"THE COUNTESS OF DUFFERIN'S FUND."

THE NATIONAL ASSOCIATION FOR SUPPLYING FEMALE
MEDICAL AID TO THE WOMEN OF INDIA.

SEVENTH ANNUAL REPORT OF THE MADRAS BRANCH.

THE Honorary Secretary has much pleasure in submitting the annual report of the working of the Madras Branch of the Countess of Dufferin's Fund for the year ending December 1892. The local branch has completed its seventh year of existence, and though there is nothing worthy of special mention, the work of the year on the whole is satisfactory and encouraging.

2. A short resumé of the work accomplished during these years may be described in a few words. When the prospectus of the Central Association was issued about eight years ago, the objects to be kept in view were clearly defined. They were medical tuition, medical relief, and the supply of trained nurses and midwives. Funds for the Victoria Caste and Gosha Hospital had already been collected, and no action was necessary on this account, but efforts were concentrated on the other two heads. Four permanent scholarships were founded, a funded capital of Rs. 21,000 was set apart for this purpose, and the gratuitous education of these scholars in the Madras Medical College was sanctioned by Government. District and Local Boards were invited to found similar scholarships for the education of pupils, and 21 such scholarships were endowed. In addition to these, Native Princes very generously have come forward, and seven scholarships are thus maintained. Arrangements were made with Rajah Sir S. Ramasawmi Moodalliar and Surgeon-Lieutenant-Colonel H. D. Cook, the Superintendent of his hospital, for passing native midwives through a brief practical course of training, and thus helping to keep up the supply of educated native nurses for practice in this city and the districts.

3. It will be observed that endeavours to improve the three lowest classes of medical and *quasi*-medical practitioners have alone been made. The fact is that the field is so large and the resources of the Executive Committee are so small, that the local branch is content to aim at a very gradual clearing away of a great mass of ignorance, and in the case of the native midwives to prevent positive mischief, or to put it graphically in Dr. Cook's words, "to teach them what they ought *not* to do."

mittee finds no difficulty in selecting European and Eurasian ladies to fill these vacancies, no Hindu caste candidates have hitherto come forward.

9. As a colloquial knowledge of the language of the district in which their future sphere of work lies is absolutely necessary for the efficient discharge of their duties, the Principal of the Medical College has been asked to hold a simple examination—in Telugu in the case of the Vizagapatam scholars. The District Board, Ganjam, has decided to continue the good work by founding a second scholarship. Miss Ottman, a Matriculate, with a good knowledge of Telugu, who has completed two years' study, was appointed to the vacant scholarship, on the joint recommendation of the Director of Public Instruction and the Principal of the Medical College. The committee feels it to be a matter for congratulation that, while five years ago there was not a single Lady Apothecary in the public service, there are now no less than 12.

10. The course for Hospital Assistants has been increased from three to four years, the first of which is pre-collegiate. This should be borne in mind by Boards who are desirous of founding these scholarships. The rules of the Fund have been modified to meet this prolonged course.

11. As some of the Dufferin Apothecaries have been working for the past year in their respective districts, it was thought advisable to call for a brief report from District Surgeons, asking them to state the nature of the work they were called upon to do, whether the dispensaries served by them showed any material increase in the number of caste and gosha women, and whether it was resorted to by a larger number of female patients. The Acting District Surgeon's report from Nellore is not very promising. "A great deal of success in the work," he writes, "of these young Lady Hospital Assistants depends upon their own energy and tact; but I feel bound to say that they lack these qualities. They should be required to mix with the caste and gosha women not in the dispensaries, but they should go to their villages and endeavour to mix with them in their houses and gain, if possible, their confidence."

12. The committee is aware that solitary instances like these neither prove nor disprove anything; but they are useful in guiding the Fund to rectify defects. A hand-book of directions may be of use in the case of young and inexperienced ladies, and the matter will be laid before the committee for orders.

13. That from Dr. Hackett-Wilkins, District Surgeon of Ganjam, is more favorable. He writes to say:—

That Miss DeSilva has been attending to her work very satisfactorily. She has been left in sole charge of the female wards and has had to attend, morning and evening, to the females attending the out-patient department. There has not been any perceptible difference in the attendance of the out-patients; but I am aware that she is frequently called in to attend caste and gosha women. She would, I am sure, have a larger practice if she had been older, or had been a married woman.

Five, including 1 remanded student, are in their first year of study.

