Despatch Abstract

Coonor Hospital

Passing order on the transfer
of the management of the
to the Coonor Municipality.

File No. 3059/89

Extract from the Proceedings of a Meeting of the
Municipal Council of Coonor held on Wednesday
the 10th July 1889.

16242

Read G.O. dated 3rd June 1889 No 479 P.
passing orders on papers regarding the sale of
Medicines in the Civil Hospital at Coonor, and
the future management of the Institution.

The Council observe that the finances of
the Institution are at the lowest ebb, and they
learn from the Medical Officer in charge that
the voluntary subscriptions are rapidly falling
off owing to subscribers being prevented from
having prescriptions made up at the Dispensary,
so that there are practically no funds to take
over; this fact notwithstanding, the Council
are prepared to take over the entire management
of the Institution provided the Government will
so adjust their grant from Provincial Funds,
as to protect the Municipality from further
financial liability than they at present incur.

ORDER—dated 21st August 1889, No. 710, Public.

The Government is of opinion that the Coonoor Municipal Council should take over the management of the dispensary, with a fixed grant from Provincial revenues calculated on the average of the actual payments made by Government during the last

four official years, including the building grant sanctioned in G.O., dated 26th August 1886, No. 1797, Public, but omitting any contributions paid towards the salary of the medical subordinate attached to the dispensary under G.Os., dated 25th March 1873, No. 397, Financial, and 5th November 1888, No. 815, Financial.

2. This will be a very favorable arrangement for the Council, as the building grant amounted to Rs. 1,891-5-4 in 1886-87, and the contribution on account of the medical subordinate will continue to be paid independently of the fixed grant above sanctioned.

3. The Accountant-General will, as early as possible, furnish the necessary information to the Municipal Council.

4. The Surgeon-General will report whether any reductions in the scale of establishment are feasible. Apparently, a hospital assistant of the 2nd class might be substituted for one of the 1st class, and the bill-collector and gardener might be dispensed with.
