4. It will be seen from the above table that out of the gross cash disbursements Rs. 5,07,278-11-12, Rs. 3,87,623-10-11 only is debitable to the working of the Printing Branch, and that the remainder was expended on account of the mechanical branch, foundries, purchase of service labels, materials, and other expense not pertaining to the printing office.

5. The outturn of the Printing department and the cost of the same for the different offices are shown in detail in Statement No. 3. It will be seen that the equivalent of 198,156 pica pages of 34 x 65 em measure were composed, and 10,475,550 impressions were taken by the presses. This Statement likewise shows, in addition to the payments to workmen, the expenditure adjusted by book debt for wear and tear of material, gratuities and pensions, gold leaf, printing ink, and stationery.

6. The average cost per page, as shown at the foot of the Statement, was Rs. 1-3-3, the cost per 100 impressions was 4 annas 2 pies.

7. The average number of workmen employed monthly in the composing branch was as follows:

Composers	155
Distributors	17
Impositors	
compositor was Rao-g, exclusive of	

8. An additional Statement, which has been numbered 3A, has been prepared in compliance with Government Resolution No. 1743, dated 3rd July 1886. It shows in detail the quantity and cost of each description of stationery and binding materials used for each of the different offices for which work was done. The cost of stationery during the year amounted to Rs. 1,24,496-11-9. The compilation of this statement has entailed considerable extra labor on the office, and has to some extent delayed the submission of the accounts.

The outturn of the bindery, as shown in Statement No. 4, has been classified under the following heads:—

	Copies.
Stitched	181,451
Sewn with paper cover	411,976
Bound in cloth	100,414
Bound in leather	14,077
TOTAL	707,918

The cost of the above was Rs. 28,066-5-2.

9. The number of envelopes made during the year was 1,685,280, at a cost of Rs. 1,007-4-3—vide Statement No. 5.

10. Statement No. 6 relates to machine-ruling. The number of sides or pages ruled was 2,294,430, and the cost Rs. 1,539-7-4.

11. Statement No. 7 shows the number of cheques and forms numbered and perforated for each office, the total being 1,428,600 numberings and perforations, at a cost of Rs. 225-2-9.

12. Statement No. 8 deals with the outturn and expenditure of the Foundries. In the Type-casting branch 1,104,263-8 of types were cast, and 4,909 copper matrices for type-casting were made; in the Stereotype and Electrotpe branches 20,047 and 8,905 square inches of plates respectively were cast. The value of the above outturn, calculated at the local market rates, was Rs. 55,079-12-3, and the expenditure for the same was Rs. 38,948-5-4, being a saving to Government of Rs. 16,131-6-11.

13. The offices that have been supplied with types from this Foundry are given below:—

Government of India.

ANNUAL REPORT

ON THE

WORKING OF THE OFFICE OF THE SUPERINTENDENT
OF GOVERNMENT PRINTING.

DURING THE YEAR

1887-88

CALCUTTA

PRINTED BY THE SUPERINTENDENT OF GOVERNMENT PRINTING, INDIA.

1883

FROM
THE SUPERINTENDENT OF GOVERNMENT PRINTING, INDIA,
TO
THE SECRETARY TO THE GOVERNMENT OF INDIA,
DEPARTMENT OF FINANCE AND COMMERCE,
SIMLA.

Dated Calcutta, the 14th July 1888.

SIR,

I HAVE the honour to submit the Annual Report, together with seven Statements, on the working of this Office and that of the Contractor for Printing Stock Forms, during the year 1887-88.

2. The Statements have been prepared in the forms revised by Messrs. Jacob and Oung. The first two Statements give a concise and classified abstract of the expenditure, and the percentage which the productive charges bear to the non-productive, compared with the two preceding years. Statement No. 3 deals with the cost of work executed by the printing office, and the stationery expended for the same, for the several departments of Government. The expenditure and outturn of all the branches of the office are compared with the past five years in Statement No. 4. The Fifth Statement is the Stock Account of this office; and the Sixth and Seventh shew the payments made to the Contractor for Printing Stock Forms, and the details of work executed.

3. The total disbursements made by this office during the year amounted to Rs. 5,54,684.* Rs. 5,43,783-0-11 of this sum (*vide* Statement No. 1), and Rs. 1,64,948-0-9 (*vide* Statement No. 6) paid to the Contractor, are debitable to the budget grant of Rs. 6,76,320, being an excess expenditure of Rs. 32,411-1-8 over the grant, as shown at the beginning of Statement No. 1. This excess expenditure was divided as follows:—

Central Printing Office	{	Budget	Rs. 5,41,320
		Expenditure	5,43,783
		Excess	2,463
Stock Forms	{	Budget	Rs. 1,35,000
		Expenditure	1,64,948
		Excess	Rs. 29,948

The excess expenditure for this office comprises the following unforeseen charges: Rs. 1,231 paid for Municipal taxes for the premises No. 8 Hastings Street, which was not provided for in the budget, as the taxes were formerly paid by the Accountant General, Bengal; Rs. 810 for travelling allowances of the Superintendent and a clerk for going to Simla to settle the new contract for printing stock forms; Rs. 285 for advertisements and other charges in connection with the new contract; and Rs. 137 for acting allowance during the Deputy Superintendent's absence on privilege leave. Sanction for these extra expenses was duly obtained. The payments made to the Contractor in excess of the budget grant are to be accounted for by the large quantity of printing done over that of last year—the amount, however, is nearly the same as that paid in 1885-86 (*vide* Statement No. 6).