In the Hospital Assistant department there are only 5 students—1 a remanded student in her third or final year of study and 2 (both remanded students) in their first year. There are also 2 female students undergoing their pre-collegiate training.

There is 1 student in her first year in the Chemist and Druggist department.

Of the 37 students, 20 are Dufferin scholars, 4 are drawing other scholarships and 13 get no scholarships.

Of the Dufferin scholars, 3 are College department students, 14 Apothecary department, and the remaining 3 are Hospital Assistant department students.

17. In spite of the orders of the Government of India and the Madras Government and the appeals of this committee, the number of District, Municipal and Local Fund Boards directly engaged in increasing the supply of female doctors and trained nurses is still small. Out of 22 District Boards, only 7 have come forward to endow scholarships; out of 55 Municipalities, 4 have founded scholarships, and 5 only out of 86 Taluk Boards have helped in the movement.

18. Towards the end of last year, Mr. Grigg, the Officiating Resident, intimated that His Highness the Maharajah of Travancore was desirous of founding scholarships in connection with the Fund for the benefit of his people. The committee highly approved of His Highness' proposals, and the Maharajah was accordingly informed that this branch would have much pleasure in carrying out his benevolent intentions. Four scholarships were founded, 2 with stipends of Rs. 50 each for the Apothecary grade, and 2 of Rs. 30 each for the Hospital Assistant grade, tenable for four years by women born and educated in Travancore. The first holders of the former are Misses Mitchell and Netto, and of the latter Misses Croning and Cleur. This is the third instance of princes and native zemindars founding scholarships, the other two being His Highness the Rajah of Pudukóta and Rajah Gajapathi Row.

19. Surgeon-Lieutenant-Colonel H. D. Cook's report on the native pupil-nurses is as follows:—

The pupils are, as a rule, entertained first as volunteers, and if they give satisfaction, are put on stipends as vacancies occur and receive Rs. 5 monthly from the Fund.

They remain more or less for a year under training, and in the last month are taught vaccination also, and when found qualified are furnished with a diploma qualifying them to practise as midwives. They are generally provided, soon after passing, with employment under the Municipalities and Local Fund Boards, by whom their services appear to be in *great demand*.

20. By far the most important event of the year's work was the transfer of the management of the Victoria Caste and Gosha Hospital to the Dufferin Committee. In the meeting of March last, a proposal was put forward by Mr. Grigg that the affiliation

“hospitals and dispensaries built by private benevolence, and “mainly supported by voluntary contributions from the public.”

25. An appeal was made to the Municipality itself for a grant, on the ground that hospitals worked under the auspices of the Countess of Dufferin's Fund in other parts of India are largely helped by Municipalities, either by exemption from taxation, or direct contribution ; but the Commissioners regretted their inability to grant either the concession or the assistance asked for.

26. Miss Bouchier's report for 1892 on the Victoria Hospital is as follows :—

Buildings.—The hospital buildings are in a perfect state of repair, and the ventilation excellent.

The furniture and fittings are in good order, with the exception of the beds which require mending, and at least six new ones are needed. Bed linen is also required, especially for the Lying-in Ward.

The most common diseases.—Among out-patients were bronchitis, diarrhoea, rheumatism, ascaris lumbricoides, eczema, elephantiasis, syphilis, dyspepsia, ulcers and abscesses. Among in-patients pulmonary tuberculosis, malarial cachexia, simple continued fever, anaemia, dysentery, uterine affections, cancer of breast and uterus, and mammary abscesses.

Attendance of patients.—The increase noted last year among all classes of patients, including Brahmans, has continued throughout the year under report.

Inspection.—The hospital has been visited from time to time by members of the committee, and on the 25th November by their Excellencies the Marquis and Marchioness of Lansdowne, and Lord and Lady Wenlock together with other visitors, and it is pleasing to note that, on that occasion, a “Lansdowne bed” was endowed by Sir Muttusami Iyer.

One native gentleman Mr. Lod Kristna Doss Bala Moocoon Doss was so much pleased with the hospital, and the care and kindness with which the patients are treated, that he sent a generous gift of clothing for the Hindu patients, and also became a Life Governor by the donation of Rs. 1,000. It is to be hoped that his excellent example will be emulated by other rich and influential gentlemen of the Muhammadan and Hindu community.

General remarks.—I have been in continued medical charge of this institution during the year.

