AGENT'S OFFICE,
TRICHINOPOLY, 18th June 1890

From

The AGENT,
SOUTH INDIAN RAILWAY,

To

The CONSULTING ENGINEER FOR RAILWAYS,
MADRAS.

Sir,

Your letter No 603 of the 13th instant. The Chief Engineer informs me the reason why it is necessary to analyse so many samples of water is that 18 watering stations are proposed to be placed on the Villupuram Guntakal State Railway, and it is important to ascertain the quality of the water available for Locomotive Engine purposes before fixing the station definitely, and sometimes several samples from each station have to be examined before the best result is obtained.

I am

Sir

Yours most obedient servant

William B. D. D.

Agent

G.S.A.
