SEPTEMBER.

Royal Victoria Hospital, Madras.

Reviewing the report on the — for 1891, and
sanctioning a grant to the hospital of Rs. 4,000
from Provincial revenues.

GOVERNMENT OF MADRAS

PUBLIC DEPARTMENT.

READ—the following papers:—

From M. R. Ry. V. KRISHNAMA CHARIAR, Joint Honorary Secretary, Victoria Hospital Committee, to the Chief Secretary to Government, dated Madras, 2nd April 1892.

Under clause 17 of the rules of the Victoria Hospital for Caste and Gosha Women, I have the honour to submit, by direction of the Governors of the hospital, copies of the annual report on the working of the institution during 1891.

From Captain the Hon'ble R. T. LAWLEY, Honorary Secretary, Countess of Dufferin's Fund, Madras Branch, to the Chief Secretary to Government, dated Ootacamund, 8th August 1892, No. 8.

I have the honour, by desire of Her Excellency the Lady President and Executive Committee, to forward herewith * extract of resolution of a meeting of the Committee held at Government House, Ootacamund, on Wednesday, the 27th July last.

and to submit this application for a grant-in-aid towards the funds of the Victoria Caste and Gosha Hospital for the favorable consideration of Government.

2. The estimate † of receipts and disbursements published by the late Managing Committee of the

by the late Managing Committee of the hospital, and printed on page 16 of their annual report for last year, is shown in the margin, but the sum total of donations and subscriptions actually received up to date amounts to Rs. 590, and there is little prospect of any further contributions under this head. Accepting the estimated disbursements as approximately correct, and the receipts as they stand at present, a deficit of Rs. 4,852-8-0 $\frac{1}{2}$ is expected. I am therefore to request that Government may be pleased to sanction a grant of Rs. 4,000 to meet this deficiency, leaving the balance to be made up by later contributions from the public.

Public Dept.

Read Currents 944 & 2097
Order, 27th Sept/92, No 678.

The Government is pleased to note that during the year under review there was an increase in the amount of subscriptions, but there was unfortunately a great falling off under "private donations". The interest received on invested capital was Rs 4482 against Rs 5307 in the preceding year; and a sum of Rs 7554 was realised by the sale of Government securities to meet the final payments to the Public Works Department on account of the hospital buildings.

2. The establishment charge amounted to Rs 7648, of which Rs 5025 were paid to the Lady Sup^t, Miss Bourchier. The expenditure on diet, clothing, and medicine.

* 1889 — Rs 1495
1890 — " 1232
1891 — " 2030

* 1889 — Rs 330
1890 — " 305
1891 — " 96

medicines and instruments was

Rs 3051 against Rs 2330 in 1890.

Rs 551 more paid as Municipal
taxes, and a sum of Rs 216

was expended in connection
with an appeal which was

made against the taxation.

The attendance of births in and
out patients shows a considerable

advance over the figures for
the previous year, and were

the largest recorded since the
hospital was opened. The

Government notes that a sum
of Rs 5000 has been added to the

Capital account of the Hospital
by the Committee of the Countess

of Dufferin's Fund.

His Excellency in
Council is pleased to sanction

a grant to the hospital of
Rs 4000 from Provincial revenues,

but in doing so must impress

	In-patients	Out-patients
1890	746	3773
1891	834	4545

on the Committee the absolute
necessity that exists for the

to exerting themselves to raise
more subscriptions ^{to the institution}

have been to learn what
and to reduce expenditure as far as possible.

4. Paragraphs 4 and 5 of
the Honorary Secretary's letter

will be left with in
the Local and Municipal

Department.

17 Aug.
Hon. Mr. Garstin C.S.I.

I have to say that the
program that goes to the
Govt. for decision
20/10/1900 J.H.

Hon. Sir H.E. Stokes. K.C.S.I.
Hon. Mr. Garstin C.S.I.

Submitted to the Govt. in this
disagree as to the amount to be paid
to the Gosla Hospital

29 Aug.

After enquiring into the possibility of
substituting a less highly paid dependent
for the present one, I am satisfied that
in this respect, no economy can be
effected, for the simple reason that
the ~~etc~~ article does not exist in the
medical market such as to suggested.
If the committee persist with this, B.
they will have to get a similarly qualified
lady, and for this they will have to pay
the salary they now give.
I regret that the committee should
be urged to exert themselves to raise
more subscriptions, but I do not
think the Govt. should reduce their
subscription of 4000 Rs. this year.