Miss Iyachiammall, the Assistant Surgeon, left this to join the Maternity at Bangalore, and has been succeeded by Miss Wray. Owing to the increased number of patients who seek relief here, the subordinate staff has been increased by the appointment of a Muhammadan midwife.

In looking at the number of in-patients during the last two years, it may be noticed there has been a steady increase in the number seeking admission here. The number of in-patients in the year under notice exceeding that of last year by 622. This marked increase is due no doubt (1) to the increased and better accommodation available in the present building ; (2) to the successful and kind treatment which the patients always receive ; (3) to the fact that general diseases, both medical and surgical as well as labour cases, are treated here.

the town. The patients represented all classes, from the European to the Pariah, although the work is especially for the Hindus and Muhammadans, who, because of caste prejudice, cannot be treated at the Government dispensary, and a large number of these latter classes availed themselves of the opportunity for treatment. More than 200 patients were treated at their homes. There were also 14 in-patients, for, although there are as yet no proper accommodation for this class, it was in some instances impossible to convince those who came of this fact. Owing to the difficulty of securing them I had no trained Assistants during the year, but expect during the coming year to have two compounders and a midwife. In April the corner stone of our new dispensary was laid with appropriate ceremonies, the Sub-Collector of the station presiding upon the occasion. A very desirable site for this and the hospital about to be erected has been secured. The plans for the latter are just completed by the Architect Mr. Pogson of Madras, and we hope to break ground for the building before the close of the year. Rs. 45,000 have been contributed by the women of our Church in America for this building, and this, with a small grant from the Local Board, will enable us to erect a commodious and well-constructed stone building with accommodation for 50 patients. An appeal has been sent out to the Hindus and Muhammadans of this district, asking that they contribute to the amount of Rs. 5,000 for the erection of the compound wall around the hospital. This appeal has been followed up by personal effort, though, owing to pressure of work, this has been very slight. Still at this time about Rs. 2,000 have been subscribed, and one-half of this was subscribed during a two-weeks' tour made this month through some villages in the Képalle taluk of this district. There is every reason to believe that the whole amount will be raised.

Believing most firmly that they most truly help the Hindus who teach the Hindus to help themselves, every effort is being made to have this work eventually supported by the people who receive its benefits. To this end fees, which though small, when compared to those paid in large cities, seem large to those who have hitherto paid nothing, have been in many instances charged those treated at home. The dispensary service has been free, but one anna is the nominal price of each bottle of medicine furnished to those able to pay. In this way, about Rs. 400 have been collected during ten months, and though this, by no means, covers the expenses of the work, it is a very fair beginning for Guntúr.

As compared with my former experience of five years in Guntúr, the work of the past year has been in every way an improvement. There is every reason to hope that there will, in a few years, not only be a flourishing medical work for women and children establishing in this district, but that this work will be in a large degree self-supporting. As stated at the beginning of this hasty sketch, I regret that I have been obliged to be indefinite in some of my expressions, but I trust that you will, from this, be able to call something that will show that we, of this district, are from a medical stand-point on the road to progress.

29. The *personnel* of the committee underwent considerable change during the past year. Mr. Rees, who carried on the duties of Honorary Secretary for nearly six years, resigned office, and was succeeded by myself, and after the substitution of the Dufferin Committee for the Hospital Committee, the number was increased to 30 members. Lady Collins, Mrs. Garstin, Mrs. Clogstoun and

RULES OF THE MADRAS BRANCH OF THE NATIONAL
ASSOCIATION FOR SUPPLYING MEDICAL AID TO THE
WOMEN OF INDIA.

• 1. His Excellency the Governor will be the Patron of the association in Madras.

2. Her Excellency will hold the office of Lady President of the association.

3. The following persons are Vice-Patrons and Vice-Patronesses of the association :—

H.H. The Maharajah of Mysore, G.C.S.I.
The Prince of Arcot.
The Hon. The Chief Justice of Madras.
The Right Rev. The Lord Bishop of Madras.
The Hon. The Maharajah of Vizianagrum, K.C.I.E.
The Hon. Mir Humayun Jah Bahadur, C.I.E.
The Hon. Sir T. Muttusami Aiyar, C.I.E.
The Surgeon-General with the Government of Madras.
H.H. Khair-un-Nisa Begam Sahiba.
The Maharani of Vizianagrum.
The Princess of Arcot.

4. The foregoing list may be supplemented by the names of other persons of position and influence, both English and Indian, who may be specially invited by the executive body to become Vice-Patrons and Vice-Patronesses of the association.

