From the Surgeon General with the
 Chief Secretary to Government
 Public Department

The Surgeon General has been advised by the
 further services, and the Government to consider
 whether it is the wish of the Government to have
 Government in command that another officer
 belonging to the grade of assistant surgeon
 which was Surgeon Major Sheriff's substantive
 rank. Should be appointed to his position
 Hospital.

The grade of assistant surgeon, as established
 Surgeon as the rank of the individual
 1847 with the object of facilitating the
 creative population with the highest level
 of medicine. The object of this rank, the method
 Sheriff was attached to the Hospital, and
 connection with which had also in private
 practices he has been of great service in carrying
 out the objects which led to his location in that
 district.

3. In the case of all other assistant surgeons

25/1/08
 28/1/08
 31/1/08

at the present ~~for~~ ^{the} chief duties is to
take charge of head quarter stations and jails
during the absence on tour of the District Medical
officers. but in the town of Madras no such aid is
required, so that the position of Surgeon Moodeen
Sharif was exceptional.

4. As regards the staff of the Triplicane
Hospital it has consisted for some time, in
addition to the District surgeon, of Surgeon
Moodeen Sharif, a civil apothecary, and 2
hospital assistants, one of whom is the District
inspector. For financial reasons it has
been found necessary to have a junior civil
apothecary in the institution, and as he does
not draw charge allowances it has been
caused, as a matter of fairness, to change his
station occasionally so that he might
not be on a worse footing than his colleagues
in the other hospitals. The position of the
District surgeon is an exceptional one as Surgeon Moodeen
Sharif in the hospital has been performing a great
amount of the duties of a District surgeon and has
been the medical officer in charge. From a purely
medical point of view therefore I have to recommend
the continuance of the appointment. There are
very few prizes in the service for officers of the
incumbent's class, and I am strongly
of opinion that no service will secure any
talent

talent above mediocrity which does not offer
some prizes for men of ambition and ability.
Dr. Moodeen Sharif's pay formed a charge on
provincial funds. If the appointment is
sanctioned the incumbent should be treated
as supernumerary in his grade, and in
deference to the large mahomedan
population in the District, he should belong
to that class of the community.

I have the honour to be,
Sir,

Your most obedt. servant,

Sd/- M. B. C. P.

Surgeon General
with the Govt. Madras.

Sd/-

Ct. 2394

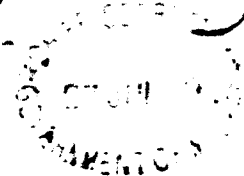

For orders

In G.O. No. 1092 dated 23rd April 1847, the Court of Directors sanctioned the appointment of 18 Native Surgeons - one for each important district or collectorate. The first batch of three was sent out in 1852; but up to 1890 only 8 out of the sanctioned number had been entertained; (besides Army Surgeon Mohiuddin Sherif, who was attached to Triplicane from 5th May 1858.) In the footnote attached to the Tabular statement on page 5 of G.O. No. 1645 dated 3rd November 1880, it was stated that the proposal to complete the sanctioned number of 18 Native Surgeons for each Revenue district did not contemplate the withdrawal of Mohiuddin Sherif from Triplicane.

[Faint, mostly illegible handwritten text, possibly a list or notes.]

No. 5438

Dated 27th July 1885.
Recd.

No.

Subject

Recommend the appointment of a Mahomedan assistant Surgeon to the Triplicane Hospital. Mr. D. Woodcock, Deputy Khan Bahadur retired.

no mention of this appointment is made in para 3 of the Surgeon General's letter of 18th November 1883 in the proposition statement sanctioned in para 3 of G.O. 391 dated 22nd Feb. 1883, and though this order directed that the establishment of an Asst Surgeon for each Revenue District of the Presidency "excepting only the Nilgiris" should be completed, the proposition statement did not include either Madras or Anantapur but provided only for the remaining 19 Districts.

The Triplicane appointment had therefore been treated as supernumerary allowance, and did not belong to the sanctioned scale.

An Assistant Surgeon for the Anantapur District was appointed in G.O. 1116 dated 28th May 1884, and Mis. 101762 dated 11th August 1884, and a reserve

of 1 Asst Surgeon or 10 per cent was sanctioned in G.O. 1060 dated 25th July 1884 para 2 recorded in G.O. 1061 dated 1st August 1884.

having ^{sanctioned} a reserve of 15 per cent (G.O. 925 dated 6th July 1887) the Surgeon General in para 3 of his first letter recorded in G.O. 1447 dated 20th October 1887 apparently included the Triplicane appointment in the cadre, and stated the total strength at 24, of which were the reserve, ~~to order was from~~ ~~as to the total strength, but~~ ~~the vacancies in the grade of Assistant Surgeons filled up by G.O. 908 dated 14th August 1888.~~

It is not understood however how the 15 per cent reserve figure 20 Asst Surgeons for all Revenue districts except Nilgiris - plus 1 for Triplicane, plus 2 Reserve makes 23 only. The additional required to bring up the reserve to 15 per cent was however 2 (for $\frac{20-10.5}{100} \times \frac{100}{500}$)

At present therefore the sanctioned strength should apparently be regarded as 20, (for the 20 Districts including Madras and Nilgiris), with a reserve of 15 per cent or 3; total 23. In the case of all these officers half the cost is recovered from local and Municipal funds; but as mentioned by the Surgeon General the whole cost of the Triplicane appointment has hitherto devolved on Provincial funds.

The Triplicane Dispensary belongs to the 4th (Medical) district and is the chief hospital for "all places within Municipal limits between the Mount Road and the sea inclusive of the slopes" these nearly correspond with the 7th and 8th Municipal Divisions, the population of which according to the Census of 1881

109,035

been
