APPENDIX.

Proceedings of the Madras Government, Pension Department, dated 23rd September 1872, No. 715.

Read—the following paper:—

Proceedings of the Board of Revenue, dated 22nd November 1871, No. 4821.

Read—the following letter from C. T. LONGLEY, Esq., Collector of Salem, to the Acting Secretary to the Board of Revenue, dated 9th November 1871, No. 3292:—

ABSTRACT.—Requesting the Board to favor him with their instructions in the case of ———.

ENCLOSURE.

Medical Certificate.

Certified that I have examined ——— and find that he is suffering from incipient leprosy, which has not as yet affected his general health and strength much. I cannot therefore declare him "physically unfit" for further service, unless, as I am of opinion should be the case, the simple existence of such a disease be considered a disqualification for the public service.

SALEM,
26th October 1871.

(Signed) R. PEARSE,
Zillah Surgeon, Salem.

Resolution—dated 22nd November 1871, No. 4821.

The medical certificate is quite sufficient as it stands; the man being declared to be a leper, nothing more is required for his immediate retirement from the public service on such pension (or gratuity) as he may be entitled to under the rules.

(True Extract.)

(Signed) J. B. PENNINGTON,
Acting Secretary.

From the Collector of Salem, dated 25th May 1872.

Offg. Deputy Accountant-General, dated 12th August 1872, No. 299.

Order—dated 23rd September 1872, No. 715, Pension.

Para. 2. The Government concur with the Board in their opinion that the production of a medical certificate in the form now submitted is a substantial compliance with the requirements of the Pension Code. The mere existence of such a disease as leprosy is a sufficient disqualification for the public service.

10 Great Park
Dec. 11/84

Dear Mr. Ringle

Examiner Stanton, at-
tended to in the accompanying
letter, is suffering from leprosy
in a mild form. It is believed
he was infected in 1878 & produced
certificate as to his fitness
for duty. Surgeon Leapingard
the accompanying certificate
states that the disease is not
contagious, and that, in his
opinion, Stanton is fit for the
performance of his duty. It is

however probable, as upwards of
six years have elapsed since
the production of the artia-
pica that at the same time
the disease has assumed a
more serious form. I think
under the circumstances, he had
better be sent up again for
the Doctor's opinion.

Kindly return him an-
swers

Yours truly
E. May