5. Members will be—

- (a) Life councillors;
- (b) Life members;
- (c) Ordinary members.

All donors of the amount of Rs. 5,000 or upwards will be considered life councillors; all donors of Rs. 500 or upwards will be life members; ordinary members will pay an entrance fee of Rs. 10, and a minimum annual subscription of Rs. 5.

Donations of any smaller sum will be duly acknowledged.

6. All subscriptions and donations contributed to the Madras branch of the National Association will be credited to a fund to be called "The Countess of Dufferin's Fund," to be managed by a Central Committee at Madras and by branch committees as hereafter explained.

7. Local branches of the National Association will be formed in each district to work in correspondence with the Central Committee. All members of the National Association residing in the district will also be members of the local branch. All subscriptions and donations which may be credited to the Fund of any branch, together with any moneys raised locally, will be at the absolute disposal of the committee of that branch, subject to the conditions laid down in the last clause of Rule No. 8.

16. Messrs. Arbuthnot and Co., to whom subscriptions may be paid, will act as Bankers to the Countess of Dufferin's Fund.

17. Arrangements will be made for holding public meetings at the Presidency and other large towns to explain the objects of the National Association and constitute local branches.

18. In the meantime applications for further information may be addressed to, and subscriptions will be acknowledged by, the Honorary Secretary of the Countess of Dufferin's Fund.

COUNTESS OF DUFFERIN'S FUND.

The following are the rules of the Medical scholarships in connection with the Fund :—

1. One scholarship for the certificate of Apothecary, two scholarships for the certificate of Hospital Assistants, open to women of any nationality.

2. The scholarship for Apothecary will carry a monthly stipend of Rs. 25 tenable for four years. Candidates must have passed the Examination for the Higher Education of Women.

3. Scholarships for Hospital Assistant will carry a monthly stipend of Rs. 20 tenable for four years, and are open to candidates who have passed the Middle School or any other higher examination.

4. The successful candidate for the Apothecary's scholarship will be required to enter into an agreement to serve, when qualified, a District Board for a term of five years. The rates of pay will be the same as those obtaining in the Government service, viz. :—

		Pay.	Charge allowance.
		RS.	RS.
Civil Apothecary.	First 2 years ...	50	...
	3 to 7 do. ...	50	25
	8 to 14 do. ...	75	50
	15 to 21 do. ...	100	50
	22 to 28 do. ...	125	50
	29 to 35 do. ...	150	50
Civil Hospital Assistant.	Under 7 do. ...	25	10
	8 to 14 do. ...	35	10
	15 and upwards...	55	10

5. The committee have the power to suspend or withdraw a scholarship if the holder of it misbehaves in any way, shows a want of zeal, or is likely to prove inefficient.

6. Candidates must produce certificates of age and qualification and satisfactory testimonials of character. Applicants should state what vernacular they know.

7. Preference will be given to those who have undergone a course at their own expense, who like the work, and are likely to succeed in it.

8. In the event of a stipendiary scholar failing to serve for the term stipulated, she shall refund the amount drawn, to the persons from whom she has received the scholarship, or a sum proportionate to the period of service which she has failed to complete.

9. Applications to be addressed to the Secretary to the Surgeon-General with the Government of Madras, Fort St. George.

W. F. DEFABECK,
Surgeon-General with the
Government of Madras.

RULES FOR THE DISMISSAL AND REMAND OF PUPILS OF VARIOUS CLASSES OF THE JUNIOR DEPARTMENT OF THE MEDICAL COLLEGE

1. A military or civil medical pupil who fails to obtain one-third of the combined total of marks given at the class examinations and the examinations conducted by the Professors at the end of each session in each subject shall, in ordinary case, be recommended for dismissal. In case of failure in only one subject, the pupil should have the opportunity of a special examination in that subject at the end of September, so as not to involve the loss of a session.

2. Every other pupil, on the receipt of a stipend or scholarship from whatever source, who fails to fulfil the conditions laid down in Rule I, shall also be liable to be dismissed, subject to the confirmation of the Director of Public Instruction and consent of the authority by whom the stipend or scholarship is found.

3. A private pupil, *i.e.*, a pupil paying for his education, who fails to obtain the required proportion of marks will not, by reason of such failure alone, be liable to be dismissed. He will, however, be remanded for an extra course of study of the subjects taught in the year in which he failed. He shall not be permitted to go on to his next year of study until the College Council be satisfied that he has made sufficient progress in the year of remand.