4. The sum of Rs. 43,783 was expended by this office under the following heads (*vide* Statement No. 2):—

1. Printing Branch	R432,544
2. Foundries	" 41,871
3. Sale of Publications, <i>Gazette of India</i> , and Stock Forms	" 16,358
4. Expenses connected with the contract for printing stock forms	" 7,183
5. Service labels, local purchases, and other charges.	" 45,826

TOTAL . R5,43,782

5. The first item of expenditure, R4,32,544, plus R34,994 for expenses ad-

	1887-88.	1886-87.	1885-86.	Per cent.	
	R	R	R	86-87.	85-86.

Military Offices	91,412	75,738	65,169	20	40
Postal and Telegraph Departments	62,402	69,470	1,19,991	10	48
TOTAL	6,01,441	5,38,367	5,84,033	12	3

justed by book debit, form the total debit to the several departments for work done (*vide* Statement No. 3). The aggregate cost of work for the year, including stationery, is 12 per cent. more than that of 1886-87, and 3 per cent. over that of 1885-86, as per table in the margin. The following are the principal departments in which there was an increase of work:—

1. *The Legislative Department.*—Printing and binding the Digest of Indian Law Cases, Vols. I to IV.
2. *The Offices of the Comptroller General and of the Comptroller of India Treasuries.*—The work of these offices has gradually increased from Rs. 18,942 in 1885-86 to Rs. 24,057 in 1886-87, and Rs. 25,152 in the year under report. The increase in 1886-87 was on account of printing the Civil Account Code, Vol. I, Part 1, Fourth Edition.
3. *The Offices of the Accountant General, Bengal, and of the Comptroller, Assam.*—The increase in the printing charges of these offices was caused by the additional number of account forms sent to be printed.
4. *The Office of the Meteorological Reporter to the Government of India.*—The increase of Rs. 3,000 was caused by the Memoirs and Reports being much larger than in the two previous years.
5. *The Public Service Commission.*—The sum debited for work done for the Commission is Rs. 10,571, and was not anticipated at the beginning of the year.
6. *The P. W. D. Secretariat.*—The work of this Secretariat has been steadily increasing from Rs. 44,792 in 1885-86 to Rs. 64,130 in 1887-88. The bulk of the charges is on account of printing the Proceedings.

	Printing of Proceedings.
1885-86	R23,872
1886-87	33,200
1887-88	38,433

7. *The Examiner of Accounts, Military Works.*—Printing new Finance Accounts for 1886-87.
8. *Director General of Railways.*—Printing Index to Proceedings.
9. *Examiner of Commissariat and Army Remount Accounts.*—Charges on account of printing new Bill Forms.
10. *Director General of Ordnance.*—This is a new office.

On the other hand, there was a decrease in the Postal and Telegraph Departments in consequence of the transfer of some of their work to private presses and to the Contractor for Printing Stock Forms.

6. The result shown in the comparative Statement No. 4 does not call for any special remark, as the expenditure of all the branches of the office was proportionate to the outturn. The increase of outturn in the Paper Rolling branch was on account of the large number of Commissariat new Bill Forms which were ruled for the Examiner of Commissariat and Army Remount Accounts. The outturn of the Bindery shows that the quantity of work in leather bindings and

bindings, pasting, and stitching has increased. The cost of work done by the mechanical branch is somewhat less than in the previous year. The work consisted principally of repairs to type-casting machines, paper-cutting machines, and printing presses, and the preparation of brass for matrices. The work executed outside consisted chiefly of embossing letter paper and envelopes for the Military and Private Secretaries to the Viceroy, the Commander-in-Chief, the Financial Department, &c., and for wood-engraving and lithographing for military and other publications.

7. The Type Foundry has now become an important branch of the office, and is capable of executing large orders with expedition. In consequence of a recent order of Government that type should be obtained from this Office Foundry instead of from the Secretary of State, requisitions for printing material to the extent of 121,476lb 13oz. were received from different provinces, and complied with promptly, partly from Reserve Stock and partly from fresh casting. In order to meet the growing demands on the Foundry, four additional type-casting machines were procured from England, and were in working order at the end of the year. A list of the offices which were supplied with printing material during the year is given below:—

TOTAL	1,21,476	61,995

During the year, printing material weighing 120,178lb 12oz. was cast, and 5,682 matrices were made, at a cost of Rs. 48,491 including the estimated house rent. If this material had been procured through the Secretary of State, the cost would have been Rs. 1,00,315, so that a saving of Rs. 51,824 has been effected by having the type cast in India. A Statement showing details of outturn and expenditure of the Foundries was submitted with my letter No. 428A, dated the

12th instant. From this Statement it will be seen that the saving in the three years 1885-86, 1886-87, and 1887-88 was over one lakh of rupees.

8. The adoption of type-casting as a Branch of Government Printing has not only resulted in much saving to Government, but is a very great convenience, inasmuch as urgent requirements for supplies which happen to run short while a work is in progress, can be complied with almost immediately. I may be permitted to observe that much credit is due to my Deputy, Mr. Sanderson, for introducing and developing this industry without any assistance from experts, or outlay on the part of Government for skilled labour; also to the Assistants who have been instrumental in bringing this branch of the Office to its present state of efficiency.

9. Previous to 1874 the work of the Book Branch consisted chiefly of the free distribution and sale of the *Bengal Quarterly Army List*, and the sale of the Acts passed by the Governor General in Council, and other Government publications, the number of which did not exceed one-half of the present number. Since 1874 the free distribution of the publications issued by departments to their subordinate offices and Government officials, which was formerly made by the departments concerned, has devolved on the Book Branch of this office. As the books of about 20 departments have now to be distributed, the work of this branch has been considerably increased. Besides the above, this branch sells and distributes the cheap reprints of the Acts, which are printed in three languages. Eighty-five of these reprints have been issued, of which 40 were printed in three languages, 18 in two, and 27 in one. The statement of

	No. of Publications for distribution and sale.	Indents received.	Letters issued.	Packets and Parcels dispatched.
1885-86	338	4,537	2,326	38,330
1886-87	342	5,025	3,058	40,580
1887-88	360	6,313	3,791	44,834

the work for the last three years shews that there has been a steady increase, the last year shewing an increase of 50 per cent. over 1885-86 in the number of indents received and letters issued, and an increase in the dispatch of packets and parcels of 6,500 over the number sent in 1885-86.