Public Dept.

The intention to give the bazaar proceeds to the support of the institution seems to me throwing it away. There is not the smallest chance of funds, now being accounted entirely sufficient to yield ^{this} income necessary for the support of the institution; and it seems to me wiser to rely on charitable efforts similar to the recent one to provide for casual changes. Also it is disappointing to find the African Methodist disclaiming of raising contributions beyond \$250; one of the ^{prominent} objects of the temperance bazaar being the belief that the agency of the American mission would be promoted more effectively than that of the Episcopians.

I would not promise more than \$2000 for the current year.

Will
 13 Sept
 Let five to six or two more
 on the Com. to the Committee for
 entering this expedition.
 This can be done at once, or even
 before it is done to about the
 limit of this annual season,
 by substituting an East Indian
 or European house raised
 in the country for this Bandwin,
 & this may be done.
 The position of how to send it to

The report on the Victoria Lease and Epsom Hospital, together with Hon: Members' votes thereon, is re-circulated for further orders with reference to C. 2097, which embodies an application from the Committee of the Dufferin Fund for a grant - in - aid of Rs. 4000. to the funds of the V. C. al. Hospital.

D. C. No. 124

For St George
29th April 1892

My Dear Lowley,

Can you kindly tell me
what the intentions of the Committee
of the Lady Dufferin Fund are
with regard to assisting the
Victoria Gosha Hospital during
the current year either from the
proceeds of the bazaar held by
His Excellency Lady Mordaunt or
from other sources at its disposal.
2. An application for a
grant from Provincial Funds
to this institution has been
received and before deciding
upon this the Government wishes
to know to what extent, if
any, the Hospital may look
for help from Lady Dufferin's
Fund.

Yours Sincerely
W. J. F. Price

Capt. the Honble

R. J. Lowley

I ca. I ca.

Despd. 29/4/92.

Orders are requested
whether the Govt. will
make a donation for
1892; and, if so, of what
amount. Rs. 4000
have been given on
previous occasions.

The estimated deficit for the
current year is Rs. 5526.
7/4.

Is there any budget provision for
1892-3?

If 4000 Rs. is provided in the
budget for the year, if not I
do not see a great deal of that
amount - the institution
to support the institution
during - but they give little
nothing in the way of sub-
sidies - therefore as they
pay most of the taxes there
is all the more reason why
a grant from that they pay
as taxes 10.5. to be given.

Note. 17/4/92
1. Govt. order. Rs. 4000
2. Govt. order. Rs. 5526

There is no provision
in the budget estimate for
any grant. If made, the
grant falls against 24
Medical, grants for medical
purposes.
20/4

Castle & Gosha Hospital
Report for

Hon. Mr. Stoker
Hon. Mr. Garston

Submits for consideration that
Capt. the Hon. R. J. Lowley
1500 budget estimate for 1892-3
very well - but the a cap 9 to 10
of Govt. order. Rs. 4000
2. Govt. order. Rs. 5526
20/4/92

Before making a grant I should
enquire the decision of the Dufferin Fund
Committee as to the grant to be made
to the Hospital from the proceeds of the
Lady Dufferin's bazaar. If such a
sum is the Hospital will do better
to use the grant for the purchase of
medical books from the Provincial Funds,
which is a more useful method of doing
it.

20/4/92
R. J. Lowley

Caste and Goshia Hospital
report for 1891.

There was a consider-
able increase in subscrip-
tions - Rs. 2030 against
1232/ in 1890, and 1495/ in
1889. Private donations
show a great falling off. The
figures for the past 3
years are - 330/ 304/8 and
96/. The interest recd. on
capital invested was 4482/.
against 5387/ in 1890; &
a further sale of Govt.
securities for 7554/ was
effected to meet the final
payment to P. W. D. towards
hospital buildings - 7442/.

The 25th charges amount-
ed to 7648/ of which 5025/ was
pay of Supt. The expendi-
ture on diet, clothing,
medicines & instruments
amounted to 3051/ against
2330/ in 1890. The Muni-
cipal taxes amounted to
551/ and charges in con-
nection with appeal against
them were 216/. The item
"fee for subdividing a Govt.
Pro. Vote - 6/." is not under-
stood.

