For orders.

It is not clear on what principle the Surgeon General has distributed the ^{senior} Senior Hospital assistants among Provincial, Local and Municipal services. It does not appear that it will be altogether possible in practice to maintain this ^{distinction} distinction. Should information be called for? Would it not be better to fix the strength of the Senior grade at the round figure of 30?

* The first item is the ^{Provincial} Provincial
Statement. 15-
Local Fund 13-
Fund. 4-

How this has been worked out has not been stated.

Admitted this is the present distribution of the Senior men. The ~~cost~~ distribution will of course vary from time to time according as the men are posted, & that given may be accepted on the above assumption merely as an illustration & I don't see why.
