RECEIVED SECRETARY
Simla - the 20th June 1891.
27 JUN 91
GOVERNMENT OF INDIA

SIR,

I AM directed to forward the accompanying copy of a Despatch* from Her Majesty's Secretary of State for India, together with a copy of the letter from the Local Government Board, London, enclosed in it, and to request that, with the permission of *His Excellency the Governor in Council*, you will cause the Local Government Board to be regularly furnished with the returns asked for.

2. These returns should be sent simultaneously with those intended for the Registrar-General in England.

I have the honour to be,

SIR,

Your most obedient Servant,

P. G. Melitus
Under-Secretary to the Government of India.

INDIA OFFICE,
London, 23rd April 1891.

Statistics.
No. 28.

To His Excellency The Most Honourable The Governor General of India
in Council.

MY LORD MARQUIS,—I forward a copy of a letter from the Local Government Board, with enclosures, and request that Your Excellency will cause instructions to be issued for the transmission in future to that Department of the various health returns referred to in the letter, which are stated to be regularly supplied to the Registrar General in this country.

I have the honour to be,

MY LORD MARQUIS,

Your Lordship's most obedient, humble Servant,

CROSS.

Dated Whitehall S. W., the 19th March 1891.

From—GEORGE D. ADRIAN, Esq., Assistant Secretary,

To—The Under-Secretary of State, India Office.

I AM directed by the Local Government Board to advert to your letter (R. and S. 76) of the 10th ultimo, and to state that at present they do not desire to offer any objection to a discontinuance of the fortnightly telegrams showing the number of cholera deaths at the chief Indian ports, but they think it right to observe that circumstances may occur which would render it of considerable importance that in the interests of the Public health in England telegraphic information as to the mortality from cholera in India should be furnished at frequent intervals. In that event the Board would communicate with the India Office on the subject.

I am at the same time to state that the Board learn from the Registrar General that he receives by post weekly returns of vital statistics from Calcutta (the town and suburbs separately) from Bombay, and from Madras, a weekly return relating to municipal towns in the Punjab, and a monthly return relating to Calcutta and suburbs and other areas. Specimen copies of these returns are enclosed. The Board, being desirous of having full information from time to time, and as early as practicable as to the existence or progress of cholera in India, would feel greatly obliged if Viscount Cross would have the goodness to cause arrangements to be made for their being supplied by post with duplicate copies of the several returns in question at the time that copies are sent to the Registrar General.

The Board will be glad to have the enclosed papers sent back to them.
