It is a large crowd
yet to estimate the exact amount
of time that is taken up in the
various operations but I am
sure my estimate can't be
far wrong.

Yours truly
C. Michie Smith

July 1891

27 JUL 91
GOVERNMENT OF MADRAS

My dear Sir

Each volume of the Meridian
Circle Observations contains the
results for three years and the volume
on hand is for 1871-72-73. Of this
32 pp are actually in type that is
the "Separate Results for 1871" are almost
completed, and from the manner
in which Mr Poyson worked this
means that the MS. for the year
of that year is equally nearly
completed. In addition to that
a considerable amount of
work has been done on the
results of 1872 so that I
think I am very near the ~~work~~
when I say that ~~one-third~~
of the volume is done.
