No. 357-A.

From

SURGEON-MAJOR-GENERAL W. F. DEFABECK, M.D.,
Surgeon-General with the Government of Madras,

To

THE HONORABLE THE CHIEF SECRETARY TO GOVERNMENT,
PUBLIC DEPARTMENT.

SIR,

I HAVE the honour to submit, to the Right Honorable the Governor in Council, the Annual Returns of Civil Hospitals and Dispensaries for the year ending 31st December 1892 with short notes thereon as per G.O., No. 1455, of 12th July 1886, Public Department.

2. According to the instructions contained in Government of India letter No. 28 of 17th January 1893. quoted in the margin and communicated under your endorsement No. 114 of 10th February 1893, the statistics of those State Hospitals in mofussil stations, which were reported upon separately in 1891, have now been incorporated in the report on Civil Hospitals and Dispensaries.

3. The statistics of the Free Church Mission Dispensary I have not been able to obtain, though applied for repeatedly. The authorities seem to have some difficulty in furnishing them in the standard form prescribed by the Government of India.

4. As a modified scale of charge allowances for Hospitals and Dispensaries is now before Government for final orders, it seems inadvisable to insert the old rates in the current year's report.

5. The opening dates of several Hospitals and Dispensaries are not known; further efforts will be made to ascertain and insert them in future reports as far as possible.

6. *Number of Hospitals and Dispensaries.*—The year under report opened with 426 Hospitals and Dispensaries at work and consisted of—

I. Provincial hospitals	...	...	...	...	...	...	11
II. Municipal and Local Fund institutions	...	...	...	...	...	...	396
III-A. Private	...	...	...	...	...	...	1
III-B. Private aided	...	...	...	...	...	...	18

To these were added during the year 20 of class II and 1 of class III-A against 4 of class II closed, so that, at the end of the year, there were actually 443 institutions at work.

Statement I of the annual returns in the appendix gives full particulars as to the classification of dispensaries, and the number in each district with the ratio per mille of population. This statement shows an increase during the year in the provision for medical relief to the general Population, which rose from '012 in 1891 to '013 in 1892.

7. *Dowlaiswaram.*—The management and control of this hospital, which till 1891, was vested in Government, has since been transferred to the local authorities. This accounts for the increase of one in the number of dispensaries under class II as compared with the figures in last year's statements.

8. *Sick treated.*—The totals of in- and out- patients treated during the year under report, and during the one immediately preceding it, are given in the margin, but, owing to the inclusion of the Mofussil State Hospital statistics in the report of 1892, a strict comparison between the two years is not quite practicable. However, making due deductions for the increase consequent on the Provincial Hospitals added, the number treated during 1892 still showed a very large increase over the previous year. As usual, the increase among the out-patients was proportionately greater than among the in-patients.

Of the in-patients, a little over 60 per cent. of the total treated are shown as "recovered," while the number relieved or partially recovered was 6,319, giving a rate per cent. of 15.90 to the total treated. Of the out-patients, 2,622,118 or about 85 per cent. attended hospital in person, and those represented by friends and relatives amounted to about 15 per cent.

9. In spite of the increase in the number of medical centres, the provision of beds for the accommodation of in-patients remained almost stationary, as the institutions opened during the year were chiefly for out-patients.

10. The daily average sick (in- and out- patients) during the year in the various Hospitals and Dispensaries averaged 21,271.22, and consisted of 1,783.90 in- and 19,487.32 out- patients as per table below :—

	Daily Average Strength.			
	Men.	Women.	Children.	Total.
In-patients ...	1,165.26	515.56	103.08	1,783.90
Out-patients ...	9,711.60	4,151.13	5,624.59	19,487.32
In- and Out- patients...	10,876.86	4,666.69	5,727.67	21,271.22

11. *Mortality among In-patients.*—The average death-rate per cent. of total treated was 9.35, and varied in the several districts from a minimum of 4.53 in Tanjore to a maximum of 15.52 in Malabar.

12. *Caste of Patients.*—Nearly three-fourths of the total treated during the year were Hindus, Muhammadans come next, and Europeans and Eurasians, as usual, were comparatively small in number; the number under "other classes" aggregated 319,476.

13. *Diseases treated.*—A detailed statement showing the various diseases treated during the year, with the number under each, is given in Statement III of the returns appended to the report. The affections of the eye gave the largest number of admissions compared with last year. The increase in the admission of eye cases was very large. Simple "ulcers" also provided a large number of admissions: 11.06 of the aggregate sick treated during the year.

The subjoined table gives some of the principal diseases with a ratio per cent. of the total treated for all diseases put together :—

Name of Diseases.	Number treated.	Ratio per cent. of total treated.
Diseases of the eye	372,939	12.01
Ulcers	343,515	11.06
Diseases of the skin	299,540	9.64
Malarial fevers	243,089	7.83
Worms	170,548	5.49
Diseases of the ear	159,154	5.12
Local and general injuries	158,431	5.10
Rheumatic affections	149,143	4.80
Dyspepsia	111,350	3.58
Total ..	2,007,704	64.63

14. *Surgical Operations.*—The total number of operations performed during the year were—

Major	...	...	...	...	...	...	...	4,391
Minor	...	...	...	...	...	...	...	108,149
Total	...	...	...	...	...	...	...	112,540

Of the major operations 3,155 were performed by Medical subordinates and 1,236 by Civil Surgeons with the results as shown in Statement III-A.

