29TH JANUARY 1891, No. 94, PUBLIC.

GOVERNMENT OF MADRAS.

PUBLIC DEPARTMENT.

READ—the following paper:—

From the Acting Agent and Manager, Madras Railway Company, to the Officiating Consulting Engineer for Railways, dated Madras, 26th January 1891, No. 76.

I have the honor to inform you that it is reported to the medical officer by the apothecaries at Erode, Jalárpét, Pódanúr and Rénigunta that at their stations and in places in close vicinity to them frequent cases of cholera have recently occurred.

2. At Jalárpét six out of the seven cases have been fatal, and most of the passengers came from Kolar where cholera is stated to be epidemic. All these patients were transferred to the cholera shed at Jalárpét, and it is stated that no arrangements appear to have been made by the Civil authorities for their nursing or feeding. I shall be glad if you will call the attention of the Collector of the district to the desirability of making such arrangements for the comfort of patients and the conservancy of the shed, the property of the Government, as the circumstances require.

3. Government, I believe, expects the Railway apothecary to attend such cases gratuitously, and, provided the number of patients is within reasonable limits, he can probably do so without prejudice to his ordinary duties. As the medical officer points out, however, the treatment of cholera requires such constant and unremitting care on the part of the medical men, that, should the number of cases increase, he will have to ask me to apply to you for further medical assistance.

4. Cholera as an epidemic has also made its appearance in a parchy adjoining but outside the Railway compound at Rénigunta, and I regret to say that Carriage Examiner E. Bearder, of the Locomotive Department, and his young child about three years of age, succumbed to the attack. It is reported that the place is in a very insanitary condition, and I shall be further obliged if you will call the matter to the notice of the Collector of the district, and request him to take immediate steps with a view to improving the sanitation of the parchy. The Railway apothecary is doing what he can, but the place being outside the Railway premises he has but little power.