4. A civil or military medical pupil, having failed at a final or annual examination may, on the recommendation of the College Council and Final Examination Committee, and with the conjoint approval of the Surgeon-General and the Director of Public Instruction, be allowed one remand during his entire course with or without stipend. All stipendiary pupils, other than those in the service of the Government (Madras), may likewise be allowed the same privilege, subject to the approval of the Director and with the consent of the authority by whom they are respectively paid.

5. If a pupil fails at the end of the year of his remand, he should in every case be dismissed with the option of attending the College thereafter as paying student, provided the College Council be willing to admit him.

6. If a pupil be disabled during his course by illness, or fails from any cause beyond his control, and which the Council may consider sufficient to justify his being exempted from the operation of Rules I and II, such exemption may be granted; each case of this kind will be separately considered and dealt with according to its own merits. In all such cases, he should, however, be remanded for another year's study. (Proceedings, Madras Government, Educational Department, 7th November 1889, No. 697.)

9. The Committee of Management shall be at liberty to entertain such nurses and servants as may be necessary for the wants of the hospital, and to dismiss the same when they may think fit. The committee may also enter into contract for the supply of articles of diet, clothing, furniture, and other necessities as may be required for the service of the institution.

10. *Superintendent.*—The Superintendent of the hospital shall be a lady who possesses either a degree in medicine or a license from some recognized university or corporation to practise in medicine and surgery.

11. The appointment, dismissal and remuneration of the Superintendent shall rest with the Committee of Management, subject to the approval of the governors.

12. The Superintendent shall be responsible for the due performance of the medical and surgical duties of the hospital. She shall attend the hospital daily and prescribe for patients between the hours of 8 and 10 A.M., and at such other times as may be requisite.

13. The appointment, salary, and terms of service of the resident medical women shall be at the discretion of the Committee of Management.

14. The governors of the hospital shall submit to Government annually, within three months after the expiration of the calendar year, a report containing a full account of the management of the hospital, accompanied by such statistics as may be prescribed from time to time.

RULES FOR MEDICAL SCHOLARSHIPS FOR WOMEN OF TRAVANCORE.

1. During the nine years beginning with 1st October 1892, the Travancore Government will grant two scholarships to enable young women, born and educated in Travancore, to study for the certificate of Apothecary or a medical degree, and two scholarships to enable young women, being natives of and educated in Travancore, to study for the certificate of Hospital Assistant.
2. The scholars must pursue their studies in the Madras Medical College, and will be under the supervision of the Committee of the Madras Branch of the Committee of the Countess of Dufferin's Fund.
3. The earliest age of a candidate must be 21 years on the 1st September of the year to which the scholarship appertains.
4. A candidate must possess the general educational qualifications prescribed for the certificate or diploma for which she agrees to study.
5. Candidates must produce certificates of qualification for the profession of medicine and satisfactory testimonials of character, and they should state the vernacular or vernaculars they know.
6. The Government will suspend a scholarship on the recommendation of the committee, if the holder of it misbehaves in any way, shows a want of zeal, or is likely to prove inefficient.
7. The scholarship for the Apothecary grade or for a diploma will carry a monthly stipend of Rs. 50 tenable for four years. Each scholar will be provided with the necessary books and instruments subject to a limit of Rs. 180, on an indent signed by the Principal of the Medical College and approved by the committee. Scholars must bear their own travelling expenses.
8. The scholarship for the Hospital Assistant grade will carry a monthly stipend of Rs. 30 tenable for four years, the first of which is pre-collegiate. Each scholar will be provided with the necessary books and instruments subject to a limit of Rs. 60, on an indent signed by the Principal of the Medical College and approved by the committee.
9. The Government may hereafter, by notification, make the entering of the medical service of Travancore a condition of holding a scholarship, but no scholar, on completing her course successfully, shall be required to enter such service, unless such a condition was imposed on her when the scholarship was granted to her.
10. The scholarships will be awarded by the Madras Committee of the Countess of Dufferin's Fund. In awarding scholarships, due consideration will be given to the position taken by a candidate in the public examination which is the general test of the medical grade for which the candidate purposes to study.
11. All candidates must appear in person before the Principal of the Madras Medical College, or other selecting authority, who will judge their physical fitness for the Medical profession.
12. Applications for scholarships should be addressed to the Secretary to the Madras Committee of the Lady Dufferin Fund not later than the 10th September 1892.