The attendance of
patients in 1891 was
the largest recorded as yet.

Government House

Ootacamund, 8th August 1892

From

The Honorary Secretary

Committee of Diffusion Fund

Madrass Branch

To

The Chief Secretary to Government

Stanhurst Hill

Sir,

I have the honour by desire of Her
Excellency The Lady President, and
Executive Committee to forward herewith

the Res. & of ac.⁺
improving Prog.

Extract of Resolution of a Meeting of the
Committee held at Government House
Ootacamund, on Wednesday the 27th July
last, and to submit this application for
a grant-in-aid towards the funds of the

via Caste and Gosha Hospital for the favourable consideration of Government.

2. The Estimate of

Receipts and disbursements published by the late Managing Committee of the Hospital and printed on page 16 of their Annual Report for last year, is shown in the margin but the sum total of Donations and Subscriptions actually received up to date amounts

Receipts	
Donations	600
Subscriptions	1300
Miscellaneous	30
Interest on invested Capital	4258
	6188

Disbursements	
Establishment	7460
Diet & Clothing	1800
Medicines & Instruments	1200
Contingencies	375
Furniture	100
Taxes on buildings	1710
	12845
Difference	6357

to Rs 590. and there is little prospect of any further contributions under this head.

Balance opening	
with Bankers	2631
Superintendent	200
	2831
Deficit Rs.	3526

Accepting the estimated disbursements as approximately correct, and the receipts as

Opening balance	2831-0-0
Donations &c.	590-0-0
Miscellaneous	13-8-0
Interest	4258-0-0
	7692-8-0

they stand at present, a deficit of Rs 4852.8. is expected.

Deficit	
Disbursements	12545-0-0
	7692-8-0
	4852-8-0

I am therefore to request that Government may be pleased to sanction a grant of Rs 4000 to meet this deficiency, leaving the balance to be made up by later contributions from the public.

3. The Honorary Secretary

has the pleasure to report that out of a sum of Rs 7653.5.10 being the net

profits of the Fancy Bazaar held in February last, the Executive Committee has apportioned Rs 5000 to be added to the Capital account of the Hospital. The Committee has set itself the task of increasing the Capital in the hopes that eventually the period may be arrived at when the Hospital may be entirely self-supporting.

4. I am, in this connection, to bring to the notice of Government the excessive taxes charged on the Hospital buildings, and the decision of the Municipality declining to alter the assessment and to reiterate the request of the late Managing Committee that "it would be a great relief if His Excellency the Governor in Council for making Laws and Regulations could see this way to modify Section 119 of the Madras Municipal Act on the lines of the corresponding Section of the District Municipalities Act, as to exempt from local taxation hospitals & dispensaries built by private benevolence and mainly supported by voluntary contributions from the

public".

5. It appears to the Committee that this hospital may well claim exemption under section 100 of the Municipal Act, and failing this, a reduction under section 123 of the Act, as the building cannot "reasonably be expected to let from month to month" for Rs 325. I may add that in answer to a communication from this Branch, replies have been received from the Branches at Rangoon & Allahabad to the effect that their hospitals are exempted from taxation. No contribution is paid under Section 33 by the Madras Municipality towards the Hospital Funds.

6. Two spare copies of the last report are herewith forwarded, and attention is invited to "Attendance" on page 6 showing the hospital is increasing in popularity & necessarily in the cost of upkeep.

I have the honour to be

Sir,

Your most obedient servant

Victoria Hospital
Madras 1st Dec 1892

3

ists to Government be addressed with a view to
allot the usual grant-in-aid of Rs. 4,000 towards the
funds of the Hospital.

The estimate of receipts for the year 1892 is made
up as follows:—

Donations	Rs. 600
Subscriptions	1,300
Miscellaneous	30
Interest on Capital	4,258
	6,188

Up to date, a sum of Rs. 500 only has been sub-
scribed, and with a balance of Rs. 2,831 at the begin-
ning of the year, with interest expected brings the
total receipts up to Rs. 7,679-0-0.

Subscriptions	Rs. 500
Interest	4,258
Opening balance	2,831
	7,679

The estimated disbursements amount to Rs. 12,545
leaving a deficit of Rs. 4,866 to be made good.