When considering the number of operations performed by Medical officers, allowance must be made for their repeated absence from head-quarters on inspection duty in their respective districts. I have, however, drawn the attention of some District Surgeons to the small number of operations performed by them during the year, and have intimated to them that I expect to see a better outturn in future.

15. *Finance.*—Three of the statements appended to the report afford information on finance.—1st, as to income; 2nd, expenditure; and 3rd, invested capital in favour of Hospitals and Dispensaries.

The annexed statement gives the different sources of income and the amounts realized during the year :—

	RS.	A.	P.
From Government	84,789	6	8
From Municipal and Local Funds	7,42,525	0	3
Interest on invested capital, including sale of securities	28,351	5	1
European and Native donations, together with the recoveries from the paying patients	25,308	9	5
Sale of medicines	6,778	12	8
Miscellaneous receipts	3,430	0	1
Total	8,91,183	2	2

Of this sum Rs. 4,91,513 or a little over 55 per cent. of the total expenditure was on establishment. On medicines (bazaar and European), the expenditure was Rs. 1,48,198-8-0. On diets and miscellaneous charges the amounts were severally Rs. 99,812-10-11 and Rs. 79,334-5-3.

The outlay on buildings and repairs amounted to Rs. 71,975-8-1, and a sum of Rs. 348-15-11 was added to the funded capital, so that the expenses connected with the maintenance of these hospitals aggregated Rs. 8,91,183-2-2. Of this amount 9.5 per cent. was contributed by Government as per details in column III-B of Statement V.

It is satisfactory to note that during the year under report there was an increase in private subscriptions.

A large falling off in the invested capital of the Hospitals and Dispensaries occurred during the year. This was chiefly due to the withdrawal from the funded capital of the Calicut hospital, a sum of Rs. 10,500 for the construction of a new hospital in lieu of the present one; also to a sum of Rs. 2,500 being withdrawn from Sattur Dispensary and utilized for its maintenance during the year.

It will be noted that the invested capital at the beginning of the year is not in entire accord with the one shown on the last day of 1891. This difference is explained 1st by Rs. 672-1-4 pertaining to Perambalur dispensary in Trichinopoly

district, having been amalgamated with the Board's account as remarked in page 137 of last year's report, and, 2ndly, to the difference between the opening and closing balance of the Kulittalai Dispensary, which the President now reports to be Rs. 2,000-11-9 in lieu of Rs. 1,943-8-0 as reported last year.

I have the honour to be,

Sir,

Your most obedient servant,

W. F. DEFABECK, M.D., Surgeon-Major-General,
Surgeon-General with the Government of Madras.

ANNUAL RETURNS.

STATEMENTS I—V.

STATEMENTS I-V.

DISPENSARY STATISTICS.

Volacum and 14th July 1893.
Madras,

No. 9246.

From

SURGEON MAJOR-GENERAL W. F. DEFABECK, M.P.,

SURGEON-GENERAL WITH THE

GOVERNMENT OF MADRAS,

Madras,

To

THE

Hon'ble the Chief Secretary to Govt.
Public Department

SIR,

In accordance with O.G. N^o. 145
of 12th July 1886 P.D. I have the honor
to submit the Annual returns of the
Civil Hospitals and Dispensaries for
1892 with brief notes thereon.

2/ With reference to the footnote
on page 106 of the report, the District
Surgeon Rajahmundry has since ex-
plained the circumstances under which
the Compounder's pay was not separated
from those of the menial servants
in Col. 4 A of Statement V Part I
(Expenditure) and has promised to
carry out this arrangement in future
years.

3/ I may state for the information
of Government that I have had
unusual difficulties in getting the
report

10/11/92/2

report ready for submission to Govt
in time. With the limited staff sanctioned
for the Statistical Department and the
extra jail work thrown on this Depart-
ment since 1892, regarding which a
representation was made to Government
last year, it would have been impossible
to submit this report by the due date
had it not been for the fact that
Clerks from other Departments of the
Office had to be detailed for duty
in the Statistical Department for
nearly 3 months to the prejudice of
their own duties, with the result that
other work in the Office had to be
postponed and this has caused a
considerable arrears in the Office.

I trust in the interests of public
duties that Government will not
allow this state of things to continue.
A small addition to this Office Establishe-
ment is absolutely necessary to keep the
work current.

I have the honor to be

Sir

Your most Obedient Servant

W. J. M. Subbarao Esq.

M. Surgeon General with the
B. M. S. Madras

Public (189) DEPARTMENT.

From

SURG. MAJOR-GEN. W. F. DEFABECK, M.D.,

SURGEON-GENERAL WITH THE

PUBLIC DEPT

READ—the following paper:—

From Surgeon-Major-General W. F. M.
the Government of Madras, to the
Ootacamund, 11th July 1893, No. 1455.