ARTICLES of AGREEMENT made and entered into this _____ day
of _____ 189 .
BETWEEN _____

has produced evidence of Registration under the Medical Acts of the United Kingdom of Great Britain and Ireland or such certificate of qualifications as would entitle her to such Registration and also a certificate of sound health and fitness for service in India signed by a member of the India Office Medical Board and has also furnished satisfactory certificates of good character IT IS HEREBY MUTUALLY AGREED AND DECLARED by and between the parties hereto as follows, viz. :—

- 1.—The said
shall at once proceed to India and act as an employee of the said Association at such station or stations as the Association may from time to time direct for a period of five years (determinable nevertheless as hereinafter mentioned) to be calculated from the date of her reporting to the said Association her arrival in India.
- 2.—The said
shall and will submit to supervision by the District Surgeon or other Commissioned Medical officer designated in this behalf by the said Association and will obey all orders given by such Medical officer in matters connected with her duties as an employee of the said Association. She shall also devote herself entirely to medical work and to forwarding the aims and objects of the said Association to the best of her ability and will conform to all rules laid down by and obey all orders received from the Central Committee or the branch of the said Association under which she may for the time being be working.

NOTE.—The supervision ordinarily exercised by Government Medical officers designated by the Association is as follows :—

- (1)—The Principal of a Medical School is empowered to give directions regarding the general and economic management of the boarding house and attached hospital, the management of the female pupils and school classes, the course of tuition and the delivery of lectures.
- (2)—A Lady Doctor employed at a hospital attached to a Medical School is allowed to treat all patients at the hospital herself, subject to such control on the part of the Principal

or any Commissioned Medical officer to whom he is subordinate as is exercised by senior Medical officers over the Medical officers in charge of hospitals supported by Government.

- (3)—A Lady Doctor employed at a hospital which is not attached to a medical school, is allowed to treat all patients at the hospital herself subject to such control as is above mentioned on the part of the District Surgeon or any Commissioned Medical officer to whom he is subordinate or any other Commissioned officer specially designated in this behalf by the Association.

- 3.—The said shall be at liberty to engage in private practice provided that such practice does not, in the opinion of the Central Committee of the said Association, in any way interfere with the special duties assigned to her by the said Association.

- 4.—The said shall also apply herself to the acquisition of such a knowledge of the vernacular of the province in which she is serving as is considered by the Central or Provincial Committee (as the case may be) of the said Association necessary to enable her to give clinical instruction in that language to any pupils who may be placed under her charge and if she has no such pupils to converse intelligibly with the patients under her care. In order that her knowledge of the vernacular may be tested the said will present herself for examination within a time to be fixed in each instance by the Central Committee of the Association which shall, in no instance, be less than one year from the date of her arrival in India. If she fails to pass the examination prescribed in her case within two years, she may be held at the discretion of the Central Committee of the Association to have incurred the penalties mentioned in clause 12 of this agreement. If she has qualified in the vernacular of one province in which she has been employed by the Association, she shall not, on transfer to another province, be required to pass an examination in the second vernacular.

- 5.—The said Association shall pay to the said before she leaves England the sum of £80 for payment of outfit and passage money to India and of all expenses whatever incurred by her up to the date of arrival at the station in India to which she may be first appointed by the said Association.

- 6.—The said Association shall pay to the said a salary of Rs. 300 per mensem from the date of her reporting her arrival in India and Rs. 350 per mensem with effect from the date on which she may pass the examination in the vernacular referred to in clause 4 of this agreement and shall either provide her with free quarters or pay to her an allowance of Rs. 50 per mensem from the date of her joining the first station to which she may be appointed and shall also pay to her all actual expenses incurred by her in travelling from one station to another on the business of the said Association and the

time to be occupied by her in travelling shall be fixed by the rules for the time being applicable to Government servants when joining a new appointment.

