medical department is not responsible for the carriage of stores. When packages are made up for the northern districts, they are handed over to the officer in charge of government consignments at the Port Office who forwards them. The delay therefore in the receipt of the Ganjam supplies was probably due to the difficulty in getting steamer carriage to Gopaulpore, but of this I have no personal knowledge.

SIR,

As there appears to be still some misunderstanding regarding the punctual supply of cholera medicines for Ganjam, I have the honour, in continuation of my letter no. 7214 of 27th May recorded in L.O. no. 481 dated 3rd June 1889, to submit the following remarks for the information of H.E. Lord Connamara.

2. It is a standing rule in the medical store depôt to give requisitions for cholera medicines precedence of all other demands and to issue the supplies on telegraphic or other request, leaving the covering indent to be furnished by the indenting party at convenience; and this rule was strictly carried out in the case of the Ganjam supplies.

3. The annexed tabular statement gives copies of all the telegraphic requisitions for cholera medicines received from the Collector of Ganjam, and the dates on which the several requests were complied with by the store department. It further gives a summary of similar issues to other