As by far the largest source of income arising
from interest is only payable half-yearly, as it is not
contemplated to hold another Bazaar next year, and
as there must be a small surplus to meet regular
monthly bills for working expenses, it is suggested
that an application be made to Government for
funds.

XI. Read letter from the Acting President, Anglo-
Indian and Eurasian Association, pointing out the
necessity of establishing a Nursing Institution in
Madras, and asking whether the Committee would
be prepared to assist in any way. Mrs. Scott Nisbet
is willing to organise such an institution, and
informing the Committee that the plan has the
heartly support of the Association.

Read also letters from Mrs. Scott Nisbet to the
same effect.

XIII. Read resignation of Miss Ayachee Annad,
Matron of the Victoria Caste and Goshu Hospital.

The Honorary Secretary reports that Her Excel-
lency the Lady President has accepted it, and that
on the recommendation of Dr. Price and Miss Bour-
chier, Mrs. Johnstone has been appointed *sub pro*
tem., subject to the confirmation of the Committee.

XIV. Read letter from Principal, Medical College,
reporting that Miss A. Marquis, the Hospital Assis-
tant scholar, who as a special case, was allowed to
study in the Apothecary Department having been
found deficient in three subjects, is recommended
by the College Council to be sent to the Hospital
Assistant class for study.

Miss Cunningham also a Dufferin scholar, is re-
commended for dismissal, having failed in three
subjects.

Proposed by Lord Bishop of Madras and seconded
by Lady Dormer that application be made to Gov-
ernment for a grant of Rs. 4,000 to meet the current
expenditure of the year. Carried.

Proposed by the Honorable Mr. Garstin and second-
ed by the Lord Bishop that while the Committee
recognises the merits of Mrs. Scott Nisbet's
scheme it is unable to offer any practical support for
want of funds.

Approved and confirmed.

Resolved that the recommendation of the College
Council be accepted, and the Principal accordingly
informed for intimation to the students.

REPORT.

In submitting their Annual Report for 1891, the Managing Committee are able to record on the whole a year of quiet progress, though not of that steady increase of income which might have enabled the Victoria Hospital to keep pace with its growing wants.

Since the date of their last report, the Managing Committee have been strengthened by the election of the Honorable J. H. Garstin, C.S.I., to be a Member, and of Mrs. Garstin and Mrs. Grigg as Members of the Ladies' Sub-Committee.

Establishment.—The Lady Superintendent, Miss H. J. Bouchier, M.D., has had sole medical charge of the Hospital throughout the period under report; but Mrs. Webb, the Matron, who used to assist her, resigned in February 1891, and was succeeded by the present incumbent Miss Iyachiammall who passed out of the Madras Medical College with the degree of Licentiate in Medicine and Surgery, and who is found earnest and diligent in the discharge of her duties. The caste pupil nurse referred to in the last report also left soon after the departure of the late Matron, having apparently had little aptitude for the work, and until another and a more intelligent caste woman is found ready to enter on a course of training as a sick nurse, Rai Bahadur Thanakoti Mudaliar's scholarship will be temporarily withheld.

Buildings.—The new buildings for which this Hospital is indebted solely to the public spirit and liberality of the Rajah of Venkatagiri, K.C.I.E., are substantial and in every way comfortable, possessing complete accommodation for the ordinary medical relief of about 80 patients or three times the number of in-patients now admitted, including separate accommodation for lying-in women. The Lady Superintendent's quarters have been

completed and occupied, and the ground around has been improved. The Hospital may now be considered complete so far as building arrangements are concerned; and what strikes one most on entering this large airy structure is the cleanliness and orderliness which could not be attained in the unsuitable rented house formerly occupied. The expenses incurred on all the buildings up to date amount to Rs. 87,442, including the cost of improving the drainage of the compound which has been found unsatisfactory, but exclusive of the Municipal Taxes with which the Hospital Committee are overburdened by the Municipal Commissioners in spite of their petition for exemption or reduction of the heavy assessment fixed.

Attendance.—The Committee are glad to be able to report that the Hospital is steadily growing popular, the attendance of both in and out-patients having now risen to 834 and 4,515 respectively from 746 and 3,773 of the year previous. The daily average attendance is nearly 80, consisting of 25 in-patients and 55 out-patients, this being an increase of 28 over the average of the 3 previous years; and the total attendance according to the Superintendent's return is 17,067 for the period of report. The largest number at one time in the wards has been 51 this year, as shown in the subjoined entry of the number of patients actually in the Hospital every day during one month.

