TO

THE CHIEF SECRETARY TO THE GOVERNMENT OF
MADRAS.

Home Department.
Medical.

Calcutta, the 16th March 1891.

SIR,

I AM directed to acknowledge receipt of your letter No. 701 (Public), dated the 18th October 1890, forwarding a copy of the Report on the Civil Hospitals and Dispensaries in the Madras Presidency for the year 1889.

2. The Government of India observe that the results reported are generally satisfactory, though they compare unfavourably in some points with those reported from other Provinces. A statement is annexed giving particulars of the working of the Dispensaries during the year (other than those in the Presidency towns) in the five larger Provinces. The attention of the Madras Government is invited to the small amount of surgical work as judged by the number of major operations performed outside the Presidency town; and to the high expenditure incurred on account of it and contingencies.

3. In reply to the enquiry in your letter whether the detailed statements attached to the Report are required each year, or whether it would be sufficient if they were supplied triennially, I am to say that the Government of India will have no objection to the figures for districts only being given in the Annual Statistical returns for 1890. If it is found that the omission of details within districts causes no inconvenience, they will be prepared to agree to the proposal of the Madras Government that detailed statements should be furnished only every third year with the triennial report.

I have the honour to be,

SIR,

Your most obedient Servant,

J. P. Hewitt.
