,520	6 7	5,527	0 3
Total ...	...	8,45,956	0 2	8,89,210	13 2

There was an increase in the total cost of the institutions compared with the preceding year of Rs. 43,254-13-0. This increase occurred chiefly under the following heads :—

Establishment.—Rs. 24,800 in round numbers, chiefly due to the increase in the number of dispensaries opened during the year, to the septennial promotions obtained by the Medical subordinates employed, and to the increased pay earned by length of service in the case of officers in the Presidency hospitals.

European Medicines.—Rs. 18,203, chiefly due to the increased number of patients treated. There is an increase of Rs. 14,604 under the heading "Miscellaneous charges;" this is greatly due to the cost of bedding and clothing in the General Hospital being shown under this head and not as in the last two reports under "Bazaar medicines," in which heading

there is a decrease of Rs. 7,938-1-6. There is also an increase of Rs. 2,006 in the investments made during the year, but in the existing form of accounts these are shown as an expenditure.

9. **INCOME.**—The following abstract contrasts the heads of income in 1887 with those of the preceding year :—

Particulars of income.		1886.		1887.	
		RS.	A. P.	RS.	A. P.
From Government ...	...	3,12,101	3 9	3,26,154	3 9
From Municipal funds ...	...	1,37,828	11 1	1,36,702	8 9
From Local, &c., do. ...	...	3,46,290	15 2	3,88,284	4 5
Interest on invested capital ...	...	18,204	8 5	19,222	9 4
European donations and subscriptions ...	...	14,797	5 9	11,224	7 2
Native do. do. ...	...	12,046	4 8	6,186	6 7
Sale of securities or withdrawal of deposits...	...	4,686	15 4	1,436	5 2
Total ...	...	8,45,956	0 2	8,89,210	13 2

These figures show that there was a net increase from Local and Municipal funds of Rs. 40,867-2-11 and of Rs. 1,018-0-11 on interest realized from invested capital, while there was a diminution of Rs. 9,432-12-8 in European and native donations and subscriptions.

Of the excess under Government contributions, Rs. 8,833-8-4 occurred in the Presidency hospitals; deducting which amount the increase in Government contributions towards mofussil dispensaries was Rs. 5,219-7-8, due to additional contributions towards the pay of subordinates in up-country stations during the year.

10. **PRESIDENCY HOSPITALS.**—The subjoined abstract contrasts the net cost of these institutions in 1887 with that for 1886 :—

Names of institutions.		1886.		1887.		Increase or decrease.	
		RS.	A. P.	RS.	A. P.	RS.	A. P.
Ophthalmic Hospital ...	...	26,094	11 4	28,835	5 11	+2,740	10 7
General Hospital ...	...	1,28,791	0 0	1,32,356	8 11	+3,565	8 11
Leper do. ...	...	19,925	9 4	20,657	8 3	+731	14 11

Total ...	...	2,38,220	3 5	2,47,053	11 9	+8,833	8 4

Of the increased expenditure shown above as compared with 1886, Rs. 5,881-9-0 are due to increase under the head of "Salaries" and Rs. 2,704-5-0 under "Special allowances," under which is included the expenditure on Bazaar medicines and Miscellaneous charges, and Rs. 1,032-4-4 is due to expenditure on account of European medicines and instruments. There was a decrease of Rs. 835-2-3 under Diet charges.

These variations are shown in the following table :—

Particulars of income.		1886.		1887.		Increase.		Decrease.	
		RS.	A. P.	RS.	A. P.	RS.	A. P.	RS.	A. P.

Order *7-1-87 No. 6*

Recorded with the following

Remarks:—

(1). The number of dispensaries
 rose from 316 in 1886 to 344
 in 1887 as shown below—

	1886	—	1887
State institutions	12	—	12
Local Municipal "	289	—	317
Entirely private "	8	—	8
Private aided "	7	—	7
	316	—	344

The increase occurs entirely
 under Local Fund dispensaries,
 and mainly in the districts
 of ^{S. Canara} ~~Kannur~~ *Kannur*, *Kannur*, and
Malabar. The dispensary at
Gungee is wrongly shown as a
 Municipal institution in
 Statement II. attached to the
 report. The proportion of
 dispensaries

dispensaries to the total population of the Presidency remains as in 1886, 0.01 per 1000.

(2). There was a satisfactory increase in the treatment of inpatients as compared with the two preceding years as will be seen from the following figures: -

	1885 -	1886 -	1887
Number treated	40,564	39,602	42,148
Daily Average Number	2,057	2,091	2,110

The number of deaths in hospitals (2,994) was however ~~260~~ in excess of that in 1886.

The increase is ascribed to the larger mortality from cholera which marked the year under review. The total number of dispensaries in which accommodation for in-patients is ordinarily available was 167 with 3381 beds, against 166 with 3320

beds in 1886.

(3). The total number of out-patients treated was 2,128,139 (average daily attendance 14,366) against 1,977,557 (average daily attendance 13,146) in 1886. There was however a considerable decrease in the number of out-patients at the Presidency

hospitals, which the Government would be glad to have some explanation

(4). The Rs 3,26,154 received from Government (para 9 of the Report) was made up as shown in the statement below -

	1885 -	1886 -	1887
(1) Salaries	1,79,497	1,73,533	1,83,539
(2) Registers and Forms	311	300	367
(3) European medicines	18,989	20,572	
	~~17,797~~	~~18,989~~	22,761
(4) a. Diet of cases in the Provincial hospitals at the Presidency	71,284	66,605	65,769
b. Diet of Police Cases etc in the Madras	3,113	2,611	2,706

(5) Sale of Medicines	1,077		

(6) Special Allowances.

