The Chemical Exr.
asks that the pay of his
clerk may be increased
from Rs. 30 - which he has
drawn for ten years - to
Rs. 30 - 6 - 60. Submitted
that it wd. be preferable
to increase his pay to Rs. 40.
that a case has been made
out for such increase.

O.B. It would probably be better
to give another clerk on
Rs. 15. The clerk when he
came into the office first
he had known what
his prospects were.

I don't see how additional work
will be provided for by increasing
the clerk's pay. If the Estab^t wants
strengthening let the Ch. Exr. make
out a case. But apparently
he does not intend that this
present work is beyond the powers
of one clerk.

The Govt. fails to see how
additional work will be pro-
vided for by increasing the
clerk's pay. If the clerical est^t
wishes strengthening the
Chemical Exr. should state the
reasons on wh. he considers the
services of another clerk are
necessary. It has not so far been
shown that the work is beyond the
powers

in the clerical work also. Much of the clerical work that used to be done by the assistant chemical Examiner and the other assistants has now to be done by the only clerk inasmuch as the assistants have not really the time to do clerical work in addition. The recent introduction also of analysis of Spirits in this Office has increased the clerical work and I have the honor to request that the salary of the clerk be increased to Rupees Sixty by an annual increment of Rupees Six with effect from January 1892, inasmuch as the present clerk has been and is a very painstaking and careful subordinate and has always given satisfaction in the performance of his duty.

3. The increase proposed may be met from the general savings likely to accrue during this official year, as there has been an average annual saving of Rupees Two hundred

SIR,

I have the honor to bring to your notice the greatly increased clerical work in my office and to request you kindly to obtain the sanction of the Government to increase the salary of the present clerk. His salary is now Rupees thirty a month and has been so for the last ten years with no prospect of promotion or increase. There is no much or least to assist him even in the work of filing papers &c.

2.

It will be clearly seen from the annual reports of this Office how the analytical work has increased and this necessarily involves an increase
