GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—again the following paper:—

G.O., dated 25th April 1889, No. 369, Public.

ABSTRACT.—Calling for a report from the Presidents of District Boards on the question of granting a "recess" to vaccinators.

READ—also reports from the several Presidents.

ORDER—dated 2nd December 1889, No. 977, Public.

His Excellency the Governor in Council resolves to direct that the period of "recess" heretofore allowed to Deputy Inspectors of Vaccination and Vaccinators under Section II, paragraph 14, and Section III, paragraph 21 of the Vaccination Code, be abolished with effect from 1890. Vaccinators and Deputy Inspectors of Vaccination will in future come under the ordinary privilege leave rules, but while they enjoy a recess, the grant of privilege leave will be regulated by section 306 of the Indian Civil Service regulations. The Government considers that freedom from peripatetic vaccine work is "absence from duty" within the meaning of this article.

2. The Sanitary Commissioner will submit proposals for the revision of the code with reference to the order now passed, and to the rules issued in G.O., dated 25th April 1889, No. 918 L.

Sir.

In reference to G.O. No. 369^{public}₂₅₋₄₋₈₉ calling
for the opinions of the Presidents of District
Boards regarding the grant of recess to Vaccine
officers, I have the honor to state that I and
the Presidents of all Taluk Boards in this

In this opinion I cannot agree
as vaccination is so backward
in this district that I allowed
no recess last year; and
I enclose a statement show-
ing the number of cases -
vaccinated and so successful
month by month for each
month of the year.

It will be observed that
though the operations were fewer
in October and November -
(the recess months in this district)
than in some other months, they
were not fewer to such
an extent as to justify -
stopping work.

work as a vaccinator has to do
can be comfortably performed. As
a matter of fact they can always
vaccinate under shelter, and need
not be continually rushing from place
to place.

2. The work of inspection, - that is
the finding of the vaccinated
children some months after the
operation, is no doubt extremely arduous
if it is conscientiously performed, and
entails an amount of rapid travelling
which, so far as the vaccinators
are concerned, is quite unnecessary.
I think the Deputy Inspectors may
fairly claim to be let off some of
their travelling in the monsoon, but
any hard and fast rule will be
objectionable. For instance the current

month of July has been a delightful
one for travelling. Probably in
August we may have unusually
heavy rain. I would grant no "recess"
but would recognize that the
monsoon may be a valid excuse

2.

I do not altogether agree with
the Resolution. I think, personally, that it
would be well to abolish the vacation, and
reduce the monthly requirements in the monsoon
months; at least as an experiment. If the
reduced requirements could not after trial
be turned out, the vaccinators might be
permitted to make up the average by
extra out turn in the succeeding months.

are of opinion, that however low the requirements
of vaccination might be fixed during the present
vacation months, as suggested by Government,
it would be extremely difficult to get them adhered
to.

I myself insist on Vaccinators working throughout the year. I think, however, that the Department might with advantage be reorganized and Deputy Inspectors as well as Vaccinators placed entirely under the President of District Board. Vaccinators too should I think be better paid and their promotion to Deputy Inspectors, after doing really good work, should be in the hands of the President of the District Board who has to look after them and who is most anxious to get the best men and to turn out the best work. This need not necessarily interfere with professional inspection.

Sir,

With reference to G. O. No. 369, Public,

that I see no reason for a "recess." Many officers—
e.g. the Engineering officers return to Head
Quarters for march to settle up the accounts
of the year, but this is not termed recess, and
there is nothing in the Circumstances of this
District to require a recess. There is nothing
to prevent these officers from working all the
year round. In fact the abolition of the recess
so called will if anything be an advantage
to them as it will give them a better claim to
privilege leave which is at present very
charingly allowed.

officers I have the honor to state
that I do not consider a recess
is required nor has this concession
been granted to the Vaccinators
in this District heretofore

2. The obviously proper
course is as suggested by Govern-
ment to relax requirements
in such months as it may be
found
