This seems a large sum for the purpose; and it is undesirable that the inscription should be whitened. A few rupees might suffice for the clearing. These remarks also apply to the clearing and whitening of inscriptions in items Nos 20 and 21 of collector's report, which the temple authorities have been requested to carry out at a cost of Rs 25 and 150.

(3)	—	Inscription is barely executed and is getting worn by action of the weather. Causes disintegration of rock. The inscription legible — it will be sufficient to cover it with an iron plate and nails on 4 at a cost of 5 rupees.	Instead of covering and hiding it with an iron plate, it would serve the purpose if it were given a coat of silica; or perhaps a soaking of mineral oil at intervals.
