OFFICE OF SURGEON-GENERAL  
WITH THE GOVERNMENT OF MADRAS,  
Fort St. George, 31 December 1888.

No. 416

From G. Bidie Esq. M. B., L.S.C.  
THE SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

FORT ST. GEORGE,

To

THE Chief Secretary to Government

Public Department.

SIR,

With reference to G.O. No. 1033 Public of 1<sup>st</sup> November 1888 directing me to enquire and report how many persons not employed in the Estates of the Ochterlony Valley have received relief in that dispensary during 1887-88, I have the honor to state that I have been unable to obtain the information either from the Medical Officer, Ootacamund or from the Collector, Nilgiris. The registers maintained at the dispensary do not appear to distinguish between the employes of the Estate and the general public treated in it, and Mr. Burroughs suggests that Mr. Wapshare be requested to keep an account for one year, say 1889, and furnish correct particulars for the information of Government. This suggestion has my approval.

2. I enclose for the information of Government copy of a letter received from Mr. Wapshare through the President District Board Nilgiris, in May 1887.

Fever, Bowel complaints, Lung affections, Podysores  
are I believe the chief diseases I amply requested  
in my first letter on this subject to be allowed to  
purchase medicines from the Medical Stores at  
the same rates as are charged to the District  
Board Hospitals. I did not ask for the  
medicines to be given me.

I think it should be borne in mind that  
were our Valley Dispensary to be closed all the  
sick from the Valley States would go to the  
District Board Hospital at Guadalupe for  
treatment and physic, the expense of which the  
District Board would for the most part have  
to bear. We employ for about ten months of the  
year between 5 and 6000, five and six thousand  
people, and the percentage of sick among these  
is considerable.

I have &c.

Sir

I have the honor to acknowledge your letter No 123 of May 16<sup>th</sup> 1887 together with copy of Surgeon General's letter No 105 of May 12<sup>th</sup>

I cannot tell approximately even the number of sick people - other than those employed on the Valley Estates - who are relieved by the District Apothecary and Dispensary.

The Apothecary visits each one of the Estates periodically besides going to each when sent for if disease requires. Examining and Physicking all the sick he may find there. A register is kept of the number of sick treated and the nature of the diseases, but no question is asked as to whether the sick person belongs to the Estate or otherwise. Friends of the natives who are employed in the Valley, who may be in the lines and all travelling natives are given Medical advice and Physic if they require the same. The Dispensary also is open all day to all sick people who may go there for medicine & advice and considerable numbers of coolies do go there and no question is asked as to where the sick belong.
