PUBLIC WORKS DEPARTMENT.

Buildings and Roads.
Civil Works.

READ—the following paper :—

Note by the Chief Engineer, Public Works Department.

With the schedules of quantities and descriptive specifications of type designs for public buildings, abstracts of the quantities are also printed and rates assigned to each descriptions of work.

2. Exception has been taken to particular works on account of the rates entered therein not agreeing with the printed rates entered in the abstract of the estimate for type designs and unnecessary correspondence and delay has ensued thereby. The Chief Engineer desires, therefore, to point out that the printed rates are intended merely to give an approximate idea of the cost of the various buildings at rates prevailing in the Presidency town. They are in no way indicative of the rates at which similar descriptions of work can be executed in up-country stations and which must vary with local circumstances.

OOTACAMUND,