But averages and statistical tables, says the Lady Superintendent, "do not always give a correct impression of facts" and she adds:—"one thing must be taken into consideration with respect to Indian Hospitals and that is, that on the numerous Hindu and Mahomedan festivals it is not an uncommon thing for all the occupants of one ward to ask for 'two or three days' leave,' preferring to spend the festival in their homes, no matter how precarious the state of their health may be or how great the risk to themselves of removal."

The Hospital having now been open to the public for over six years, and as its useful work is extending and gets known, the following extract from Miss Bourchier's notes may not be out of place:—

"The first report of the Victoria Hospital for Caste and Gosha Women was published for the year 1887. It may be not uninteresting to compare its results with those of this year 1891. In 1887 there was a total attendance of out-patients of 9,893 as against 17,067 this year, showing that during the last four years the out-patient department has nearly doubled its attendance."

"In the in-patient department the actual number of patients treated was in 1887, 801 and in 1891, 834, the number having slightly increased, but this year the daily average has considerably increased, a significant fact showing that patients now remain a longer time in the Hospital than was the case four years ago. One of the great difficulties that had to be contended with in the treatment of serious cases

Appended to this report will be found a statement of the expected receipts and expenditure for the current year, showing a deficit of Rs. 3,500 to Rs. 4,000 to cover which extraneous help would be required if the Government grant be withdrawn.

Appeal for public support.—The Managing Committee beg to record their obligations to Government as well as to all who have lent their pecuniary support to the Hospital, more especially to the ladies who have made and continue to make an effort to obtain subscriptions from others; but they feel from past experience that it is far easier to start than to maintain an establishment of this kind. The financial position of the institution must be unsound so long as it is made dependent on irregular subscriptions and chance donations, and they therefore consider it to be a matter of the utmost importance to secure public support sufficient to cover the charges for the current upkeep of the Hospital. The Committee are aware of the comparatively slow and feeble interest felt by the general public in the purely charitable work done for women in this special Hospital, but they hope it will attract attention by the endeavour now being made, in accordance with the expressed wishes of Government, to collect small subscriptions of sums less than Rs. 10 as well as donations from the middle classes of the native community. They often ask when appealed to for pecuniary aid, "What use is there in giving help when help is so insignificant." The Committee again insist upon saying that even small help is better than nothing, that the principle of charity ought to be maintained. For the Committee's part, they can only express their gratitude for every Rupee given on behalf of the sick poor, and assure the charitably disposed who sympathise with the poverty and misfortunes of Caste and Goshu patients that every anna of their subscription or donation will be actually turned

into something to afford medical relief to many a poor but grateful native home. It is therefore to be hoped that the fresh appeal to the benevolence of a charitable public recently issued in English and the principal vernacular languages will receive the kind attention it deserves, and that they will not be compelled to limit the number of admissions as in-patients—that limit being dependent during the current year not on the extent of accommodation available, but on the ways and means for maintaining the number of beds provided to afford in-door relief. The Victoria Hospital is the only institution of its kind, and the Committee therefore trust that greater interest will be taken by the native public in the welfare of this institution—especially by all such Hindu and Mahomedan gentlemen and members of the native mercantile firms as are not yet represented in the Subscription List of this Hospital—it being the only centre for supplying female medical aid in Madras to the women and children of both communities.

REPORT.

In submitting their Annual Report for 1891, the Managing Committee are able to record on the whole a year of quiet progress, though not of that steady increase of income which might have enabled the Victoria Hospital to keep pace with its growing wants.

Since the date of their last report, the Managing Committee have been strengthened by the election of the Honorable J. H. Garstin, c.s.i., to be a Member, and of Mrs. Garstin and Mrs. Grigg as Members of the Ladies' Sub-Committee.

