No. 1639.

From

The Secretary (opur.
(tho' not paid)

Dated

17th June

1892.

FOR ORDERS.

It is understood from Dr. Laing's letter that if the addl. appt. asked for is sanctioned it will not be conferred on a man already in the office.

It is submitted that the term or designation "Asst. Manager" should be done away with. There should be only one Manager - especially when there are only 9 clerks in all. Too many managers cannot be good even for a large office. The new man if sanctioned I might appropriately be called the "Head Clerk".

J.B.

24/6

The Secretary (opur.) appears to have been taken in the vicarious spirit of his letter. He is not to be paid £1000 a year. He is not to be paid more. There is no lesson in making his salary above progressive. He is not to be paid more than he is worth.

and in time without undue tension being put upon it. The Establishment has for some time past had to put in extra hours of labour which cannot in justice be expected of it every day especially if there is no prospect of this rule being relaxed. Had it not been for this I would not have approached Government on the subject bearing in mind as I do the financial exigencies of the state, but the necessity of the case has forced me to do so.

3. Since 1880, when the present establishment was organized, the work has increased from various causes. The appointment of District Surgeons as District Medical and Sanitary Officers, the enforcement of Madras Acts IV and V of 1884 whereby a greater scope has been given to local self-government, the formation of Local Fund Taluqs. and ~~Muzams~~, the increase in the number of Municipalities, Hospitals and Dispensaries and Deputy Inspectors of Vaccination, the increase of work in connection with

1882	3092		
1891	5421		

with schools, the creation of the Sanitary Board, the greater attention now being paid to, and the interest taken in, matters relating to sanitation and vaccination and various other causes which it is unnecessary for me to here set forth, have severally operated in no small measure to very considerably increase the work of the Sanitary Establishment. Only to-day I have received G.O. dated 25th May 1892 No. 1239 L enclosing some ^{new} forms recently prescribed by the Government of India and these all add to increase the work of the Establishment. I may here add that owing to the heavy work in the office it has not been found possible since 1880 to allow a clerk to accompany the Deputy Sanitary Commissioner when he goes out on tours of inspection. He is thus put to great personal inconvenience and should have a clerk to accompany him on his tours.

The figures noted in the margin will bear out the above statements and
