

This deed was submitted to the India Government with my application to take the institution under Government management on the 1st Decr. 1871 but no orders are received yet. A copy of this deed was printed at page 6 of the annual report referred to above. I also enclose a copy of it for your kind perusal. I also represented these circumstances to J. Eliot Esq. in last month when he came here for the examination of the observatory.

I therefore solicit that you will

be kind enough to afford assistance in moving it to the Bombay Government to take permanent management of the observatory and that you would thereby show favour and attachment which you have towards my ancestors and myself.

I remain

Dear sir

Yours devoted servant

CHIEF SECRETARY
17 MAR 1861
Vizag
13th Mar
The Honorable Mr. G. S. Dalton Esq.
Chief Secretary to the Govt of
Madras

Dear sir,

I beg to state that you
will be pleased to observe from the
introduction at pages 5 & 6 of
the Annual report of G. V.

Jeggam's observatory of Vizaga-
patam for the year 1855 that
some 50 years ago my father late
Late Goday Venkata Jeggam
had established an astronomical
observatory at Dabakuram in
this town for the benefit of the

large and that when
he requested him to adopt
a son he refused to do so and
said "In my estimation I do
not prefer to my own daughter,
an adopted son brought of some
other family. I prefer my insti-
tutions to a mortal son." It will
be further seen that he resolved
to provide for the permanent
maintenance of the institution
and expressed that in case he
dies before doing so, his heirs
whoever they may be, should make
the institution permanent at the
cost of his estate. Unfortunately

he died before his
accomplished. But by so
consequently the duty of how-
its permanent management fell
on me as I am his only daughter
and succeeded to his estate. My
husband late A. V. Nursinghouse
Jr. R. A. I and J. R. I learned
the science, managed the insti-
tutions and much improved them.
My husband tried his best
to train our son, and my suc-
cessor A. V. Giggamon in this
science. He not only did not learn
this business, he also left off reading
and he was unable to pass over

had examination.

of this while he was under
our protection with every comfort,
he made enormous debts in
thousands of rupees and at last
became insolvent. Moreover

I am credibly informed that
since my husband's demise, he
has incurred a debt of Rs. 19,000
for which he has executed a
bond and the proceeds of which
he is squandering away now.

As he became so spend-thrift and
possessed no learning I thought that
he could not manage the insti-
tution after my husband's death

H.S.

and so consulting
my husband I resolved to
put it under Government manage-
ment with sufficient funds
to make it a permanent
one with a great desire that
I could thereby accomplish the
wishes of my late father. I
therefore endowed a sum of
Rs. 30,000 Government Pro-
missory notes by a duly stan-
dard registered deed signed by myself
and my son and attested by my
husband late A. V. Narsingh Rao
and executed in favour of India