In accordance with O.G., No. 1455,
I have the honour to submit the annual return
for 1892 with brief notes thereon.

2. With reference to the footnote on page
Rajahmundry, has since explained the circum-
stances was not separated from those of the menial
Part I (Expenditure), and has promised to do so.

3. I may state, for the information of the
authorities in getting the report ready for submission
the limited staff sanctioned for the Statistical
Department thrown on this department since 1892, regis-
tration last year, it would have been due date had it not been for the fact that I
had to be detailed for duty in the Statistical
prejudice of their own duties, with the result
be postponed and this has caused considerable
interests of public duties, that Government
continue. A small addition to this office will
the work current.

ORDER—dated 2 August 1893, No. 593.

With his letter read above the Surgeon
brief notes regarding civil hospitals and dis-
due on the 15th July and their submission
mendable. It is hoped that the same per-
reports for the current and future years
has to make in this connection should be made.

2. Under instructions contained in
No. 807, dated 30th December 1891, and
statistics relating to the State hospitals in
the present report, but those of similar hospitals.
The total number of the institutions under

2ND AUGUST

3, Nos. 592, 593, PUBLIC.

GOVERNMENT OF MADRAS.
PUBLIC DEPARTMENT.

READ—the following paper :—

From Surgeon-Major-General W. F. DEFABECK, M.D., Surgeon-General with the Government of Madras, to the Chief Secretary to Government, dated Ootacamund, 14th July 1893, No. O-246.

In accordance with O.G., No. 1455, of 12th July 1886, Public Department, I have the honour to submit the annual returns of the civil hospitals and dispensaries for 1892 with brief notes thereon.

2. With reference to the footnote on page 106 of the report, the District Surgeon, Rajahmundry, has since explained the circumstances under which the compounder's pay was not separated from those of the medical servants in column 4-A of Statement V, Part I (Expenditure), as has promised to carry out this arrangement in future years.

3. I may state, for information, that I have had unusual difficulties in getting the report ready for submission to Government in time. With the limited staff sanctioned for this department and the extra jail work thrown on this department since last year, such a representation was made to Government last year, that I would be able to submit this report by the due date had it not been for the fact that I had to be detailed for duty in the Secretary's office for nearly three months to the prejudice of their own duties, with the result that the report had to be postponed and this has caused considerable delay in the office. I trust, in the interests of public duty, that Government will not allow this state of things to continue. A small addition to this office establishment is absolutely necessary to keep the work current.

ORDER—dated 2nd Augt 1893, No. 592, Public.

With his letter read above the Surgeon-General submits the annual statistics and brief notes regarding civil hospitals and dispensaries for the year 1892. These were due on the 14th July and have been submitted within the prescribed date. Any representation the Surgeon-General has to make with reference to an increase in the establishment of his office should be separately submitted to Government.

2. Under instructions contained in letters from the Government of India, No. 807, dated 30th December 1891, and No. 28, dated 17th January 1893, the statistics relating to State hospitals in the Presidency town have been omitted from the present report, but those of similar hospitals in the mofussil have been included. The total number of institutions under consideration was thus 443 at the close of the year under review against 426 on the corresponding date in 1891, and of these 11 belonged to the State, 16 to local bodies and 19 to private parties towards the cost of 18 of which contributions were received either from Government or local bodies or both. Appendix I shows that the number of dispensaries in North Arcot, Coimbatore and Malabar is still sufficient; the attention of the local bodies concerned will again be called in the Local and Municipal Department to this point.

3. The following statement exhibits the results of the work carried on in the hospitals referred to above and the charges incurred on their upkeep in 1892 as compared with the previous year :—

	Number of patients treated.		Daily average attendance of patients.		Number of beds available.	Mortality among in-patients (percentage).	Number of operations.		Total expenditure.
	In.	Out.	In.	Out.			Major.	Minor.	
1891 *	37,532	2,737,870	1,674.1	17,918.4	2,995	9.48	3,649	90,222	RS. 8,49,386
1892	39,741	3,066,645	1,783.9	19,487.3	2,985	9.35	4,391	108,149	8,91,183

* The figures for 1891 given above include those of the 12 State hospitals in the mofussil which were excluded from the returns of the civil hospitals and dispensaries submitted for that year.

4. As compared with the previous year, there was a considerable advance in the number of patients treated, in the daily average attendance, and in the number of surgical operations. It is, however, a matter for regret and an unsatisfactory feature of the year's administration that the number of beds provided was ten less than in 1891. The rate of mortality among the in-patients remained almost stationary, although in Malabar, Madras, Ganjam and Coimbatore it was very high.

5. The increase in the charges occurred under all the minor items except investment, but mainly under establishments and diet. The large excess† under these heads should have been explained. Over 55 per cent. of the total outlay was incurred on establishments, the contribution of Government amounting to 9.5 per cent. as in the previous year. The expenditure (83.3 per cent.) was, as usual, from Local and Municipal funds; however, a noteworthy increase in the amount of subscriptions received from Europeans and natives was highly satisfactory. The other items of receipt do not show any material change.

† Establishments	RS. 24,446
Diet	12,294
‡ European subscriptions.	1891. 1892. In RS. RS. C