- 7.—On the completion of her employment under this agreement to the satisfaction of the said Association, the said Association shall pay to her a sum of Rs. 800 in quittance of all claims on account of return passage to England from the station where she may be employed or otherwise.
- 8.—All sums on account of salary, allowances or forfeitures shall be calculated, paid and received in Indian currency.
- 9.—The said Association shall, if her services can be spared at the time and not otherwise, give to the said one month's privilege leave in each year on full pay. Provided always that such leave shall not be allowed to accumulate from year to year.
- 10.—All terms as to leave of absence from duty on account of ill-health shall be in the absolute discretion of the said Association, but in the event of the said being compelled to leave India permanently on account of ill-health contracted in or by the service of the said Association, the said Association shall, in lieu of the sum of Rs. 800 mentioned in clause 7 of this agreement, pay to the said such sum not exceeding Rs. 800 as the said Association shall, upon consideration of length of service and other circumstances of the individual case, think fit.
- 11.—The employment of the said under this agreement shall be terminable by either party before the expiration of the said period of five years on giving six calendar months' notice in writing to the other of them of such intention.
- 12.—Provided always that, in the case of any breach of this agreement or any clause thereof by or on the part of the said or in the event of her leaving the employment of the said Association without written sanction or of misconduct or neglect of duty on her part, or in the event of her failing to pass the examination in the vernacular prescribed in her case within the period of two years from the date of her arrival in India, the said Association shall be at liberty to cancel this agreement forthwith, and the said shall forfeit all claim to prospective salary and to the sum of Rs. 800 mentioned in clause 7 of this agreement.
- 13.—In the event of her employment under this agreement being terminated by the said under clause 11 of this agreement on any ground except that of ill-health, the said shall refund to the said Association one-fifth part of the aforesaid outfit and passage money for every year or part of a year of her engagement remaining uncompleted at the date of the termination of such notice or at the date of her leaving the service of the said Association whichever shall be the earlier day.
- 14.—In the event of the employment of the said under this agreement being terminated

by the said Association under clause 11 of this agreement the said Association shall give to the said _____ in lieu of the said sum of Rs. 800 mentioned in clause 7 of this agreement a gratuity to be calculated in the same ratio to the said sum of Rs. 800 as the period of service uncompleted at the alternative date mentioned in clause 13 bears to the said full term of five years.

The following is the agreement entered into between scholarship-holders, and District and Municipal Boards and the *Madras Branch of the Countess of Dufferin's Fund* :—

(Eight annas stamp.)

I, _____ having been admitted into the Medical College, Madras, as the Female Apothecary scholarship-holder provided by _____ do hereby bind myself, in consideration of such admission and due payment of my stipend, to remain in the institution for a period of ^{three}_{four} years, and, whilst under training therein, to abide by the rules, from time to time prescribed for the conduct of its students; and also to serve as a Hospital Assistant in _____ or any other district desired by the Committee of the Countess of Dufferin's Fund, for a period of five years at least, after completing my training in the above institution.

2. I further bind myself, in the event of my failing to fulfil any of the above conditions, to refund to the _____ or to the Committee of the Countess of Dufferin's Fund the amount drawn by me as stipend during the period of my studentship.

3. I shall submit to the supervision of the Principal Medical officer of the district, the Civil Surgeon of the station or duly recognized Medical officer acting on behalf of _____ and obey all orders in matters connected with my duties as an employee of the said _____.

4. I shall devote myself to the acquisition of such a knowledge of the vernacular of the district in which I am serving as will enable me to discharge my duties efficiently, or to give clinical instruction in that language, if necessary, to pupils who may be placed under my charge, and to pass such examination as may be prescribed in this behalf by the Board which I engage to serve within two years from the date of my agreement.

THE COUNTESS OF DUFFERIN'S FUND, MADRAS BRANCH.

R. T. LAWLEY, Captain,
Honorary Secretary.

Madras 18th February 1893

To,
The Hon^{ble} The Chief Secretary to Government
Fort St. George

Sir,

In accordance with Clause 14 of the
of the Victoria Memorial for Caste and Gosha Wards
I am directed by the Government to submit herewith
six copies of the Report of the Committee of Dub.
Funds, Madras Branch, embodying the
the Hospital for the year.

2. The total number of in-patients admitted
for treatment during 1892 was 750 against 834
recorded for the previous year; but the Government
learn that no possible deductions can be made
from the figure of the record of attendance kept
by the late Superintendent of the Hospital was
faulty and incomplete. This was brought to notice
too late in the year for the Managing Committee
to place the periodical returns and records on a proper
footing. A new system of keeping the monthly
Return of in-patients, has, however, been
adopted, and the return for January 1893 has already
been prepared and submitted.

The Governors therefore hope that their next annual
report will be of a complete and satisfactory nature.

I have the honor to be

Sir
your most obedient servant

J. H. M. M. M.

Secretary to the Governors.