10. The receipts from the sale of Military, Public Works, and State Railway Forms, Government publications, *Gazette of India*, Sutors' portion of High Court Appeal Cases, and from other sources, amounted to Rs. 1,78,678, against Rs. 1,29,993 in the previous year; to this should be added Rs. 29,361, the amount of the bills adjusted by book debit, making the total receipts for the year Rs. 2,08,039.

11. The payments made and the work done by the Contractor for Printing Stock Forms are shewn in Statements Nos. 6 and 7. It will be seen that the Ordnance and Post Office Forms were specially heavy during the year owing to the revision of many of the forms, and that there was a decrease in the Public Works Department and Railway Forms.

12. The sum of Rs. 4,450-3-9 for printing material supplied to the Contractor for Printing Stock Forms, was deducted from his monthly bills, and there is nothing due by him on this account. The account books of the Contractor were examined and audited by an accountant sent from this office, and all irregularities were rectified and properly adjusted. The balance sheet for the Stock Forms for the year is in course of preparation, and will be submitted by the 20th instant.

I have the honour to be,

SIR,

Your most obedient Servant,

E. J. DEAN,

Superintendent of Government Printing, India.

From

J. L. L. Esq.

General Superintendent

in charge of Outside Audit

To

J. W. Rawlins Esq.

Accountant General

to the Government of Madras

Sir,

I have the honor to submit my report on the audit of the accounts of the Government Press for the year 1888-89.

2 The audit was conducted in the following order:-

(1) The entries on the receipt side of the Cash book were checked (1) with the counterfoils of receipts granted by the Press, (2) with the Accountant General's books in the case of amounts drawn from Government, and (3) with the advertisement bill book for sums realized on account of advertisements inserted in the Gazette. The entries on the expenditure side were checked with original documents and vouchers.

(1) Remittances of collections to the

the Receipts and (1)

(2) Establishment charges with the
attendant rolls.

(3) Contingent charges with the
urgent registers.

(4) Postage charges with the dispatch
and Refunds with acknowledgments
the papers.

The Day-book entries were checked as follows:

(1) Plant and Stores received from the
Tory of State with the note attached
to book of the Accountant General.

(2) Stores received from the Superintendent
Stationary with a statement from the
that officer in accordance with form
of O dated the 19th April 1888.

(3) Service Postage reported in transit
together to Government Office and
correspondence with the Service Postage

(4) Service Postage due to be submitted
on 31st March 1889 for gazette and the
with the attendant registers.

(5) Value of Contract Labor with State.

for 1888-89.

Balance on the 1st April 1888

Remitted to the Board of Estimates to the

Credit of Government

(6) Cost of repairs estimated by Assistant and Public Works Department referred to be reviewed from those of

(7) Payments by customers in the Treasury with Treasury Receipts

(8) The Cash Book entries for the year and those of the Day Book for January and December 1888 and March 1889 were entered into the monthly abstract or journal

(9) Lastly all the entries from the Abstract and in the case of Annual all entries from the Cash book and book were traced into the ledger. The balance of the personal account balances, it was found, agreed with the balance of the ledger account

10. The modified form of Cash Book used in the last Annual Report of the year not having received the approval of the Government till the 20th May 1889, after the official year had expired, it was brought into force until the end of 1889

11. The following is a summary of the Cash transactions of the

(12) The receipts from Private individuals for contributions, subscriptions to Gazettes & aggregated Rs 26,250-7-8 against Rs 26,615-13-6 during 1887-88

of the total expenditure, amounting to Rs 1,05,653-2-10 the cost of establishment during the year was

Rs 1,61,704-4-1 against Rs 1,65,795-6-10 for 1887-88. The total amount of cash remitted to the Bank of India during the year under review aggregated Rs 2,91,326-5-10

These figures do not include items to the aggregate of Rs 2,280-5-7 representing receipts at out stations paid into the District Treasury to the credit of Government

13. Counterfoil receipts were wanting for entries in the Cash book to the amount of Rs 646-12-0 in July and August 1888 on account of sale of articles and payments of two sums of Rs 902-0-0 and 3-0-0 entered in the Cash Book in the months of July and October 1888 are not supported by vouchers. In a few cases too entries of small sums made in the Cash book on account of Private Postages are not supported by corresponding entries in the despatch book while a few other entries in the latter do not appear in the former

14. The balance sheet and Profit and Loss account of the year for 1888-89 are given below

Balance Sheet			
Date	Amount	Date	Amount
1st April 1888	In Sanctions	1st April 1888	By Sanctions
31st March 1889	Sanctions	31st March 1889	Sanctions (Balance)

The Profit and Loss account as above given
 differs from the Superintendent's Return by
 Rs 58-13-10 on the Debtor side and Rs 17269-2-8
 on the Creditor side. The former appears to have
 been inadvertently taken in the Superintendent's
 books to the debit of the head of Gyatse
 instead of Government; the amount represent-
 ing the cost of printing the Board's accounts
 in special funds (Rs 62-4-5) and certain
 special fund forms for the Tangore district
 (Rs 296-2-3).

