and Municipal Department dated 14th October

Order 11th December 1890 No 7639

It appears from Statement No XIII embodied in the Report on vaccination that in most districts arrangements are in force for giving intimation of outbreaks of small-pox to the District Sanitary Officers and to the Vaccination Department, but it is desirable that a uniform and definite method of reporting should be prescribed and enforced throughout the Presidency. The procedure recommended in para 28 of the report seems suitable for the purpose and will be adopted in future. The Board of Revenue will be requested to make the necessary additions to standing order No 154. A.
