These were all things that a medical
officer might very easily have had occasion
to say to patients, but not one of them could
he say. When told that he had not passed,
he went off in considerable indignation,
saying that he had personally conducted
the out-patient department of the General
Hospital for (I think) the preceding six
months. If this was a positive fact, it
is melancholy to think how much
mischievous he may not have done from
want of power to communicate his
ideas to the patients who came to him
for treatment.

2. Putting, however, particular cases
on one side, I beg to state for the inform-
ation of Government that my experience
of the Board of Examiners is that candi-
dates are humanely dealt with severely.