9. - The other item Rs 17269-2-8 has been ex-
 cluded from the total value of Printing
 and Binding work done, because in accordance
 with what appears to have been the usual practice
 there has been a double credit taken for the
 work turned out on account of Local and
 Special Funds, Municipalities, Court of
 Wards and so forth, even when the necessary
 recovery is effected from these institutions
 and again including the amount of the value of all work turned out at the
 Press on account of the various departments
 including those institutions, with reference
 to the Statement No 4 attached to the
 Superintendent's Annual Report.

149

10. This will be evident from the following
 of the sum of Rs 259971-16-1, entered in
 Superintendent's present Return No 1.

Total value of work done in 1888-89 for all departments as per Superintendent's Statement No 6	Rs 253,952
Value of work done for the public on cash payment	2,715
Value of Types &c Cost	5,102
Revenues from Local and Special funds, Municipalities &c as per details given in the Statement under part 5 of the Superintendent's last report, but including Rs 296-2-3 inadvertently omitted therefrom	17,269
	Rs 259,971

The Superintendent should in future
 include when making the annual account
 as per first entry, all such items as will
 be ultimately recovered in cash or by ag-
 count. A list of these is given at the
 of the Superintendent's Statement but
 does not admit of easy comparison with
 the items actually recovered and ended.

the Superintendent might easily note against each recovery the particular item in which the amount is included in his annual statement of recoverable items.

12. Then again as regards taxes and business admitted to on part of Government. In No. 441 dated 20th May 1889, the Superintendent has mentioned in the present Profit and Loss Account only the amount of House Tax paid to the Municipality on the Government buildings now occupied by the Press, ahead of the License Tax and Income Tax to which the Press would have been liable had it been a private undertaking. At the same time the proforma receipt of the business above mentioned by the amount of the House Tax paid thereon.

13. In connection with the outstanding Personal accounts noticed in paragraph 12 of the last Audit Report which the Superintendent was directed by Government to attend to during the current year, I beg to state that in the case of two accounts there were additional payments in 1888-89 covered by an equivalent receipt, and in another case (District Board Kistna) there

was a payment of Rs. 100 on 21st May 1889, thereby reducing the total outstandings on the 31st March to Rs. 297-10 on the 31st March 1889. There were also 45 other petty outstanding personal accounts in which there were no transactions during the year, & having debit balances amounting to Rs. 27-2-6, and 44 credit balances to the aggregate of Rs. 66-10-0. The number of current accounts is 12 only and in these the balances at credit were Rs. 27-6-0 and those at debit Rs. 27-2-6. The clearance of the foregoing petty outstandings will greatly diminish the number of Personal Accounts in the Ledger.

14. — There is one more point requiring notice, no proper check at present exists on the issue of the Gazette to subscribers. I would suggest the substitution of a revised form of Register shown in appendix A in place of the one now in use, the alphabetical arrangement allowing sufficient space for the entry of new names under each letter. Payments made by subscribers whether for subscription or postage should be noted at once in the proper column, and would serve as a check on the entries in the Register.

The total value of the plant is Rs. 2,32,868-8-11, as against Rs. 1,52,022-0-0 shown in last year's report. With reference to the engraving made in para 5 of the above G.O., whether some portion of the work printed at private presses might be printed at the Govt. Press, the undersigned submits that the additional

The statement appended showing the apportionment of expenditure for the same period. These statements are prepared and shown in para 3 and statement 2 of the report of the Secy. of Govt. Printing, India, No. 71, Administration, 31 August 1887. Statement 3 has been discontinued, and condensed statements substituted (see no. 3 of his report for 1887-88 attached).

3. The procedure directed in para 2 of the above G.O. was carried out in statement No. 2 of the Press Report for 1888-89.

4. When checking the plant statement prepared for para 6 of the annual report embodied in G.O. of 18th September 1889, the Public, the undersigned was not satisfied with its correctness, and later on, on examination discovered that the types cast in the Press from time to time had not been added to the stock account. The books have been rewritten on the last stock-taking, 12th cent being taken for the preservation of types throughout the whole period, and the statement for 1888-89 prepared, shown in statement No. 5 of the report of the Secy. of Govt. Printing, India for 1887-88.

space obtained in the new premises
has been occupied and has
enabled the work to be turned
out with greater expedition,
especially in the Secretariat Dept.
and thus a saving has been
effected in the overtime charges.
Until the type foundry is fully
developed to meet current
requirements, and a reserve
plant is in store, it will not

be possible to undertake some
of the printing now done at
private presses.

6. The average earnings of
the compositors was reduced
by a less number of pages
being printed than in the
year proceeding, ~~and by~~ and by ~~the~~
~~chiefly due to~~ the revised
scale of charges for tabular
work being in operation in
all the composing departments
throughout the year.

7. As regards the first
part of paragraph 4 of 20th
May 1889, No. 441 Public, in
which the opinion is expressed
that the present valuation
system should be abolished
altogether, the undersigned
submits that it is impossible
to make such a radical change
in the system of keeping the
accounts for payment of
composition work and corrections,

56 4 P
and for the large class of
common binding work done,
without incurring a considerable
outlay for which there can be
no possible return. The
operations of this Press began
upon a valuation basis and
have continued upon this basis,
it being a more economic one,
consequently needing the minimum
amount of clerical labour to keep
the establishment accounts.

The valuation scale as now in
force approximates so closely to
the actuals as shown in the
last report, and the percentage
column for composing, press
and machine, and binding work
of statement in para 2 of this
office note, that a small
percentage reduction can be
made each year upon these
valuations to bring the total
valuations to agree with the
total cost in production.

80/ 100 1 Standing
27th FEBRUARY 1890, No. 155, PUBLIC.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

5/ READ—the following paper:—

From T. W. RAWLINS, Esq., Accountant-General, to the Chief Secretary to Government, dated Fort St. George, 24th December 1889, No. 4610.

