Forst No. 406. Miscellaneous.

The Hon. H. W. Bliss.

READ the following letter from the Collector of Salem, dated 6 April 1892, no $\frac{121}{302}$ of 1892-93 and the endorsement of the Conservator of Forests, Coimbatore, thereon, dated 7 April 1892, no 171.

With reference to Board's Proceedings dated 18 March 1892, no 270, miscellaneous forwarding a letter of the Superintendent of the Archaeological Survey enclosing a translation of the inscription on a stone near the Hari Ramana Temple, Peniakulayam Hills, I have the honor to point out that the copyist or person sent by the Superintendent to take a tracing of the inscription does not appear to me to be a person whose evidence would be calculated to carry weight in a court of law. On the other hand it will not

It is of much use summoning the Government Epigraphist himself as he can only speak to the inscription from knowledge gained from a tracing thereof and not from the inscription itself.

As matters stand the age of the inscription appears to be a matter of doubt and Dr. Haultzsak is unable to say whether it dates from 1851 or 1771. Possibly therefore a personal inspection of the stone by an expert might decide this point.

As it is further understood from the translation of the inscription that the device gift is only a village (a point in favour of Government) and not the whole hills as was hitherto alleged by the Paligar the Council for Government intends filing the copy of inscription and the translation thereof in the District Court and examining the Epigraphist on the side of Government.

It however appears from the enclosed letter that the Government Epigraphist is at present on leave I would therefore request that his locum-tenens if an expert in

in epigraphy may be directed to inspect the stone and report more fully on the matter.

No one has been
appointed to conduct
Dr. Hultsch's duties
during his short
absence. It is, however,
quite unnecessary
for Dr. Hultsch or any
other expert to take an
impression of the in-
scription himself.
That taken by the subor-
dinate already sent
must be a facsimile
impression of the work
and not a tracing
as surmised by the
collector.