Establishment.—The Lady Superintendent, Miss H. J. Bouchier, m.d., has had sole medical charge of the Hospital throughout the period under report; but Mrs. Webb, the Matron, who used to assist her, resigned in February 1891, and was succeeded by the present incumbent Miss Iyachiammall who passed out of the Madras Medical College with the degree of Licentiate in Medicine and Surgery, and who is found earnest and diligent in the discharge of her duties. The caste pupil nurse referred to in the last report also left soon after the departure of the late Matron, having apparently had little aptitude for the work, and until another and a more intelligent caste woman is found ready to enter on a course of training as a sick nurse, Rai Bahadur Thanakoti Mudaliar's scholarship will be temporarily withheld.

Buildings.—The new buildings for which this Hospital is indebted solely to the public spirit and liberality of the Rajah of Venkatagiri, k.c.i.e., are substantial and in every way comfortable, possessing complete accommodation for the ordinary medical relief of about 80 patients or three times the number of in-patients now admitted, including separate accommodation for lying-in women. The Lady Superintendent's quarters have been

completed and occupied, and the ground around has been improved. The Hospital may now be considered complete so far as building arrangements are concerned; and what strikes one most on entering this large airy structure is the cleanliness and orderliness which could not be attained in the unsuitable rented house formerly occupied. The expenses incurred on all the buildings up to date amount to Rs. 87,442, including the cost of improving the drainage of the compound which has been found unsatisfactory, but exclusive of the Municipal Taxes with which the Hospital Committee are overburdened by the Municipal Commissioners in spite of their petition for exemption or reduction of the heavy assessment fixed.

Attendance.—The Committee are glad to be able to report that the Hospital is steadily growing popular, the attendance of both in and out-patients having now risen to 834 and 4,545 respectively from 746 and 3,773 of the year previous. The daily average attendance is nearly 80, consisting of 25 in-patients and 55 out-patients, this being an increase of 28 over the average of the 3 previous years; and the total attendance according to the Superintendent's return is 17,067 for the period of report. The largest number at one time in the wards has been 51 this year, as shown in the subjoined entry of the number of patients actually in the Hospital every day during one month.

But averages and statistical tables, says the Lady Superintendent, "do not always give a correct impression of facts" and she adds:—"one thing must be taken into consideration with respect to Indian Hospitals and that is, that on the numerous Hindu and Mahomedan festivals it is not an uncommon thing for all the occupants of one ward to ask for 'two or three days' leave,' preferring to spend the festival in their homes, no matter how precarious the state of their health may be or how great the risk to themselves of removal."

The Hospital having now been open to the public for over six years, and as its useful work is extending and gets known, the following extract from Miss Bourchier's notes may not be out of place:—

"The first report of the Victoria Hospital for Caste and Goshu Women was published for the year 1887. It may be not uninteresting to compare its results with those of this year 1891. In 1887 there was a total attendance of out-patients of 9,893 as against 17,067 this year, showing that during the last four years the out-patient department has nearly doubled its attendance."

"In the in-patient department the actual number of patients treated was in 1887, 801 and in 1891, 834, the number having slightly increased, but this year the daily average has considerably increased, a significant fact showing that patients now remain a longer time in the Hospital than was the case four years ago. One of the great difficulties that had to be contended with in the treatment of serious cases

"in the Hospital was the unwillingness of the patients
 "to remain more than three or four days away from their
 "homes; if in that time there was any improvement the
 "patient made that an excuse for leaving the Hospital
 "before a cure was effected; and if during those few days
 "there was no improvement then the cry was 'I have been
 "here three days and I am no better, let me go and die at
 "home.' The fact of patients remaining for a more lengthy
 "period in the Hospital is surely an undoubted proof that
 "native women are learning to have greater confidence in
 "the advantage of regular and persevering treatment."

In addition to the diseases of a general character, there
 have been 57 labour cases and many others for special
 diseases of women.

The extent to which this Hospital has been availed of by
 the two sections of the native community for whose special
 benefit the institution is intended may be shown thus:—

	In-patients.	Out-patients.	Total.
Hindu women and children.	406	3,002	3,408
Gosha women and children.	428	1,543	1,971
	<u>834</u>	<u>4,545</u>	<u>5,379</u>

The Hospital has accommodation for nearly 80 in-patients,
 but unfortunately the financial position of the institution does
 not admit of that number being maintained at present; and
 by a late decision of the Finance Committee, the daily
 average of in-patients has been limited to 23 so that more
 than two-thirds of the space in this fine building is unoccu-
 pied.