I have the honor to submit the report of Mr. Pinto, the officer in charge of Outside Audit, on his audit of the accounts of the Government Press for 1888-89.

ENCLOSURES.

From J. L. PINTO, Esq., General Superintendent in charge of Outside Audits, to the Accountant-General to the Government of Madras, dated Madras, December 1889.

I have the honor to submit my report on the audit of the accounts of the Government Press for the year 1888-89.

2. The audit was conducted in the following order:—

- (a) The entries on the receipt side of the cash-book were checked (1) with the counterfoil of receipts granted by the Press, (2) with the Accountant-General's books in the case of amounts drawn from Government, and (3) with the advertisement bill book for sums realized on account of advertisements inserted in the Gazette. The entries on the expenditure side were checked with original documents and vouchers—
 - (1) Remittances of collections to the bank with the bank's receipts;
 - (2) Establishment charges with the acquittance rolls;
 - (3) Contingent charges with the contingent register;
 - (4) Postage charges with the despatch book; and refunds with acknowledgments of the payees.
- (b) The day-book entries were checked as follows:—
 - (1) Plant and stores received from the Secretary of State, with the value adjusted in the books of the Accountant-General.
 - (2) Stores received from the Superintendent of Stationery with a statement furnished by that officer in accordance with paragraph 2 of G.O., dated the 19th April 1886, No. 821, Public Department.
 - (3) Service postage expended in transmitting Gazettes to Government officers and Press correspondence, with the service postage book.
 - (4) Service postage due to subscribers on the 31st March 1889, for Gazettes yet to be posted, with the subscribers' register.
 - (5) Value of convict labor with statements furnished by the Superintendent of the Penitentiary.
 - (6) Cost of repairs executed at the Penitentiary and Public Works Workshops, with reference to bills received from those places.
 - (7) Payments by customers in district treasuries with treasury receipts.
- (c) The cash-book entries for the whole year, and those of the day-book for June, September and December 1888 and March 1889, were traced into the monthly abstract or journal.
- (d) Lastly all the entries from the monthly abstract, and in the case of personal accounts, all entries from the cash-book and day-book were traced into the ledger. The total of the personal account balances, it was also seen, agreed with the balance of the personal ledger account.

3. The modified form of cash-book suggested in the last Annual Report of the Auditor not having received the approval of Government till the 20th May 1889, after the official year had expired, it was not brought into force until the current year 1889-90.

4. The following is a summary of the cash transactions of the Press for 1888-89 :—

	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.
Balance on the 1st April 1888	..	..	..	..	..	..	2,443	4	8
Receipts.									
Drawn from the Accountant-General	..	..	..	1,85,243	11	8			
Received from Private individuals—									
For Advertisements	3,308	4	0

„ Plant	460	13	8						
„ Printing and binding	2,337	10	10						
„ Discount on remittances	26	3	4						
Miscellaneous	9	15	0						
				26,250	7	8			
							2,11,494	8	4
Expenditure.									
Salaries of Permanent Establishment				83,928	6	5			
„ of Piece-work Establishment				77,778	7	8			
Contingent Charges				5,446	15	8			
Service Postage				8,686	14	0			
Private Postage				188	9	3			
Purchase of Plant				3,798	14	5			
„ of Stores				3,832	14	6			
Contingent expenditure on account of Collectors				1,372	2	0			
Printing at other Presses				401	1	0			
Refunds				20	14	0			
							1,85,453	2	11
							28,484	5	1
Remitted to the Bank of Madras to the credit of Government							28,484	5	1

5. The receipts from private individuals for advertisements, subscriptions to Gazettes, &c., aggregated Rs. 26,250-7-8 against Rs. 26,615-13-6 during 1887-88. Of the total expenditure, amounting to Rs. 1,85,453-2-11, the cost of establishment during the year was Rs. 1,61,704-14-1 against Rs. 1,65,795-6-10 for 1887-88. The total amount of cash remitted to the Bank of Madras during the year under review aggregated Rs. 28,484-5-1. These figures do not include items to the aggregate of Rs. 2,280-5-7 representing receipts at out-stations paid into the district treasuries to the credit of Government.

6. Counterfoil receipts were wanting for entries in the cash-book to the amount of Rs. 646-12-0 in July and August 1888 on account of sales of Acts, &c., and payments of two sums of Rs. 9-2-0 and 3-8-0 entered in the cash-book in the months of May and October 1888 are not supported by vouchers. In a few cases top entries of small sums made in the cash-book on account of private postage are not supported by corresponding entries in the despatch book, while a few other entries in the latter do not appear in the former.

7. The balance sheet and profit and loss account of the Press for 1888-89 are given below—

Dr.			Cr.

	Total					

* Includes house-tax Rs. 612-16-11.

9. The other item Rs. 17,269-2-11 has been excluded from the total value of printing & binding work done, because in accordance with what appears to have been the usual practice there has been a double credit taken for the work turned out on account of Local and Special funds, Municipalities, Court of Wards and so forth—once when the necessary recovery is effected from those institutions, and again when making the annual adjustment of the value of all work turned out at the Press on account of the various departments including those institutions, as reference to the Statement No. 4 attached to the Superintendent's annual report.

	Rs.	A.	P.
Total value of work done in 1888-89 for all departments as per Superintendent's Statement No. 4	2,33,932	8	0
Value of work done for the public on cash payment ..	3,718	0	10
Value of types, &c., cast	5,052	2	4
Recoveries from Local and Special funds, Municipalities, &c., as per details given in the statement under paragraph 5 of the Superintendent's last report, but including Rs. 296-2-3 inadvertently omitted therefrom	17,269	2	11
Total ..	2,59,971	14	1

12. Then, again, as regards taxes and licenses adverted to in paragraph 9 of G. No. 441, dated 20th May 1889, the Superintendent has included in the present profit and loss account only the amount of house-tax paid to the Municipality on the Government building now occupied by the Press, instead of the license-tax and income-tax to which the Press would have been liable had it been a private undertaking, reducing at the same time the *pro forma* profit of the premises above mentioned by the amount of the house-tax paid thereon.

