My Lord,

Natal, no 268

I have the honour to acknowledge the receipt of your Lordship's despatch (Circular) of the 8th September last, informing me that the Government of India having had their attention drawn to the arrival of Indian Immigrants in the Colonies suffering from incipient leprosy have announced their intention to take precautions to prevent the embarkation of such persons, and that the Colonial Authorities will inform them without delay, of the arrival of such persons in the Colonies. Your Lordship requests that on the arrival in this Colony of any Immigrant suspected of the disease, I will, at once, furnish with full particulars, for the information of the Government of India. I have taken steps to see your Lordship's instructions to be carefully served.

The only case of this kind occurred on arrival here in July last, of the "Unitata" from Madras, when the Medical Board discovered an Narayanabamy, no 280 afflicted with incipient

incipient leprosy, and recommended his return to India; he was accordingly sent back to India in the "Pougola" in August last. On his arrival in India he was examined by the Medical Inspector of Immigrants who stated that, in his opinion the discolouration was not leprosy.

I have &c

The Lord Knutsford, G. C. M. G.
