Local and Municipal Department.

PROCEEDINGS OF THE. MADRAS GOVERNMENT.

Read the following paper :—

From the Government of India, Home Department dated
20th October 1891 No. 249.

Read the following :—

From the Chief Secretary to the Government of Bombay
to the Secretary to the Government of India, Home
Department (Sanitary), Dated 1st October 1891
No. 3484 of 1891.

With reference to your letter No. 241 dated 6th
November 1890 forwarding a copy of the Proceedings of the
Government of Madras in which is recorded a report by
Surgeon Major W. G. King, Acting Sanitary Commissioner
for Madras, on the subject of certain experiments,
made by him for preserving animal lymph and
requesting that experiments may be undertaken in the
Bombay Presidency with a view to test the value of Dr.
Kings discovery, I am directed to forward herewith
copy of a letter No. B.
2372 dated the 16th ultimo from the
Sanitary

Sanitary Commissioner for the Government of Bombay
from which it will be seen that the results of the
experiments made by him with a view to test the
value of Dr. King's discovery do not justify him in
recommending the general use of lymph preserved
in Lanoline.

From the Sanitary Commissioner for the Government
of Bombay to the Chief Secretary to Government, General
Department, Bombay dated 16th September 1891 No. B
2372
of 1891.

In compliance with Government Resolution
General Department, No. 4804 of 8th December last, I
have the honor to report that experiments have been
made with a view to test the value of Dr. King's dis-
covery, the results of which do not justify me in re-
commending the general use of lymph preserved in
Lanoline.

2. Great care is necessary in preparing the
material to be of uniform strength, and it must be
rubbed into Scarifications larger and deeper than when
pure fresh lymph is used. Ignorant natives might
mistake Lanoline for other animal fats against which
they are prejudiced on religious grounds and this
might

might prove detrimental to the cause of vaccination.
The success attending its use is not equal to that
of fresh lymph.

3. So long, therefore, as fresh animal or hu-
man lymph is available, I see neither necessity nor
advantage in using it in a diluted state, no matter
with what material it may be mixed as a vehicle.
The mixture must be inferior and less active than
pure fresh lymph from a calf or child's arm.

(4) It may however prove useful for re-
vaccination of grown up people who can bear more
extensive scarification and manipulation better than
children, when a supply of fresh lymph is not pro-
curable.

No. 349.

Copy forwarded to the Government of
Madras, Local and Municipal Department, for
information, with reference to the correspondence
going with that Government's letter No. 2129 L. dated
the 3rd September 1891.

Proceedings of the Madras Government

Read the following:—

Proceedings of the Public Department dated
12th May 1891, No. 376.

Proceedings of the Judicial Department dated
7th July 1891, No. 1349.

Order of 24th November 1891, No. 994.

In view to the preparation of a complete list of reports, returns &c. submitted to departments under the Chief Secretary and of those forwarded by them to the Government of India, with due dates, departments under the Chief Secretary are requested to furnish for compilation. In cases where due dates have not been fixed it would be well to have this done in view to the issue of a complete list, which would, it is thought, be found very useful.
