all empowered to inspect educational institutions in the City of Madras and grant certificates, it will lighten the burden which otherwise would fall very heavy on the Sanitary Commissioner, the Deputy Sanitary Commissioner and the Health Officer.

The above order does not appear to have been communicated to the Surgeon General with the Government of Madras, or the President, Madras Municipal Commission. The District Medical and Sanitary Officers in the mofussil and the Health Officer of the Madras Municipality, having in consequence received no orders from the Heads of their Departments, are at a loss to know how to act. I beg, therefore, to request that the G.O. may be communicated to the above officers.

Order 17th September 1891 No 718.

The proposal of the Dy. Director of Public Instruction that the District Surgeons in the Town of Madras should also be empowered to grant Sanitary Certificates to managers of schools within the Madras Municipality seeking recognition is approved.

The attention of the Public and Local and Municipal Departments will be invited to the remarks appearing in paragraph 3 of the Director's letter.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

READ the following paper:—

From the Ag. Director of Public Instruction, Madras dated 2nd September 1891, No. 10,109.

I have the honor to state with reference to G. O. Educational No. 526 dated 9th July 1891, that the Sanitary Commissioner reports that no orders of Government have been received by him regarding the granting of Sanitary certificates. Dr. Saing also states that as Dr. Nield Hook is the Health officer of the town of Madras, the certificates in question should be obtained from him alone for schools within municipal limits. Considering the number of institutions in the city of Madras, I think this would impose on that officer a far greater amount of work than he could accomplish.

2. I observe that the District Surgeons in the town of Madras are not mentioned by Mr. Grigg among the officers empowered to grant certificates. This I presume is an oversight, and looking upon it as such, I am accepting certificates signed by these officers. If the Sanitary Commissioner, the Deputy Sanitary Commissioner, the Health officer of the Municipality and the District Surgeons are all
