THE Honble The Chief Secy. to Government
Public Department

SIR,

I have the honor to submit for the sanction of Government the accompanying letter from the Superintendent Lying-in Hospital Madras no: 186 dated 19th April 1893 enclosing a plan and an estimate amounting to Rs 650/- (six hundred and fifty) from Messrs Oakes & Co. for a new Kitchen Range for the European patients kitchen in the Lying in Hosp. The present American stove at the Hospital was purchased with the sanction of Government in 1881 at a cost of Rs 150/- when the number of patients was only about half of what it is now. I inspected the present range recently and think that it will be simply waste of money

Endear

endeavour to make it serviceable again.
Although the cost of the proposed kitchen
range appears to be high, considering
that it will last longer, it will be advant-
ageous to Government in the end to
sanction it.

The suitability and advantages of it
are fully explained in the Superintend-
ent's letter.

The cost can be met from General
savings in the current year's Provincial
Medical Budget.

I have the honour to be,
Sir,

Your most obedient servant.

Sir,

4 Enclosures.

In returning the papers received
with your Memo. No 2147C dated the 26th May
1893, I have the honor to report that I see no
objection to the cooking range proposed to be
used at the Lying in Hospital. The drawing
is not in sufficient detail, but doubtless Messrs
Cates & Co. would be able to turn out the work
satisfactorily. It would be more economical
than importing a range from Europe.