Internal Economy.—In the carrying out of the arrange-
 ments in respect of the bedding, clothing and nursing of
 patients the greatest importance is attached. The cost of
 dieting each patient admitted during the year has averaged
 nearly Rupees 2 per annum.

Finance.—An Abstract Statement of receipts and dis-
 bursements for the year 1891 is appended to this report
 with the audit certificate of Rajah Sir Savala Ramasamy
 Mudaliar who has conducted the audit. The entire receipts
 of the Hospital during the year exclusive of the opening
 balance Rupees 3,898-3-9 and the sum of Rupees 7,553-13-9
 the sale proceeds of Government securities, amounted to
 Rs. 10,638-4-7, comprising donations Rs. 4,096 (including
 the Government grant of Rs. 4,000), subscriptions Rs. 2,030,
 interest on investments Rs. 4,481-15-7 and sundry income
 Rupees 30-5-0. The total charges for the upkeep of the Hos-
 pital amounted to Rupees 11,817-2-7 including the Municipal
 taxes on the new building and the Superintendent's quarters
 amounting to Rupees 551-4-0, and the outlay on English
 medicines, viz., Rupees 837-13-10 being far in excess of the
 Budget provision for the year, due to the growing number
 of out-patients seeking daily help in the way of medicines
 gratis.

The loss of the annual contribution of Rupees 1,000 from
 the late Rajah of Pittapore and the falling off under the head
 of interest on Government securities owing to the sale of
 some of them for making the final payment on account of
 the Hospital buildings will render it more than ever impos-
 sible to carry on the work of the Hospital without a large
 Government grant or other extraneous aid or without
 trenching on the capital.

The particulars of the invested capital of the Hospital are
 as shown below:—

	RS.	A.	P.
In 4 per cent. Government Securities	19,000	0	0
In 6 per cent. Madura Municipal Debentures	19,500	0	0
In 6 per cent. Cuddapah do.	30,500	0	0
In 6 per cent. Madras do.	3,000	0	0
In 5 per cent. Fixed deposits with Messrs.	5,503	4	0
Arbuthnot & Co. do.	1,000	0	0
In 5 per cent. do.			
Total	78,503	4	0

Appended to this report will be found a statement of the expected receipts and expenditure for the current year, showing a deficit of Rs. 3,500 to Rs. 4,000 to cover which extraneous help would be required if the Government grant be withdrawn.

Appeal for public support.—The Managing Committee beg to record their obligations to Government as well as to all who have lent their pecuniary support to the Hospital, more especially to the ladies who have made and continue to make an effort to obtain subscriptions from others; but they feel from past experience that it is far easier to start than to maintain an establishment of this kind. The financial position of the institution must be unsound so long as it is made dependent on irregular subscriptions and chance donations, and they therefore consider it to be a matter of the utmost importance to secure public support sufficient to cover the charges for the current upkeep of the Hospital. The Committee are aware of the comparatively slow and feeble interest felt by the general public in the purely charitable work done for women in this special Hospital, but they hope it will attract attention by the endeavour now being made, in accordance with the expressed wishes of Government, to collect small subscriptions of sums less than Rs. 10 as well as donations from the middle classes of the native community. They often ask when appealed to for pecuniary aid, "What use is there in giving help when help is so insignificant." The Committee again insist upon saying that even small help is better than nothing, that the principle of charity ought to be maintained. For the Committee's part, they can only express their gratitude for every Rupee given on behalf of the sick poor, and assure the charitably disposed who sympathise with the poverty and misfortunes of Caste and Gosha patients that every anna of their subscription or donation will be actually turned

into something to afford medical relief to many a poor but grateful native home. It is therefore to be hoped that the fresh appeal to the benevolence of a charitable public recently issued in English and the principal vernacular languages will receive the kind attention it deserves, and that they will not be compelled to limit the number of admissions as in-patients—that limit being dependent during the current year not on the extent of accommodation available, but on the ways and means for maintaining the number of beds provided to afford in-door relief. The Victoria Hospital is the only institution of its kind, and the Committee therefore trust that greater interest will be taken by the native public in the welfare of this institution—especially by all such Hindu and Mahomedan gentlemen and members of the native mercantile firms as are not yet represented in the Subscription List of this Hospital—it being the only centre for supplying female medical aid in Madras to the women and children of both communities.
