Submitted that the
medical officer's report is
not a satisfactory one -
certainly not such an one
as many Surgeons General
would have been content
to submit to Govt. without
remark.

The report is a very off hand affair
and B. Harrison does not seem to have
troubled himself about the matter
as far as the proposal in the concluding
portion of his letter mentions he was
the S.G. says how it is to be carried
out. The handling is well of course
but take a ^{passing} ~~look~~ at the obvious suffering
from cholera but how are they to
be criminal persons who have
acquired but no yet developed
the disease. It is these who carry
cholera about.

The District Surgeon's report is not satisfactory. It does not appear when the additional apothecary was sent to Solapet.

2. The suggestion made by Dr. Harrison in para: 2 of his letter and commended to Govt: by the Surgeon General is obviously impracticable.
