To

His Excellency The Governor
in Council
Fort Saint George
Through The Surgeon General
with the Government of Madras

The Humble Petition of
J. M. Kunju Nedungadi
Civil Apothecary
Madras Medical Dept

Showeth,

That your Excellency's
petitioner is a Licentiate
in Medicine and Surgery, of
the Madras University having
taken his degree in 1890.

(2) That in pursuance
of an advertisement which
appeared in some of the local
papers inviting applicants
from private candidates
possessing the L.M.S.
qualification, for service in
the Medical department

Civil
Th.

13
Civil Apothecaries, your
Excellency's petitioner applied
to the Surgeon General for
a place and got himself
entertained in January 1892.

(3) That early in 1893 on
finding an advertisement in the
"Madras Mail" inviting appli-
cations from private candidates
possessing the L M & S qualification
for the post of Assistant Surgeons
to be competed for, the petitioner
applied to the Secretary to
the Surgeon General for per-
mission to appear for the
Competitive Examination,
but he was informed that he
was not eligible, under a
recent Government order, as
he was already in the service
as an apothecary.

(4) That the petitioner
when he applied for the
Assistant Surgeons place
though

LD 758
4-11-92

thought that he would be
considered a private candidate inasmuch as he
had paid for his education.

for 157 + 229
10-3-92 4-4-92

(5) That the petitioner
after joining the department
as an apothecary was called
upon to execute a Bond
(though this was not stated
in the advertisement calling
for applications) to which
he readily agreed in the
firm belief that this would
never stand in his way
in securing admission
into the Assistant Surgeon's
grade, as other private candidates.
On the other hand
the petitioner would never
have executed the bond
if he had known that it
would destroy his eligibility
for competing for the Assistant
Surgeon's grade.

(6) That according to the G.O. '33 above referred to, the petitioner is not in any way in a better position than Civil apothecaries who received their medical education at the cost of Government inasmuch as it would appear that promotion to the Assistant Surgeon's grade will depend upon the length of service rather than anything else. This however, your excellency's humble petition begs to submit could never have been intended by Govt.

(7) The petitioner however begs to be excused for saying that he entered the service with the firm belief that he being a private candidate possessing the L.M.S. qualification would have preference in the matter of promotion over Civil apothecaries who received state education, but that he

he was sorely disappointed and distressed when he came to know that no distinction is to be made between an apothecary of his position and one who received education at the Government Expense.

(8) That if the disqualification in the petitioner's case is the fact of his being already in the service, the petitioner humbly begs to point out that his entering the service instead of being a blessing and a means of bettering his position would on the other hand be a punishment to him.

(9) That this is the case, will be plain to your Excellency on considering that private candidates who met the cost of their education from their own pockets like the petitioner, and who have not entered the service are offered the advantage of competing

Competing for a higher post
in the Service than that of
a Civil Apothecary, merely
because they have not
entered the Service. In fact
one of the Apothecaries enter-
tained with your petitioner
is an applicant for the Asst
Surgeon's post because he
had to leave the Service
owing to his reluctance to
execute the bond as an
Apothecary.

(10) That the petitioner has
already missed the best chance
of competing with a single
candidate and he is very
near missing a similar chance
which would occur in the
early part of April next.
There is little or no chance
of any more vacancies
occurring in the near future.

(11) That in these cir-
cumstances the petitioner
with due respect and
humble

656A
17-9-92

f. O. 89
6-3-93

humble submission earnestly
prays that your Excellency
may be pleased to order
either that he may have
preference over the Stipendiary
Candidates in respect of
promotion to the Assistant Surgeon
Grade, or that he may be
permitted to compete for posts
in that grade reserved for such
competition to private men,
for which act of kindness and
justice the petitioner shall,
as in duty bound, ever pray.

SURGEON-GENERAL

WITH THE GOVERNMENT OF MADRAS,
Madras, 6th April 1893.

No. C
41

From SURGEON MAJOR-GENERAL W. F. DEFABECK, M.P.,

SURGEON-GENERAL WITH THE
GOVERNMENT OF MADRAS,

Madras,

To

THE *Chief Secretary to Government*
Public Department

SIR,

In returning the petition from Civil Apothecary Kunji Nedangudi referred to me for remarks with your endorsement No. 631 dated the 4th instant, I have the honor to state that this Apothecary ought to have made himself acquainted with the rules governing the entertainment of Assistant Surgeons before he joined the Department, or at all events before he signed the usual agreement to serve Government in the Apothecary grade for five years.

Government has for various good reasons laid down that two thirds of the appointments in the grade of Assistant Surgeon should be reserved for "private" candidates and in G.O. No. 757 Public dated the 4th November last it has been decided that men occupying positions similar to the petitioner should be looked upon as "private" candidates and cannot therefore be allowed

allowed to compete for vacancies reserved for the latter.

2- One-third of the sanctioned appointments of Assistant Surgeon is reserved for sub-ordinates in the Department, and when vacancies to be filled up by them occur, the claims of qualified men in the Department are duly considered in submitting recommendations to Government. It may be observed that some men now in the Hospital Assistant and Apothecary grade have obtained the L.M.S. and higher degrees at their own expense, but this does not constitute all the qualifications necessary in the case of Departmental men; length of service and previous good work are very important factors in determining the suitability of men for promotion to the high grade of Assistant Surgeon. It is very inadvisable in my opinion to encourage men to enter the Apothecary grade with the sole object of promotion.

3- As regards the petitioner's statement that the Secretary in this Office refused to receive and forward his petition to Government, I must inform that Government that it is not a correct version of what occurred. He went up to the Secretary with a cover in his hand which he said was a petition requesting to be allowed to compete for the Army vacancies in the Assistant Surgeon's grade. The Secretary referred him to the Government.

9. Of November 1892

reserved for private candidates

candidates alone. He seems to have taken this as a refusal to forward a petition to Government. It certainly was not meant to be so. No attempt is ever made in the Office to stifle such memorials; the letter does not bear the office stamp, it was in fact not submitted to, nor seen in, the Office. As a matter of fact at the time this occurred the petition of another apothecary in a similar position on the same subject was referred back to him to be submitted in proper form prior to transmission to Government. This will follow on its receipt in the Office. The present petitioner is very young in the service which perhaps accounts for his precipitate action.

I have the honor to be
Sir

Your most obedient servant

W. H. P. Black and Sons
Surgeon General
With the Govt of Madras

For orders with ref: to G.O.

of 4.11.92, No. 758. which decided

3.5.13 2.5.13
7/4 7/4

as same case. Please
see note in original G.O.

J.S.D.

7/4/93

As long as these men are in the
service as civil apothecaries they
cannot compete as private candidates.
But I don't understand how in the
case of 30.2.1902 to 1907 they
have been required to execute bonds
to remain for 5 years. I presume the
bonds were taken before the issue
of that order. In any case, they
may be released from the bonds
and allowed to raise the service if
they are prepared to do so, in order
to make themselves eligible to compete
for the Civil Surgeon's office.

U.S.