14. There were also 48 other petty outstanding personal accounts in which there were transactions during the year, 4 having debit balances amounting to Rs. 27-3-6, and 44 on balances to the aggregate of Rs. 64-4-11. The number of current accounts is 32 only and these the balances at credit were Rs. 276-12-0 and those at debit Rs. 117-2-9. The clearing of the foregoing petty outstandings will greatly diminish the number of personal accounts in ledger.

15. There is one more point requiring notice—no proper check at present exists on the issue of the Gazette to subscribers. I would suggest the substitution of a revised form of register sheet in Appendix A in place of the one now in use, the alphabetical arrangement allowing sufficient space for the entry of new names under each letter. Payments made by a subscriber when for subscription or postage should be noted at once in the proper column, and would serve as a check on the entries in the cash account, and show at a glance the period for which each subscriber is entitled to the paper, a star mark in the columns for such months as are covered by subscription denoting this fact. During the months which are not marked by a star no paper would of course issue.

APPENDIX A.

[illegible]

Office note from R. HILL, Esq., Superintendent, Government Press, to the Chief Secretary to Government, dated Madras, 18th January 1890, No. 114

As directed in paragraph 6 of G.O., dated 18th September 1889, No. 760, Public, the undersigned submits the following report:—

1. With reference to paragraph 6 (ii) of G.O., dated 20th May 1889, No. 441 Public, the only private printing work undertaken is for the Madras Literary Society and the enhanced rates will be charged in 1889-90 and in future.

2. As directed in paragraph 7 of the above Government Order, the following table shows the cash disbursements, book debits and the percentage which the working expenses of each department bear to the subsidiary expenses during the year 1888-89:—

Departments.	Cash expenditure.			Book Debit.	Total of columns 4 and 5.	Percentage of columns 3 and 5 on payments	
	Payments to permanent and piece establishments.	Supervision, clerical establishment, taxes, and contingencies.	Total of columns 2 and 3.	Wear and tear, pensions, house-rent, &c.			
1	2	3	4	5	6	7	
Printing—	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.

* This includes Rs. 5,275-1-0 the value of convict labor.
† " " 562-5-0 " " "

The statement appended shows the apportionment of expenditure for the same period. These two statements are prepared as shown in paragraph 3 and Statement No. 2 of the report of the Superintendent of Government Printing, India, No. 7 Administration, 31st August 1887; Statement No. 3 has been discontinued, and condensed statement substituted (see No. 3 of his report for 1887-88 attached).

3. The procedure directed in paragraph 8 of the same Government Order was carried out in Statement No. 1 of the Press Report for 1888-89.

4. When checking the plant statement prepared for paragraph 6 of the annual report embodied in G.O., dated 18th September 1889, No. 760, Public, the undersigned was not satisfied with its correctness, and later on, on examination, discovered that types cast in the Press from time to time had not been added to the stock account. The stock book has been rewritten from the last stock-taking, 12 per cent. being taken for the depreciation of types throughout the whole period, and the statement for 1888-89 prepared as shown in Statement No. 5 of the report of the Superintendent of Government Printing, India, for 1887-88.

Total	26,017 15 8	2,231 6 0	23,786 8 11	2,867 12 0	26,654 4 11
Type Foundry—					
Type foundry	8,285 5 4	184 13 6	8,100 7 10	1,286 10 8	9,387 2 6
Grand Total	2,37,079 10 11	23,975 11 2	2,13,103 15 9	19,764 9 2	2,32,868 8 11

The total value of the plant is Rs. 2,32,868-8-11 as against 1,52,022-2-1 shown in last year's report.

5. With reference to the inquiry made in paragraph 5 of the above Government order whether some portion of the work printed at private presses might be printed at the Government Press, the undersigned submits that the additional space obtained in the new premises has been occupied and has enabled the work to be turned out with greater expedition, especially in the Secretariat Departments, and thus a saving has been effected in the overtime charges. Until the type foundry is fully developed to meet current requirements, and a reserve plant is in store, it will not be possible to undertake some of the printing now done at private presses.

6. The average earnings of the compositors was reduced by a less number of pages being printed than in the year preceding, and by the revised scale of charges for tabular work being in operation in all the composing departments throughout the year.

7. As regards the first part of paragraph 7 of G.O., dated 20th May 1889, No. 441, Public, in which the opinion is expressed that the present valuation system should be abolished altogether, the undersigned submits that it is impossible to make such a radical change in the system of keeping the accounts for payment of composition work and corrections, and for the large class of common binding work done, without incurring a considerable outlay for which there can be no possible return. The operations of this press began upon a valuation basis and have continued upon this basis, it being a more economic one, consequently needing the minimum amount of clerical labor to keep the establishment accounts.

The valuation scale as now in force approximates so closely to the actuals as shown in the last report, and in the percentage column for composing, press and machine, and binding work, of statement in para. 2 of this office note, that a small percentage reduction can be made each year upon these valuations to bring the total valuations to agree with the total cost in production.

STATEMENT showing the apportionment of expenditure for the year 1888-89.

 To The Capt. Rev. P. J. 3 / Sep 9
 - Rev. General. 6 / 5/3/

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following papers :—

From T. W. RAWLINS, Esq., Accountant-General, to the Chief Secretary to Government, dated Fort St. George, 24th December 1889, No. 4610.

