Constructing latrine at 7/4

1412 estimate

Order 24 June 92 No 430

The estimate amounting to Rs: 4551 for constructing a latrine and burial of galvanised iron for the use of the Secretariat is approved. It will be returned to the P. W. Dept with the request that the work may be taken in hand at a very early date.

2. arrangements will no doubt be made in the P. W. D. for keeping the iron well tarred as suggested by the Chief Engineer.

2. There is one other point on which I would make a suggestion. According to the estimate it is proposed to cover the latrine with country tiles. I would suggest the use of Mangalore tiles, which will improve the appearance of the building (a no unworthy consideration in a building adjoining a well frequented road); and moreover Mangalore tiles being lighter and of a harder material than country tiles are less liable to be impregnated with deleterious gases. The alteration will not, I believe, affect the cost of the latrine. Mangalore tiles will

From

J. A. JONES, ESQ., MEM. INST. C.E., F.R.S.E.,

SANITARY ENGINEER TO GOVERNMENT,

To

The Chief Secretary to Government
Public Department.

SIR,

With reference to your endorsement No 752 dated 29th April 1892, I have the honor to remark that the original plans for a menial and a latrine for the use of the clerks of the Government Secretariat were referred to me by the Assistant Engineer, Consulting Architect's Division, for an expression of opinion on the design and the general arrangements. I suggested several alterations, which I observe have all been adopted in the plans as finally submitted to Government. The plans meet with my approval except as regards one particular. The partition