(a) For Provincial hospitals

at the presidency - - - 26,037 - - - 32,972 - 35,676

(b) For other dispensaries - - 11,704 - - - 15,508 - 15,352

Total 3,11,992 - - - 3,12,101 - 3,26,154

The increase as compared with

1886 occurs mainly under salaries

and special allowances to the

Presidency hospitals. In the case

of the last mentioned head it

appears to be due to expenditure

on buildings and other special

items; in the case of salaries the

the opening of new Local Fund

dispensaries, ^{for} to which Govt.

contributed one-fourth of the

allowances of the Medical

Subordinates in charge, and to

the attainment of higher grades

(^{through} by seniority) by Medical

Subordinates generally -

(b) The decrease in the total

disting charges for all dispensaries

R.
* 1886 - 138,606
1887 - 136,950.

notwithstanding the increase in the
number of impositions noted above
is a satisfactory feature of the year
under review.

(6) The Government notices with
much regret that there has been
a heavy fall in the amount of
donations and subscriptions to

dispensaries. The decrease in the
case of European donations occurs
mainly in Kottagiri & Ootacamund,
while native donations have

fallen off mainly in Vizagapatam,
Dobbili, Srikangam, Ootacamund,
Nellore, and Melambur. It is
by no means creditable to the

native community that the
whole amount contributed by
them in the way of assistance to
medical relief should be little

*
European donations Rs. - 1887
+ subscriptions - 14,797 - 11,224
Native do - 12,046 - 6,186.

The Govt. dispensaries receive more than one half of the sums
income from subscriptions as shown
against the Native Dispensaries, given by Europeans, and it is
shortly but the Govt. dispensaries
; specially

especially regrettable that in
the Presidency Town itself
there should be no endowments
at the credit of the hospitals,
while the amount subscribed
to them during the year was
only Rs 162, Rs 74 1/2 of which
came from Europeans.

7TH JANUARY 1889, Nos. 6, 7, PUBLIC.

GOVERNMENT OF MADRAS.
PUBLIC DEPARTMENT.

READ—the following paper:—

From the Surgeon-General with the Government of Madras, dated Ootacamund,
3rd September 1888, No. O-481.

ABSTRACT.—Forwarding annual returns of the civil hospitals and dispensaries for 1887, with
brief notes thereon.

ORDER—dated 7th January 1889, No. 6, Public.

Recorded, with the following remarks:—

(1) The number of dispensaries rose from 316 in 1886 to 344 in 1887, as shown
below:—

	1886.	1887.
State institutions	12	12
Local and Municipal institutions	289	317
Entirely private institutions	8	8
Private aided institutions	7	7
Total ..	316	344

The increase occurs entirely under Local Fund dispensaries, and mainly in the
districts of Nellore, South Canara, Kurnool, and Malabar. The dispensary at Gingee
is wrongly shown as a municipal institution in Statement II attached to the report.
The proportion of dispensaries to the total population of the Presidency remains, as in
1886, 0.01 per 1,000.

(2) There was a satisfactory increase in the treatment of in-patients as compared
with the two preceding years, as will be seen from the following figures:—

	1885.	1886.	1887.
Number treated	40,564	39,602	42,148
Daily average number	2,057	2,091	2,110

The number of deaths in hospitals (2,994) was, however, 260 in excess of that in
1886. The increase is ascribed to the larger mortality from cholera which marked the
year under review. The total number of dispensaries in which accommodation for in-
patients is ordinarily available was 167 with 3,381 beds, against 166 with 3,320 beds
in 1886.

(3) The total number of out-patients treated was 2,128,139 (average daily atten-
dance, 14,366), against 1,977,557 (average daily attendance, 13,146) in 1886. There
was, however, a considerable decrease in the number * of out-patients at the Presidency
hospitals, of which the Government would be glad to have some explanation.

(4) The Rs. 3,26,154 received from Government (paragraph 9 of the report) was
made up as shown below:—

30.3.89
304

	1885.	1886.	1887.
	RS.	RS.	RS.
(1) Salaries	1,79,497	1,73,533	1,83,539
(2) Registers and forms	311	300	351
(3) European medicines	18,989	20,572	22,761
(4) (a) Diet of cases in the Provincial hospitals at the Presidency ..	71,264	66,605	65,769
(b) Diet of Police cases, &c., in the Mofussil	3,113	2,611	2,706
(5) Sale of medicines	1,077	..	..
(6) Special allowance—			
(a) For Provincial hospitals at the Presidency	26,037	32,972	35,676
(b) For other dispensaries	11,704	15,508	15,352
Total	3,11,992	3,12,101	3,26,154

The increase, as compared with 1886, occurs mainly under salaries and special allowances to the Presidency hospitals. In the case of the last-mentioned head, it appears to be due to expenditure on buildings and other special items; in the case of salaries, to the opening of new Local Fund dispensaries, for which Government contributed one-fourth of the allowances of the medical subordinate in charge, and to the attainment of higher grades (through seniority) by medical subordinates generally.

* 1886	RS. 1,38,606	(5) The decrease in the total dieting charges * for all dispensaries, notwithstanding the increase in the number of in-patients noted above, is a satisfactory feature of the year under review.
1887	1,36,950	

(6) The Government notice with much regret that there has been a heavy fall in the amount † of donations and subscriptions to dispensaries. The decrease in the case of European donations occurs mainly in Kotagiri and Ootacamund, while native donations have fallen off mainly in Vizagapatam, Bobbili, Srirangam, Ootacamund, Nellore, and Nilambúr. It is observed that the whole amount contributed by the native community in the way of assistance to medical relief is little more than one-half of the sums given by Europeans. The Government do not understand why no income from subscriptions is shown against the Native Infirmary (Monegar Choultry) at the Presidency Town.
