[Despatch Abstract.]

Emigration.

Desiring the Consular Agent, Pondicherry & Karikal, to furnish in future certain detailed information regard. ing returned emigrants, and pointing the attention of the Govt. of India to the heavy mortality among the emigrants who returned from Martinique by the S.S. Nantes et Bordeaux.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ the following paper:—

From Colonel C. HARRIS, M.S.C., Her Britannic Majesty's Consular Agent, Pondicherry and Karikal, to the Chief Secretary to Government, dated Pondicherry, 30th January 1890, No. 43.

With reference to G.O., No. 975, Public, dated 2nd December 1889, I have the honor to make the following remarks:—

2. The return headed "Mortality during the voyage" was not furnished by my predecessors; on finding that it was one of the returns required by the rules relating to colonial emigration, I introduced it, and I have regularly submitted it with my reports on returned emigrants. The columns headed "Disease" and "Date of admission" have always been left blank; this information has hitherto not been furnished by the officer in medical charge of the emigrants, either to myself or to the French Government, and I did not call for it, as I was of opinion that, if the medical officer furnished the particulars required by the "Tableau Médical" and "Tableau Hebdomadaire," it was unnecessary to trouble him for the further detailed information required by these columns. If Government, however, requires these further details, I will take measures to procure them on future occasions.

3. I beg to submit a list in original (received by me yesterday from Monsieur A. Mathivet, Directeur de l'Intérieur) of those emigrants who were treated in hospital after they were landed in Pondicherry. From this list, it will be seen that the chief admissions were for bronchitis (19), anæmia (12), dysentery (11), chicken pox (9), diarrhœa (8), rheumatism (3); the deaths were from diarrhœa (4), bronchitis (3), anæmia (1), asthma (1), dysentery (1), dropsy (1). The number of deaths was therefore 11, and not 10 as previously reported by me. I beg to express my regret for this error, which was caused by incorrect information supplied to me, and I request that you will be so good as to have the necessary corrections made in the 4th paragraph of my remarks. In explanation of my having failed to give these particulars to Government in my original report, I have the honor to state that similar information has on no previous occasion been furnished by myself or by my predecessors. I much desired to be in a position to offer some explanation to Government of the large amount of sickness and mortality, but the absence of any remarks by the medical officer in the "Tableau Médical," added to the omission by Mr. Lawless of any report on the state of the emigrants prior to their embarkation at Martinique, prevented me from offering any opinion whatever; and it did not occur to me that this further information would in any way assist me to come to any conclusion as to the origin or cause of the sickness and mortality.

ORDER—dated 15th February 1890, No. 118, Public.

The detailed information referred to in paragraphs 2 and 3 of the foregoing letter will be furnished by the Consular Agent in future cases.

2. The attention of the Government of India will be invited to the heavy mortality among the return emigrants.

(True Extract.)

J. GROSE,
Ag. Chief Secretary.

To the British Consular Agent, Pondicherry and Karikal.

ENDORSEMENT—dated 15th February 1890, No. 119, Public.

Copy to the Government of India, Revenue and Agricultural Department, in continuation of No. 976, dated 2nd December 1889.

2. Attention is invited to the heavy mortality among the return emigrants and to the extract from a letter from the British Consul at Martinique embodied in Proceedings of this Government, No. 975, dated 2nd December 1889.

Ag. Chief Secretary.
