Government House
Cotacaimund
11th July 1893.

No 22

1865

CURRENT NO 1667

From

Major The Honble R. T. Lawley

To

Honorary Secretary
Committee of Duffin Fund

The Chief Secretary

to Government

Cotacaimund.

Sir,

I have the honor by direction of Her Excellency the Lady President and Executive Committee of the Committee of Duffin Fund to submit an application for a grant in aid towards the funds of the Victoria Caste and Goocha Hospital for the favorable consideration of Government.

2. In accordance with para 3 of G. O. No. 678 Public dated 27th September 1892, impressing on the Committee the absolute necessity that existed for exertions to increase subscriptions to the Institution and to reduce expenditure as far as possible, a special appeal was made to the wealthy and influential native gentlemen in Madras, but the response was far from being encouraging. Leaving out the qualifying donations from the governors of Rs. 400/- per annum and the amounts contributed by Native Chiefs, Rajahs &c who were attracted to Madras by the chieftainship held by H.E. The Viceroy, the total sum collected was Rs. 170/- given by nine people. Taking into account the fact that the book was sent to over 100 respectable gentlemen on Government House list, that most of them are in receipt of over 200 Rs. a month, and the rest wealthy landowners well able to subscribe, the result financially was a failure.

3. The Committee though it has failed in its efforts to increase subscriptions has as far as lay in its power, met the wishes of Government in reducing the expenditure without impairing efficiency. The saving thus effected amounts to Rs. 3000/- and odd a year, but as the

changes are only taking effect gradually, as certain structural changes had to be carried out in the Hospital buildings to make room for two residential ladies, incidental expenses incurred

in fitting them up, and travelling expenses of the new Superintendent to be met, the saving this year will not be the full amount shown in the margin.

4. The estimated receipts for the year are as follows:-

Donations	1966
Subscriptions	240
Miscellaneous	12
Interest on Capital	4258
Total Rs.	6476

The actual disbursements on working expenses and upkeep of the Hospital, including diet and medicine for the first 5 months amount to Rs. 3939 or Rs. 787 a month, and taking Rs. 600/- to represent the expenditure of the remaining 7 months, the figure may safely be placed at 4200, or 8139 for the year

Add Rs. 450/- for repairs & now being done by P.D. & Rs. 686 Municipal Tax 1136

Total expenditure 9275

The difference between receipts and expenses shows a deficit of 2799

Deduct opening balance 593

2206

5. It is true that the deficit as shown by the above will be about Rs. 2200/- but as the Hospital only wants

January - 91 - 71 - 100 - 77 - 8
 In patients 351 - 453 - 649 - 568 - 696
 Out patients 442 - 524 - 749 - 645 - 777
 Total

wants a little government help from Government for to tide over the present financial crisis it is suggested that Government be asked to grant a donation of Rs. 2500/- this year, gradually withdrawing their support as the Capital increases.

6. Since the re-organization of the establishment of the Hospital, and through the efforts of the Committee to induce the wives of leading native officials to visit the Hospital it has very largely increased in popularity at a corresponding cost of upkeep. The numbers seeking relief are going up very rapidly and are now higher than ever they were.

Since April 1892 the Capital of the hospital has increased by 9000 Rs. and a sum of Rs. 2000/- which had to be utilized for current expenses pending receipt of a grant from Government, is due to be added before the year is out, but as these investments have very lately taken place, the full return in the shape of interest can only be looked for next year.

7. Assuming that all possible reductions in the staff will have been made by the end of the present year the following are the estimated receipts and expenditure for 1894.

Receipts	
Interest on invested Capital	Rs. 4220
Interest on Rs. 11,000 placed to capital account since April 1892	520
Donations	1966
Subscriptions	240
	6946
Expenditure	
Establishment	4427
Diet	1824
Medicines and Instruments	1000
Contingents	780
Taxes	586
	8717
	6946

Probable deficit

Circulars. For orders.

In P.O. d. 17th September 1892 no 678
a grant of Rs 4000 was sanctioned for
the Executive Committee now asks for Rs
for the current year and apparently for
Rs 2000 in 1894.

P32

15/7

I would sanction Rs 2500 for this
year, if the money can be found.
There is no budget provision, I think.
The grant asked for for 1894-5 can
be considered in connection with
next year's budget.
The Dufferin fund Committee have
certainly done a good deal to improve
the financial position of the Hospital.

W 25th July 1893

19 July.

order. 3 August 1893. No. 598

A grant of Rs 2500 from Govt. fund
will be sanctioned for the current year. The
grant required for 1894-95 will be considered
in connection with the budget for that year.
2. As the Govt. is glad to see
that the Committee of the Committee of Dufferin
has done a good deal to improve the financial
position of the Hospital.

From order
