Sir,
With reference to your letter
No 1996, dated the 20th ultimo, and
regarding the disposal of the 6th

for the present until the new
Observatory it is proposed to
establish at Kodaitanal is
ready to receive them. In the
event of this causing any
inconvenience

inconvenience to the College the
instruments should be, &
very carefully packed and sent
to the Madras Observatory
where they can be stored and
later on transferred to &
Moolai Kanai. I am to add
that if the instruments are
sent to Madras due notice of
their transmission should
be given to this Department.
