17-11-93

FROM

E. D. MACLAGAN, Esq.,
Under-Secy. to the Government of India.

TO

THE CHIEF SECRETARY TO THE GOVERNMENT OF
MADRAS.

Rev. & Agri. Dept.
Archaeology.

Simla, the 25th July 1893.

SIR,

I AM directed to acknowledge the receipt of your letter No. 398-Public, dated the 18th May, submitting for favourable consideration an application from Dr. Hultzsch, in which he asks (1) that his present temporary appointment as Government Epigraphist may be made permanent; (2) that his present pay of Rs. 650 may be increased to Rs. 800 by annual increments of Rs. 50, and (3) that his services from the 21st November 1886, the date of his arrival in Madras, may, as in the case of other specialists, count towards leave and pension under the rules which apply to the Educational Graded Service.

2. Dr. Hultzsch was appointed to the service in 1886, under contract for a period of three years, on a salary of Rs. 400; in 1889, the term of the appointment was extended for a further three years, and the pay raised to Rs. 500—50—650. This further term expired in November 1892, and Dr. Hultzsch is now drawing Rs. 650. Dr. Hultzsch bases his present application on the ground that he has, since his pay was last fixed, undertaken additional work by editing the supplement to the Epigraphia Indica, and that by retaining his appointment as Epigraphist he has forfeited his lien on a Lecturership in the Vienna University and the prospect of succeeding Dr. Bühler as Professor of Sanskrit in that University.

3. Before passing orders as to the permanency of the post, the Government of India will require to ascertain from the various Provincial Governments the amount of epigraphical work which remains to be done. If it is found that the quantity of work on hand or in prospect necessitates the retention of an Epigraphist, the Government of India will take under consideration the question of admitting Dr. Hultzsch to permanent employment. In the meantime they will recommend to the Secretary of State the continuance of Dr. Hultzsch's appointment till 31st March 1898, in view of the fact that there is sufficient work

not under sent to Gov
by the order of H. D. MacLagan

in prosecuting further researches in the Madras Presidency, and in editing the epigraphical matter collected from other Provinces, to occupy him for a period of five years.

4. Dr. Hultzsck since he arrived in India has received a material increase of pay, and the Government of India are not prepared at present to support any proposal for a further increase; they will wait till the investigation suggested in the preceding paragraph has been completed. It will be observed that in 1889,

when the existing rate of pay was fixed it was already contemplated "that the sphere of Dr. Hultzsck's duties should be expanded," and the fact that he edits the supplement to the Indian Antiquary does not, in the opinion of the Government of India, entitle him to any enhancement of his pay.

5. With reference to Dr. Hultzsck's request that his service be allowed to count towards pension, I am to observe that it is already pensionable under Home Department Resolution No. 35-17, dated the 22nd January 1886. But as he has only six years' completed service, he would only be entitled to a gratuity, if compelled to retire at once. In the event, however, of his services being extended by the Secretary of State to 31st March 1898, he will by that date have completed ten years' service, and be able to claim a pension at the usual rates. In fact this extension will place Dr. Hultzsck in the position of a permanent servant of Government, subject to notice that his engagement may be terminated at the end of 1897-98.

6. Regarding the continuance of epigraphical research in India after 1898 a further communication will be addressed to you on receipt of the opinions of Local Governments

7. I am to intimate in conclusion that if during the next five years any material change should be made in the administration of the Archaeological Department, it may become necessary to place Dr. Hultzsck more directly under central, though not necessarily imperial, direction. In explanation of this remark, I am to communicate for your information an extract from a Despatch No. 46 (Public—Records), dated 14th May 1891, in which the Secretary of State desires the question to be considered "of entrusting work of this nature to the Asiatic Society of Bengal, assisted possibly by a subvention from Government." It is improbable that any action can be taken on His Lordship's suggestion until the provincial lists of archæological remains have reached a more advanced stage, but the subject will come under discussion during next winter at Calcutta, when it will also be considered whether epigraphical researches should not come under the same direction.

I have the honour to be,

SIR,

Your most obedient Servant,

W. Marshall.

Under-Secy. to the Govt. of India.
