26TH JANUARY 1891, No. 242 W., PUBLIC WORKS.

GOVERNMENT OF MADRAS.
PUBLIC WORKS DEPARTMENT.

Civil Works.
Account.

READ—the following papers:—

From Colonel W. H. BURTON, R.E., Superintending Engineer, V Circle,
to the Examiner, Public Works Accounts, dated Chepâk, 9th December
1890, No. 4192.

With reference to your letter No. 7222, dated 4th December 1890, I have the
honor to state that, by the former rules, in cases in which the site of a building was
not purchased, the value of the site need not be considered in determining the capital
cost of the building. By Code Standing Order 1320 of 1890 the value of the site in
such cases is to be fixed by Government with relation generally to the average value
of similar land in the vicinity, &c. I request to be informed whether it would not
be necessary to obtain information from the Executive Engineer as to average value
of similar land in the vicinity in each case of the site, being Government property,
to enable the value of the site being fixed by Government with reference to such
information.

Office-note from the Examiner, Public Works Accounts, dated Madras, 20th
December 1890, No. 7547.

Forwarded in continuation of office-note No. 7206, dated 5th December 1890.

2. Under note 1 to rule 1 of Code para. 1041, introduced by Standing Order No.
1320 of 1890, when the site of a rentable public building belongs to Government, its
value has to be fixed by Government with relation generally to the average value of
similar land in the vicinity, &c., and it seems necessary to determine somewhat more
particularly how the valuation is to be made. Government will of course only pass
orders approving, rejecting, or modifying the valuation proposed by some local
authority, and it seems desirable to decide whether the valuation should in the
first instance be made by the Collector of the district or by the Executive Engineer
concerned, either with or without the assistance of the Revenue authorities.

ORDER—dated 26th January 1891, No. 242 W., Public Works.

Communicated to Superintending Engineers in continuation of G.O., No. 3389 W.,
dated 19th December 1890.

2. In cases, such as those mentioned in para. 2 of the Examiner's endorsement,
a valuation of the site will be obtained by the Executive Engineer from the Collector,
and the result will be reported through the Superintending Engineer for the con-
firmation of Government.