I have the honor to submit the report of Mr. Pinto, the officer in charge of Outside Audit, on his audit of the accounts of the Government Press for 1888-89.

ENCLOSURES.

From J. L. PINTO, Esq., General Superintendent in charge of Outside Audits, to the Accountant-General to the Government of Madras, dated Madras, December 1889.

I have the honor to submit my report on the audit of the accounts of the Government Press for the year 1888-89.

2. The audit was conducted in the following order :—

(a) The entries on the receipt side of the cash-book were checked (1) with the counterfoil of receipts granted by the Press, (2) with the Accountant-General's books in the case of amounts drawn from Government, and (3) with the advertisement bill book for sums realized on account of advertisements inserted in the Gazette. The entries on the expenditure side were checked with original documents and vouchers—

- (1) Remittances of collections to the bank with the bank's receipts;
- (2) Establishment charges with the acquittance rolls;
- (3) Contingent charges with the contingent register;
- (4) Postage charges with the despatch book; and refunds with acknowledgments of the payees.

(b) The day-book entries were checked as follows :—

- (1) Plant and stores received from the Secretary of State, with the value adjusted in the books of the Accountant-General.
- (2) Stores received from the Superintendent of Stationery with a statement furnished by that officer in accordance with paragraph 2 of G.O., dated the 19th April 1886, No. 821, Public Department.
- (3) Service postage expended in transmitting Gazettes to Government officers and Press correspondence, with the service postage book.
- (4) Service postage due to subscribers on the 1st March 1889, for Gazettes yet to be posted, with the subscribers' register.
- (5) Value of convict labor with statements furnished by the Superintendent of the Penitentiary.
- (6) Cost of repairs executed at the Penitentiary and Public Works Workshops, with reference to bills received from those places.
- (7) Payments by customers in district treasuries with treasury receipts.

(c) The cash-book entries for the whole year, and those of the day-book for June, September and December 1888 and March 1889, were traced into the monthly abstract or journal.

(d) Lastly all the entries from the monthly abstract, and in the case of personal accounts, all entries from the cash-book and day-book were traced into the ledger. The total of the personal account balances, it was also seen, agreed with the balance of the personal ledger account.

3. The modified form of cash-book suggested in the last Annual Report of the Auditor not having received the approval of Government till the 20th May 1889, after the official year had expired, it was not brought into force until the current year 1889-90.

4. The following is a summary of the cash transactions of the Press for 1888-89 :—

	RS.	A.	P.	RS.	A.	P.	RS.	A.	P.
Balance on the 1st April 1888	..	..	..	..	..	..	2,443	4	8
Receipts.									
Drawn from the Accountant-General	..	..	..	1,85,243	11	8			
Received from Private individuals—

Miscellaneous	9	15	0						
				26,250	7	8			
							2,11,494	8	4
Expenditure.									
Salaries of Permanent Establishment				83,928	6	5			
of Piece-work Establishment				77,776	7	8			
Contingent Charges				5,446	15	8			
Service Postage				8,686	14	0			
Private Postage				188	9	3			
Purchase of Plant				3,798	14	5			
of Stores				3,832	14	6			
Contingent expenditure on account of Collectors				1,372	2	0			
Printing at other Presses				401	1	0			
Refunds				20	14	0			
							1,85,453	2	1
							28,484	5	1
Remitted to the Bank of Madras to the credit of Gov- ernment							28,484	5	1

5. The receipts from private individuals for advertisements, subscriptions to Gazettes, & aggregated Rs. 26,250-7-8 against Rs. 26,615-13-6 during 1887-88. Of the total expenditure amounting to Rs. 1,85,453-2-11, the cost of establishment during the year was Rs. 1,61,704-14 against Rs. 1,65,795-6-10 for 1887-88. The total amount of cash remitted to the Bank of Madras during the year under review aggregated Rs. 28,484-5-1. These figures do not include items the aggregate of Rs. 2,280-5-7 representing receipts at out-stations paid into the district treasuries to the credit of Government.

6. Counterfoil receipts were wanting for entries in the cash-book to the amount Rs. 646-12-0 in July and August 1888 on account of sales of Acts, &c., and payments of two sums of Rs. 9-2-0 and 3-8-0 entered in the cash-book in the months of May and October 1888 are supported by vouchers. In a few cases two entries of small sums made in the cash-book on account of private postage are not supported by corresponding entries in the despatch book, while a few other entries in the latter do not appear in the former.

7. The balance sheet and profit and loss account of the Press for 1888-89 are given below

Office note from R. HILL, Esq., Superintendent, Government Press, to the Chief Secretary to Government, dated Madras, 18th January 1890, No. 114.

As directed in paragraph 6 of G.O., dated 18th September 1889, No. 760, Public, the undersigned submits the following report:—

1. With reference to paragraph 6 (ii) of G.O., dated 20th May 1889, No. 441, Public, the only private printing work undertaken is for the Madras Literary Society, and the enhanced rates will be charged in 1889-90 and in future.

2. As directed in paragraph 7 of the above Government Order, the following table shows the cash disbursements, book debits and the percentage which the working expenses of each department bear to the subsidiary expenses during the year 1888-89:—

Departments.	Cash expenditure.			Book Debit.		Percentage of columns 3 and 5 on payments to workmen.
	Payments to permanent and piece establishments.	Supervision, clerical establishment, taxes, and contingencies.	Total of columns 2 and 3.	Wear and tear, pensions, house-rent, &c.	Total of columns 4 and 5.

* This includes Rs. 5,275-7-0 the value of convict labor.

The statement appended shows the apportionment of expenditure for the same period. These two statements are prepared as shown in paragraph 3 and Statement No. 2 of the report of the Superintendent of Government Printing, India, No. 71, Administration, 31st August 1887; Statement No. 3 has been discontinued, and a condensed statement substituted (see No. 3 of his report for 1887-88 attached).

