Public Dept.

The entries in the Day Book would have to be checked as far as possible with independent registers or documents such as invoices &c, or the stock valuation List, and with those of the Cash Book would have to be traced into the Monthly Abstract or Journal and from the latter into the Ledger which should be examined to see that the Accounts have been correctly balanced. All this would take up the time of 2 men at 20/- a month for at least 4 months.

2 Such a detailed Examination however would I think be unnecessary and I would suggest that it should be limited to a check of all the items on the receipt side of the Cash Book, except sums drawn from the Treasury, and of all the items on the charge side with the original vouchers, the Bank remittances being further checked if this be considered necessary with statements prepared from the Presidency Detail Book. This would take up the time of one clerk for about 2 1/2 months and I beg that sanction may be accorded to the intention of the Establishment required for whichever scheme of Examination
