NOTE FOR THE CHIEF SECRETARY.

Military Dept.

Please let me know whether you have read my proposal from the p. iii. c. for moving the Station Hospital from the building it occupies at present.

J. D. B.
15/3

No proposal to the above effect has yet been received in the Military Dept; but we know that the C. in C. contemplates moving the Station Hospital to St. Thomas' Mount.

Memo.
No 431 of 5 March 92.

With reference to

his suggestion that the Station Hospital should be converted into an Hospital for women & children, the Surgeon General is requested to report what number of beds for Women and children could be provided in the building and whether space could also be found in it for paying patients.

2. The existing number of beds in the Women & Children's Hospital should also be stated.

From orders

J. D. B.

PROCEEDINGS OF THE MADRAS GOVERNMENT.

Read the following Pro.

of the Board of Revenue (P. S. D. & Co.) dated
13th April 1892. No. 2000 in letter from
the Collector of Vizagapatnam dated 20th
March 1892, No. 746. -

With reference to Board
Proceedings No. 62, dated 5th July 1896
I have the honor to report that only
3 of the said feather rain-gauges have
been put up to date owing to the
district surgeon not having been able
to visit the stations to select sites.
There is ~~no~~ district surgeon at
present and by the time the next
arrives and has had time to
settle himself the mandamus will
have expired. Under the circum-
stances I request that the Board
will if it thinks fit apply to Govt
for permission to have the rain-gauge
sites selected by the European Division
officer to myself.

orders of the District Surgeon -
and all these & also

every year. In this respect this would involve a march of 913 miles supposing the District Surgeon was able to travel on continuously without returning to head quarters till the work was completed. Of course this would be almost impossible and the additional journey to and from head quarters would largely add to the mileage. Most of the distance would have to be done by day in an overland mode ^{of this order seems necessary} in consequence of the result will be that the Surgeon will not be so far from the water at most stations.

Resolutions.

1. That the Board of the Government of the District of Columbia do hereby resolve that the District Surgeon report to the Board of the District of Columbia that the selection of water for new gauges may be referred to the Collector and his subordinate officers.
2. That the Board of the District of Columbia do hereby resolve that it will be impossible for the District Surgeon to visit all the rain gauges a

a year. There are 26 stations in the District including 10 in the Agency tracks and it will be as much as the District Surgeon can possibly do if he is required to inspect them once in 3 years, annual inspections being made by the Divisional officers.

4- Copy of these Proceedings will be communicated to the Meteorological Reporter to Government with the request that she will submit any remarks she may have to offer direct to Government forwarding copy of the same for the information of the Board.

Order thereon 23rd April 1892 No 2068.

The recommendation in para 2 of the Board's Proceedings is approved. The instructions in G.O. N-16, dated 9th Jan'y 1891 will be modified as regards Vizagapatnam in the manner suggested in para 3.