3. The procedure directed in paragraph 8 of the same Government Order was carried out in Statement No. 1 of the Press Report for 1888-89.

4. When checking the plant statement prepared for paragraph 6 of the annual report embodied in G.O., dated 18th September 1889, No. 760, Public, the undersigned was not satisfied with its correctness, and later on, on examination, discovered that the types cast in the Press from time to time had not been added to the stock account. The stock book has been rewritten from the last stock-taking, 12 per-cent. being taken for the depreciation of types throughout the whole period, and the statement for 1888-89 prepared as shown in Statement No. 5 of the report of the Superintendent of Government Printing, India, for 1887-88.

STATEMENT of stock of printing materials for 1888-89.

The total value of the plant is Rs. 2,32,868-8-11 as against 1,52,022-2-1 shown in last year's report.

5. With reference to the inquiry made in paragraph 5 of the above Government order whether some portion of the work printed at private presses might be printed at the Government Press, the undersigned submits that the additional space obtained in the new premises has been occupied and has enabled the work to be turned out with greater expedition, especially in the Secretariat Departments, and thus a saving has been effected in the overtime charges. Until the type foundry is fully developed to meet current requirements, and a reserve plant is in store, it will not be possible to undertake some of the printing now done at private presses.

6. The average earnings of the compositors was reduced by a less number of pages being printed than in the year preceding, and by the revised scale of charges for tabular work being in operation in all the composing departments throughout the year.

7. As regards the first part of paragraph 7 of G.O., dated 20th May 1889, No. 441, Public, in which the opinion is expressed that the present valuation system should be abolished altogether, the undersigned submits that it is impossible to make such a radical change in the system of keeping the accounts for payment of composition work and corrections, and for the large class of common binding work done, without incurring a considerable outlay for which there can be no possible return. The operations of this press began upon a valuation basis and have continued upon this basis, it being a more economic one, consequently needing the minimum amount of clerical labor to keep the establishment accounts.

The valuation scale as now in force approximates so closely to the actuals as shown in the last report, and in the percentage column for composing, press and machine, and binding work, of statement in para. 2 of this office note, that a small percentage reduction can be made each year upon these valuations to bring the total valuations to agree with the total cost in production.

ORDER—dated 27th February 1890, No. 155, Public.

The Accountant-General submits the report on the audit of the accounts of the Government Press for 1888-89.

2. From the summary of the cash transactions, it appears that the sum of Rs. 28,484-5-1 was remitted to the Bank of Madras to the credit of Government, and small sums aggregating Rs. 2,380-5-7 were paid into district treasuries. The estimated profit on the year's transactions was Rs. 26,297-8-7.

3. The statement of receipts, however, shows that a sum of Rs. 919-2-9 was received from private individuals on account of postage, whereas the expenditure under that head amounted to Rs. 188-9-3 only. The circumstances under which the balance, Rs. 730-9-6, was credited to Government, are not explained.

4. The cost of establishment was less by Rs. 4,090* than it was in the preceding year, and the receipts from private individuals show a slight falling off. †

	RS.
* 1887-88	1,05,795
1888-89	1,61,705
	4,090
† 1887-88	26,616
1888-89	26,250
	366

5. The attention of the Superintendent, Government Press, will be directed to the remarks in paragraph 6 and paragraphs 7 to 10 of the auditor's report. Paragraphs 11 and 12 will be noted by the Superintendent for future guidance.

6. The Superintendent must take early steps in view to the settlement of the outstanding personal accounts referred to in paragraphs 13 and 14 of Mr. Pinto's report. Many of the parties concerned are Government officials, and, if necessary, their accounts should be submitted for special orders. In cases in which there is any particular reason why recovery cannot be effected, sanction for writing off the amounts should be asked for, and the grounds for doing so explained.

7. The Superintendent will report on the suggestion made in paragraph 15 of the auditor's report, and in that connection the Superintendent's attention will be invited to the heavy charge, Rs. 4,989, on account of postage for forwarding copies of the Gazette to Government officials. He will report whether any reduction can be effected under that head by printing copies of the Gazette for the Mofussil on thinner paper or by any other means.

8. The payments on account of pensions aggregated Rs. 8,610, against Rs. 4,484 in 1887-88. The Superintendent will report the cause of the large advance of nearly 92 per cent. The value of stores received from London and the Stationery Depot increased from Rs. 39,128 in 1887-88 to Rs. 72,322 in the year under review.

9. With reference to paragraph 6 of G.O., No. 441, dated 20th May 1889, the Superintendent, Government Press, reports that the only private printing work undertaken is for the Madras Literary Society. The percentage that the enhanced rate to be charged in future bears to the cost of printing for Government should be reported by the Superintendent in due course. In the Public Works Department 23 per cent. on the actual cost of the work is charged for "Establishment—Tools and Plant," and it is considered that percentage should not be exceeded.

10. The Superintendent submits a revised statement of stock of printing materials for 1888-89, as through oversight no allowance was made in the statement printed in G.O., No. 760, dated 18th September 1889, for types cast in the Press from time to time. The corrected total value of plant on the 31st March 1889 was Rs. 2,32,869, against Rs. 1,59,022 previously reported. The value of type cast in the Press would therefore be Rs. 73,847, after allowing 12 per cent. for depreciation.

11. The Government is not satisfied with the Superintendent's arguments in paragraph 7 of his note read above in favor of a continuance of the existing system of valuation of work. There appears to be no valid reason why the actual cost of the work should not be brought out in each case, and it is not understood how a considerable outlay would be incurred by the change. The remarks in paragraphs 5 and 6 of the Superintendent's communication are noted.
